

Chapter 25

I gasped before quickly getting out of there, he chuckled at me clearly finding this amusing. I was shocked and confused at Asher's actions, why did he tell me I was his and why did I like it?

When I finally reached back to Rose I saw that Noel was still missing. She looked uncomfortable and looked up at me desperate. Feeling annoyed now and not really in the party mood I told Rose I would go find him, irritation clearly written on my face.

With an okay from Rose I went on to look for that idiot. I couldn't find him anywhere downstairs which meant he must be upstairs doing god knows what. Feeling indecisive about going up there I mustered up the courage to go after 5 minutes of pep talking myself.

I walked up the stairs, taking two at a time while two guys higher up watched me with hungry eyes, smirking at me. I walked faster and glared at them to intimidate them as I felt their stares directly on my boobs.

When I finally reached the top of the stairs where the guys were, I finally got a good look at them. One of them looked about 6 foot and had muscular tattooed body, he had hard dark hair with brown eyes and a piercing in his nose while the other looked about 5'7 with a slim body with red hair and green eyes.

They both were good looking but definitely not my type. My type was downstairs probably making out with a girl or doing worse. Feeling upset about my sudden thoughts I distracted myself by continuing my search for Noel, who I'll skin alive when I find him.

I was in the alleyway where there were too many doors to count, each looking the same. Just my luck! Sighing I got ready to open each door and opened the first one which I found was a bathroom and was empty, opening door number six I screamed of mortification when I found Noel and Arthur doing the dirty.

Blocking my eyes I yelled "Oh my God my virgin eyes!"

Noel looked at me shocked clearly embarrassed about being caught in this position " Shit Lily couldn't you knock?"

" couldn't you lock ?" I asked

" It's not the time to be sarcastic, get out" he yelled frustratingly

"I'm out, I'm out." I said and turned around still with my eyes blocked and walked into the door. Muttering an ow I silently laughed before unblocking my eyes so I could successfully get out without embarrassing myself further.

Okay so Noel is clearly busy so what the hell will Rose and I do now? I thought before making my way back. I was almost at the top of the stairs, the same guys there turned their attention towards me. I stopped short when the dark haired one advanced towards me.

He stopped a few inches before me, smirking seductively before opening his mouth to speak. " Hey s*xxy wanna have some fun?"

"No thank you " I stuttered

"Don't worry we'll go easy on you " he persisted

" she said f*cking No!" Asher said out of nowhere. He stormed towards us rage written on his features before he came to a stop by the guy facing him

"Damn Grey just wanted to know if she liked threesomes." The guy said looking at me while licking his lips

That must've upset Asher because the next thing I know the guy is pushed to the wall with Asher's hands around his neck. His red head friend tried to come to his rescue but one look from Asher stopped him in his tracks.

"She clearly doesn't want to have anything to do with you two, so why don't you and your buddy over here get out of my sight before I beat the shit out of you for talking to my girl like that." He yelled holding the guy tighter by the neck

The guys eyes widen before his face turned red from lack of oxygen " Oh shit I didn't know she was your girl man, sorry." He choked out

" Well now you know so get the f*ck out of my sight." Asher said and release him from his hold.

The two guys rushed out cursing on their way downstairs. When they were out of sight Asher turned towards me breathing harshly. He took strides towards me and pulled me to an empty room and locked the door. He pushed me on the door caging me between his arms and held my face in his hands while searching my face.

" thank you " I whispered looking at the floor

"That's nothing lily." He muttered

I looked up at him raising an eyebrow "Why did you tell those guys I was your girl?"

He answered me by pressing his lips on mine and k!ss me like his life depends on it. I stood still, shocked at what was happening. When I finally came to realization I started following his actions. Slowly k!ssing him back since I didn't know if I was doing it right. It was my first k!ss after all.

My inexperience must have made him more eager because his k!ss became rougher and more demanding, like he couldn't get enough of me. He breathed harshly before hosting me up to carry me towards the bed. I fell softly on the bed with him on top not breaking the k!ss.

He licked my lower lip teasing me by biting it softly while letting out a loud groan. He licked it again seeming impatient but I didn't know what to do. His hands traveled down towards my a\$\$ before cupping it and giving it a slight squeeze. He rubbed his harden length on me before I let out a moan of pleasure.

That must've been what he wanted because he pushed his tongue inside my mouth tasting every conner of my mouth. He groaned when I reached down and gripped his a\$\$ pulling him closer to me. He smiled in the k!ss and responding by grinding himself on me, making us both gasp in pleasure.

He broke the k!ss and looked into my eyes while still grinding his hardened length on me. I looked at him ,my eyes rolling back in pleasure while I moaned out his name. He looked back at me groaning in satisfaction before dipping his head to k!ss me.

We were stopped by someone knocking on the door. Shoving Asher off of me I got up quickly and run towards the door too embarrassed to look back at Asher. Unlocking the door I found a guy standing there looking annoyed.

" I hope you guys didn't f*ck in my bed!"

" No we didn't. " I squeaked and side stepped him to get downstairs.

Pushing through the sweaty drunk teenagers,I reached by Rose who looked miserable sitting alone. Feeling guilty I grabbed her hands before ushering her outside.

" Wait where is Noel?" She rushed out looking behind her

" Noel is to busy f*cking Arthur to care about us right now." I said angrily pulling her along with me so we could start walking home

"Oh so where are we going" she asked as she tried to keep up with my fast pace

"Home genius"

"But Lily we don't know where we are right now." She said as a matter of factly

I came to a halt and looked at her sheepishly "shit that's true."

She squinted her eyes staring at me with confusion " Why are you looking so flushed?"

I was about to answer when Noel run towards us looking out of breath.

"I have been looking for you guys everywhere!"

Chapter 26

Feeling relieved as Noel came to save me from answering Rose, I turned towards him to give him a piece of my mind.

"Why the hell did you leave us there to go and f*ck Arthur." I asked angrily

" I didn't know it would of been a big deal." He shrugged

" we are never going to a party with you again." Both Rose and I yelled

He rolled his eyes "Oh stop being a party pooper!"

" and why was Asher looking for you Lily,the guy was literally turning the house upside down." He asked confused

My eyes widen in shock and panic. My heart started beating frantically as I got afraid to answer that question. What was I going to say.... how Asher and I were dry humping each other upstairs and maybe would of gotten further if a guy didn't disturb us.

"I..I... I don't know" I stuttered out, trying to seem nonchalant. I maybe looked like a constipated idiot, because I was holding my breath and I'm pretty sure I was blushing.

"Asher is here?" Rose asked surprise written on her face

"Did that asshole do something to you?" Noel yelled, his hands fisted at his sides. At that point Arthur came out putting on his shirt smirking at us as he reached us. He looked at us confused as he noticed the tension in between us.

" no it was nothing like that I promise." I rushed out shaking my head frantically.

He raised his eyebrow looking at me accusingly " Okay whatever you say, but this discussion isn't over." He said pointing his finger at me

" there is nothing to discuss!" I yelled feeling embarrassed as Arthur and Rose looked at me.

" so what's going on?" Arthur asked looking at each of us. But we ignored him since we all were interested in discussing about Asher and I

" Oh something definitely happened!" Both Rose and Noel yelled before laughing at me

" can we just stop talking about this right now?, can we just go home I have a headache. " I said irritated at their amused faces. Arthur nodded before telling us to follow him to the car.

We were all in as Arthur started the jeep. That is when I saw Asher running out of the house bolting towards us looking enraged

"Lily!" He shouted

"Shit let's go" I yelled as I hit the drivers seat to let Arthur know he can drive now. But that idiot took forever to drive as he watched confusingly as Asher run towards us.

"Drive dude!" I yelled impatiently as I bounced up and down the seat. Arthur finally noticing my impatience because he drove off quickly. I looked back at Asher as I saw his sad face disappearing out of my sight.

I turned back around to see everyone's eyes on me including Arthur who was watching me in the rear view mirror.

" what!" I asked not looking at them

"Lily what the hell happened between you and Asher?" Rose asked looking at me impatiently. My eyes filled with water as I thought of scenarios of Rose and Noel hating me for kissing Asher. I should just confess before things get worst.

" You guys would judge me, and think I'm an idiot " I whimpered as I looked at them with tear filled eyes.

" No we wouldn't and you know that, we love you Lily boo!" They both said while sending kisses my way. I chuckled at their childishness

"Okay" I breathed out

" Asher and I made out" I rushed out and looked outside to avoid their stares

" What the f*ck!" Rose screeched

"I knew it, Rose I told you they would of ended up together!" Noel said excitedly

" Rose don't be mad, I just couldn't control it" I tried to justify my actions as I looked at her with desperation

Rose eyes soften before she gave me a reassuring smile "I'm not mad Lil, I'm far from it actually I always knew you two would end up together at some point, I saw the way he always looked at you." She winked

"Guys we aren't together! We just k!ssed once it'll never happen again " I yelled blushing at the thought of Asher and I together

"Yeah right!" Rose snorted rolling her eyes at me

" Rose you need to pay up, I was right lily and Asher would get together before the year ended! " Noel said smirking at Rose cockily

" ugh here is the hundred dollars" Rose said annoyed before reaching in her purse to take the money, and reached out her hand give it to Noel who looked eager to take the money

"What the f*ck you guys betted on me !" I asked unbelievably

"Yep" they answered simultaneously

" I hate you guys" I muttered unconvincing

" we love you too!"

The next morning.....

I was currently in class, trying to pay attention to the teacher but all I could think about was Asher's soft lips. Sighing I looked at the board dreamily as I thought of Asher and I k!ssing.

" is something wrong with you Lily?" Miss Lilac asked staring at me in worry

"Huh?" I asked snapping back to reality

"You were just staring at the board, class is over." She said slowly as if talking to a child

"Oh uh yeah I'm fine" I mumbled clearly embarrassed about being caught daydreaming

I packed my stuff before rushing out of there, not sparing a glance back. I have been avoiding Asher all day, too embarrassed to talk to him about what happened. He maybe regretted it anyway.

I walked through the hallway, squeezing my way through the students when a hand grabbed me from nowhere and pulled me to an empty classroom.

I looked up at the culprit who was staring at me. It was Asher, whose face screamed of irritation and confusion. He pushed me on the wall and caged me between his arms to prevent me from escaping. What is with him and empty rooms?

"Why are you avoiding me?" He mumbled, I could barely hear him. He looked upset as he waited for my answer, which I barely knew the answer to

"I'm not" I answered unconvincingly, avoiding his intense stare. He removed his hands and pass it through his hair frustratingly.
