

Chapter 107

Nathan motioned the people to keep silent. He gazed at Melissa, who remained indifferent, and said sincerely, "Director Wang, before I sign the agreement, I would like to take this opportunity to propose an offer."

Melissa threw a haughty glance at Nathan. "Huh?"

Nathan stared at Felicity coldly and added, "Dear representatives from each pharmaceutical company present here today, let's boycott the Bai Group. They are filthy and corrupted!"

Melissa frowned on the spot, but she remained silent.

The reason was William was remaining silent.

All the representatives of the pharmaceutical companies at the scene all shifted their gaze to Felicity.

Their eyes were clouded with confusion.

Nathan continued, "Before this, the Bai family privately joined arms with the other pharmaceutical companies to fight against the Genuine Care Medical Center. The Genuine Care Medical Center is our lifesaver, but the Bai family chooses to repay them with cruel and merciless means. That is their first sin – they were

ungrateful!"

The people at the scene nodded in agreement.

Steven indeed did it previously.

Nathan stretched out his second finger. "They also pressured the Genuine Care Medical Center to sign such an unfair contract. It's a shame to everyone in the pharmaceutical field. That is their second sin—they were unjust."

Then, Nathan raised his third finger!

"She has teamed up with us, but she broke the agreement secretly. It is clear that they look down upon us. This declares their third sin — they were insincere."

Steven stretched out his fourth finger!

"After breaching the contract, she mentioned countless times that she would give us an explanation. However, she has kept her mouth shut until now. That is the fourth sin — they were not trustworthy."

"I would like to ask all of you, have you ever received any compensation from the Bai family? They claim that they have no money, right? But did you guys know the truth? Last night, Felicity had spent tens of thousands of yuan to live in Cavesky Villa. This is the fifth sin!"

"All of these sins shouldn't be overlooked and pardoned!"

Nathan's fingers were like sharp swords, agitating the rage of all the representatives of various pharmaceutical companies present.

What Nathan spat out was true.

Their faces began to turn livid as they recalled the 'crimes' committed by the Bai family.

Especially when they heard that Felicity spent tens of thousands of yuan to live in the Cavesky Villa, they were outraged.

They had yet to forget the pressure and humiliation that the Bai family had given them.

The Genuine Care Medical Center had been benevolent to allow them to take up the role of the secondary agents again. Therefore, they did not dare to express their rage in public back then.

However, things were different at this moment. Nathan had taken the lead to bring up these matters.

Those representatives of the pharmaceutical companies all shot a sharp glare at Felicity, as if their eyes were screaming, "Sooner or later, I'll collect my debt from the Bai Family."

"Felicity, since you are here today, please give us a reasonable explanation. We are all ears!"

A middle-aged man rose from his seat and pointed at Felicity. "Give us an explanation for all these sins that you have committed."

"If you don't make it clear today, the Bai family will be ostracized by the entire industry in the future!"

Now that everyone had bought Nathan's words, they all became to target Felicity. Since they were the majority, their voices seemed to have become the truth.

A trace of pride flashed across Nathan's eyes.

Nathan had been preparing his speech for a whole day.

He wanted to make sure that he could knock out Felicity and the Bai family with a single blow!

With no mercy!

"Felicity, aren't you capable?" Nathan thought inwardly.

"And you William, aren't you cocky?"

Nathan glanced at the two of them. "I, Nathan, am waiting for the big show and see the two of you being defeated!"

As he thought of this, Nathan took a glance at those alumni as he searched for a person.

Soon, his eyes were fixed on Rachel.

Rachel was one of Nathan's gang. Of course, she knew what Nathan had in mind.

She immediately exclaimed exaggeratedly, "Wow, I didn't expect Felicity to be such a person. I've misjudged her."

Rachel deliberately misled the public and secretly shifted the focus of the public from the Bai family to Felicity.

However, the people were smoldering in anger, and they paid no attention to Rachel's scheme.

The others began to make a fuss. Their actions were fueled with jealousy and hatred for William. The other reason they chose to opt for Nathan's side was that they were grateful for Nathan's hospitality on this day.

"B*stard, if all the companies in Qena City are as shameless as Felicity and her family, then there will not be laws and integrity in this industry!"

Nathan's voice was getting louder as he continued to roar, "Exactly. To all the representatives present, the Bai family is going to go bankrupt. Are you willing to let them off the hook before they go bankrupt?"

Nathan turned his head to William. "Genuine Care Medical Center, you're the host today. Are you going to stay quiet and let one rotten apple spoil the barrel?"

All of a sudden, the scene turned into a ruckus.

All this pressure was slowly overwhelming Felicity and William.

Nathan remained aggressive.

The representatives of the pharmaceutical

companies glared at them furiously.

Those alumni had chosen to trust Nathan and continued to attack Felicity and the others mercilessly.

Felicity felt her head pounding.

If she hadn't come here this day, she wouldn't know that humans could be so sinister.

Since Nathan couldn't get what he wanted, he would rather lose everything.

He did not mind becoming the outsiders who held a candle to the devil. His only goal was only to destroy the Bai family.

Nathan was contented with the outcome.

The reactions of his alumni were exactly what he looked forward to.

A repeated slander was bound to make a lie become a truth. Not to mention when the slander was echoed by hundreds of people on the scene.

This sight was astonishing!

Nathan even successfully exerted part of the pressure on the Genuine Care Medical Center.

When everyone was in a heated discussion, Melissa voiced out of the blue.

Her voice was freezing cold.

"Security, get these people out of here."

With only one sentence, she took control of the

whole scene.

Those alumni who were making fuss became quiet at once when they saw the guards entering the hall.

They showed up in front of everyone abruptly and dragged out the chattering alumni.

These alumni did not work for any pharmaceutical companies on the scene, nor did they do anything wrong. Thus, they were enraged.

"What gives you the right to chase us out?!"

A girl bellowed, "Believe it or not, I'll go to the TV station and expose that the Genuine Care Medical Center is violent in treating patients."

"Genuine Care Medical Center, if you don't clear up the matter regarding the Bai family today, I will despise you for the rest of my life!" A man yelled as he tried to break free from the guards.

As the security guards were going to drive William and Felicity away, Nathan shouted, "Don't chase the two of them away!"

"Not only you can't chase them out, but you have to guard them carefully. Don't let them run away." Nathan scorned.

"They are the protagonists of today's show."

William and Felicity gazed at each other. It seemed that Nathan was determined to put them in a difficult position.

The noisy alumni were driven out, but their opinions were still lingering in the air, influencing the remaining people present.

All of a sudden, the crowd became quiet.

Nathan fixed his gaze on Melissa with burning eyes. "Director Wang, the Genuine Care Medical Center is kind and benevolent. I'm very grateful that you are willing to stay with us until the last moment. Therefore, today, please use your voice to uphold justice for all of us who were being humiliated."

Melissa's eyes were cold and indifferent from beginning to end.

She nodded. "You want me to uphold justice, don't you? Fine, I will do it even though I'm reluctant."

"Anyone who insists on an explanation from Felicity, please stand up," Melissa continued.

Nathan was the first one who stepped forward confidently.

Five people below the stage followed suit instantly.

This scene made Nathan's brows knit together.

Only five people?

Those people looked at each other and muttered in a low voice, "I heard that there is a mysterious big shot who supports Felicity secretly..."

A woman immediately chimed in, "Yes, if the Bai

family is not defeated, then we..."

"Why don't we wait till next time? Anyway, it's okay for us to ask for an explanation later."

When the five people who had stood up heard this, two of them sat down hesitantly.

Nathan's face turned ferocious all of a sudden. "Idiots! B*stards!"

The other representatives frowned instantly when they heard Nathan's words.

At this moment, Melissa uttered, "Is there anyone else? If not, I'll jot down the five of you. Let's sign the contract first."

She took a deep breath and continued, "The exclusive contact to become a secondary agent."

Chapter 108

As soon as Melissa finished speaking, the people began to chatter.

"Finally, I can see this mysterious exclusive contact."

A woman rubbed her palms together and praised, "The Genuine Medical Center has done an excellent job of keeping secrets. It did not get leaked for the past two days."

"We'll have to get to know them well later. In the future, they will be our superiors."

Nathan wanted to continue to talk about Felicity's matter, but when he saw Melissa's overbearing aura, he had no choice but to suppress his rage first.

At this moment, Melissa gazed at Felicity and announced loudly, "Please come up, Director Bai."

Director Bai?

Everyone was stunned.

Which Director Bai?

Was there a boss surnamed Bai on the scene?

Just as everyone was in doubt, Felicity stepped out and trod over slowly.

Seeing Felicity on the stage, everyone's eyes

widened.

Was Felicity Director Bai?

That was to say...

"The Genuine Care Medical Center will sign an exclusive dealership contract with Director Bai's company, the Bai Pharma. In the future, Director Bai will have full authority to deal with the matters pertaining to the Genuine Care Medical Center," Melissa announced indifferently and took out two contracts.

Her statement made everyone on the spot gasped with surprise.

The crowd fell into silence.

A pin-drop silence.

Felicity!

The hidden exclusive dealership contract of the Genuine Care Medical Center had fallen into Felicity's hands!

That being said, it still belonged to the Bai family!

Why?

How could this be?!

Nathan was in a daze as if he had been struck by lightning!

How did Felicity become an exclusive agent of the Genuine Care Medical Center?

Wasn't she going bankrupt?

She had transformed from an underdog to a complete winner!

If Felicity became an exclusive agent of the medical center, then...

Everyone present would be the secondary agents under Felicity.

Felicity was more influential than them!

This thought flashed across everyone's mind swiftly.

Their impression of Felicity changed.

Most of the representatives of the pharmaceutical companies were trembling in fear.

They had just saved their own lives!

They had just made a fiasco that might ruin their career!

If they had listened to Nathan, that b*stard, and stood out to boycott Felicity...

Then their future...

It would be a great tragedy!

They'd be playing with fire!

Fortunately, they didn't stand up. They had escaped from the trouble.

They long knew that Felicity was marvelous. At this moment, they finally learned how astounding she was.

Everyone felt a chill run down their spine.

It was as if a blade had been resting on their necks ever since they started accusing Felicity.

At this moment, the knife had been removed gently from their necks, leaving a trace of coldness as a warning to them.

And the four people who stood up glared at Nathan with flames of fury in their eyes!

"Nathan! You're f*cking ruining us!"

One of them exploded, "I'll kill you b*stard!"

"Director Bai, I didn't do it on purpose. I didn't mean to make things difficult for you. It's just that Nathan's father is my friend. Thus, I have no choice but to follow him... I was wrong. Can you please forgive me?"

The three of them rushed towards Nathan and beat him up!

One of them strode and bowed to apologize to Felicity instantly.

Seeing this scene, Felicity heaved a sigh.

Indeed, those who lost their power over others would always be belittled.

After all, these people who had belittled Felicity did not expect that she had only lost her power temporarily.

Her capability would always bring her to the throne again.

As Nathan was getting beaten up, his heart welled up with grievance at the same time.

How could this be?!

How could this happen? It's impossible!

He had listed out all her five sins, and none of them could be pardoned!

However, Felicity had become the exclusive agent.

Now that she had regained her power, all the sins mentioned by Nathan were nothing but lies.

"I don't believe it. I don't believe it! Genuine Care Medical Center! Director Wang! You must have decided to help Felicity. I refuse to accept this!" Nathan rushed toward Melissa like a mad dog, his eyes burning with fury.

In his opinion, Felicity had been keeping quiet because she knew she was in the wrong.

It was Melissa who had changed her mind secretly!

However, Melissa hit his forehead with the exclusive contract coldly. "Look carefully, can I make this contract at the last minute?"

Upon listening to this, Nathan landed onto the ground on his butt.

It was true...

It was undeniably true.

Staring at Felicity's aloof face on the stage,

Nathan suddenly felt a surge of remorse in his heart.

Then he thought of something even more terrifying.

He was about to beg Felicity to give him a chance for the sake as his schoolmate.

But at this moment, Felicity had finally made a statement.

"Mr. Representatives from the four companies, the Bai family has indeed wronged you all. However, since you have signed a contract, let's keep working together. Let's have pleasant cooperation in the future. As for Nathan, you haven't signed a contract with us yet, have you?"

Nathan had goosebumps all over his body.

He had not signed a contract.

That was right!

He was the last one to sign the contract.

However, he refused to sign it on purpose.

He was trying to go against Felicity.

However, he never imagined that his proudest scheme had become a double-edged sword, backstabbing him!

If he had not acted recklessly, thinking he would be supported by others, he would have signed the contract. Then, the Genuine Care Medical Center

and Felicity would have given him the dealership no matter what.

But at this moment...

It was over!

He was completely doomed!

Felicity gently picked up the contract that belonged to Nathan and tore it up casually.

The scraps of paper flew in the air like confetti.

The inherent meaning of her action was obvious without any further explanation.

Nathan had lost the dealership.

The scraps fell on Nathan's body like a knife.

He glared at the heartless Felicity with rage and growled, "Felicity, how can you be so cruel? We are schoolmates, after all. How can you be so ruthless?"

At this moment, Felicity suddenly began to laugh brutally.

From the previous day until this very day...

From the past until this moment...

For the first time, she showed her decisive side in front of everyone!

"Nathan, do you think I'm trying to make things difficult for you because of what happened for the past two days? You have underestimated my generosity. If that's the case, I would have cut you

off a long time ago." Felicity smirked.

"I'm looking down on your moral standing! You are evil! You seek revenge over the smallest unfairness! You'll argue for the trifles! You take wrong as right! You don't deserve to be human!"

Felicity continued, "Let me give a piece of advice since we were once classmates."

"An ambitious man indeed looks noble, but if you don't even have moral integrity, you don't deserve to be a man."

"Get out! Don't show up in front of me ever again."

Felicity's words were like needles, piercing Nathan's heart mercilessly.

When Melissa saw this scene, she gazed at William inexplicably, who was trudging over.

She seemed to understand why William fell for this woman.

In Melissa's eyes, Felicity had always been a weak little lady.

Occasionally, she would be blinded by love as if everything else didn't matter.

This gentle temperament of her disallowed her to become a successful businesswoman.

But what Felicity said at this moment made Melissa realize that Felicity was no coward.

Perhaps it was only because William had given her enough sense of security. Thus, she was

willing to be a loving woman.

If Felicity decided to be tyrannical, she could assert her dominance with no doubt and difficulty.

What an interesting couple.

When Nathan heard this, he didn't show any signs of regret at all. Instead, he went ballistic at once as if he had been triggered.

VAMP20 WOLF
