

Chapter 3380

"Princess Helena?" Charlie asked curiously, "Where's the princess?"

"From Northern Europe." Leon said, "This is the marriage partner that the master talked about for your cousin some time ago, after considering many families' marriageable girls, this girl is the most suitable overall."

"After your cousin marries her, the Wade family's future development in Europe will also get a big boost, once the Qingming Festival is over, they will immediately hold an engagement ceremony."

"Understood." Charlie said casually, "I will only attend the ancestor worship ceremony this time, I won't participate in such things as engagement, you help me say hello to them in advance."

Leon hesitated for a moment and advised, "Young master, if you're not that busy, you'd better attend, otherwise I'm afraid it's a bit hard to save face."

"No." Charlie said firmly, "I don't want to have too much involvement with the Wade family, this ancestor ceremony is non-public."

"Plus I can pay respect to my parents, that's why I agreed to participate, other things, I won't follow and get involved in."

"Okay." Leon knew that he could hardly persuade Charlie, so he asked, "Young master, then when are you coming over?"

Charlie said indifferently, "I will arrive in Eastcliff on the third day of April."

"OK, Young Master!" Leon said excitedly, "I'll pick you up at the airport then!"

Charlie said casually, "Let's talk about it then, I still have some business, I'll hang up now."

After saying goodbye to Leon, Charlie immediately stood up and said to Hamid and Sayid: "Both of you must coexist peacefully in the future, so that it is the most beneficial situation for both sides."

Saying that, Charlie added: "In addition, these 15,000 people of the Front must be able to bring a lot of revenue to the government army, which is also a big boost to the government army's economy."

"So from now on, both of you can completely bury your heads in developing infrastructure and economy, there is no need to fight anymore."

Hamid nodded his head without hesitation and said, "Don't worry, I will remember your teachings!"

Sayid also said: "In fact, we do not want to fight all the time, it would be good to have peace talks!"

Charlie nodded and said, "Then you guys should hurry up and sign the peace agreement, I have some important things to do."

"I must return to my country immediately, Hamid, you help me prepare the helicopter, bring Zynn out for me, I want to take him back."

Hamid said with some reluctance, "Brother, are you in such a hurry to leave? Look, brother, I have not been able to properly receive you until now!"

Charlie waved his hand: "Next time, this time it is really urgent and cannot be delayed."

Hamid nodded his head with understanding and said seriously, "Okay! Big matters are important! I won't keep you!"

After saying that, he immediately called his adjutant and ordered, "Arrange for a helicopter to take Mr. Wade to Beirut!"

When the adjutant was about to take orders, Sayid hurriedly said, "Master Wade, why don't you take my helicopter? After all, our current peace talks have not yet been announced to the public."

"So if someone recognizes Hamid's helicopter and attacks it in a fever, it will be bad.

Charlie is Sayid's life-saving benefactor and helped him to make a great achievement in the army, Sayid's heart can be said to be incomparably grateful to him.

This was even more than Hamid, who had been cured of his crippled leg by Charlie.

Charlie nodded gently and spoke, "Then let's go in your helicopter."

Sayid was busy saying, "Master Wade, I'll give you a flight!"

Hamid also said without hesitation, "Brother Wade, I'll go too!"

Charlie nodded, looked at Walter, and said in a cold voice: "You come with me."

Walter did not hesitate to say, "Yes! Everything at your command....."
