

# Chapter 571

Rayna followed Galia and Suzi with a low self-esteem.

Galia wanted to eat a buffet with nine hundred and nine yuan per person, and Suzi really led the two of them to go together.

For three people, the difference is three yuan for three thousand.

This cafeteria is really big.

The food inside dazzles you.

The high-end products include Aolong, sea urchin, sashimi, various seafood, and bird's nest.

Even the lowest end is caviar sushi, pickled fish and the like.

In fact, none of the three have been to such a high-end restaurant.

Galia and Rayna stared blankly.

Suzi is very calm.

She doesn't pay attention to food, and it's not bad to have enough food since she was a child, and she doesn't have much yearning for this kind of high-end restaurant.

However, seeing Rayna and Galia chirping to choose to eat, Suzi was very happy in his heart.

She has no friends.

Not good at making friends.

But she longed to have friends.

She has always been sincere to others.

Just like now, as long as Galia and Rayna are happy, she feels that it is worth how much she spends on the bill.

When Rayna and Galia chose Haoshito and came to their chosen seat, Rayna actually saw a large bowl of super sour and spicy pickled fish.

She couldn't help but: "Wow!" Then, she almost drooled out. Suzi smiled and said, "Let's eat."

"Mrs. Fu, you...how did you know that I love pickled fish?" Rayna asked incredulously.

Suzi shrugged: "When you quarreled with me for the first time, it was so hot. You can still eat a big bowl of sour and spicy pickled fish. It's sour, hot and spicy, I see it really. Yes, so I always remember. But if you haven't eaten for a day, you should eat as little as possible and drink some gruel first."

Hearing Suzi saying this, Rayna suddenly cried.

Suzi shut up immediately.

Did she say something wrong?

She has always been bad at words, and she has always been accustomed to just doing nothing no matter who she is dealing with.

"Mrs. Fu, I... I was really damned before. I really didn't expect you to be so good and so kind. Now I finally understand why my cousin-in-law likes you so much. He has been using it all the time. His life protects you because you have saved him at all costs before. I know, Mrs. Fu, I will use my life to protect you in the future."

Suzi looked at Galia somewhat awkwardly.

She and Galia are more familiar.

She didn't know what to say.

Galia punched Rayna: "Woman! Suzi is protected by Fourth Master Fu. Does it cost you your life to protect them? Everyone will be friends in the future. Don't cry, don't drop the sauerkraut fish. Nose! You can't eat it, and we can't eat it!"

"Puff..." Rayna smiled embarrassedly.

Suzi also laughed.

"Hurry up!" Galia ordered.

"Yeah!" Rayna immediately picked up the chopsticks and colander obediently, and began to fish for pickled cabbage fish, and then he raised his arms and ate it with great taste.

Suzi and Galia also saw freedom.

While eating, Rayna suddenly put down his chopsticks, took out something from his bag and handed it to Suzi.

"Mrs. Fu, it's for you." Rayna said respectfully.

Suzi was taken aback: "What is this?"

## **Chapter 572**

Rayna wiped the small iron box in his hand, and then explained in a low self-esteem: "Well, what? Don't look at the iron box a bit shabby, but the things in the box are very good, that's that... ... The oil of mouse pups."

Galia: "Puff...what?"

Suzi was also taken aback.

Rayna swallowed another big mouthful of sauerkraut fish, chewing, chewing and swallowing, while explaining: "It's baby rats, the kind of mouse cubs that have just been born, and they haven't grown hair yet. Soak them in sesame oil. , Soaked for a few months, filtered out the oil."

Galia was stunned: "What's the use of this? I said Rayna, don't tell us, you have a hot temper, you love to curse, you love to be a lady, you love to pick things, and you are so weird when you eat. , Oh, people put the condiments in soy sauce, vinegar, oil and garlic when they eat, you put mouse oil in!"

Rayna was not angry when Galia said so.

She can't make friends either.

Like her cousin, Shuyuan, a noble and aristocratic family, always treats Rayna as a dog.

But the former Rayna didn't see ordinary people like Galia in his eyes. Therefore, Rayna had no friends until yesterday when she was driven out of the house by her parents and she was walking down the street. Only Galia can think of.

Unexpectedly, Galia immediately showed a look of concern when she saw her becoming so desolate.

Rayna is very grateful.

The so-called adversity sees the truth.

Rayna opened Galia's hand unhappily, "What! I bought this from an old domestic helper I know. That old domestic helper was the one who took care of us when my cousin and I were young. The domestic helper used to have an

old Chinese doctor in the house. One prescription they knew was particularly useful, that is, if there are scars on the skin, the oil of this mouse cub will be smeared without leaving any traces. I'm afraid...Fu Wife's face.

I remove the scar oil and put it on my body the day before yesterday. "

After finishing speaking, she handed the scar oil to Suzi: "Mrs. Fu, I see a little mark on your face. Well, this is really useful. I won't lie to you."

Suzi: "..."

She could see that Rayna was really sincere, so she took the small tin box and opened it. The oil inside was not unpleasant, but there was a refreshing smell. She poked it a little and wiped it on the inside of her hand and neck.

Rayna and Galia didn't understand anymore: "..."

After a long while, Galia asked, "Suzi, what are you doing?"

Suzi said: "Let me see if I am not allergic to this allergy. If I am allergic, I can't use it. I can only use it if I'm not allergic."

After speaking, she applied another layer.

After about a few minutes, the skin on the inner side of the hand and neck is still good and not allergic.

It's just because your hands and neck are sour.

"Oh...Did you bring paper?" Galia asked.

Suzi looked at herself privately, and she brought out a mobile phone without her bag.

Not to mention Rayna, she didn't even bring her mobile phone.

Three people look at me and I look at you.

They discovered that Jiu Bai Jiu's self-service restaurant didn't even have a paper towel.

"What to do? First hand oil."

Suzi smiled: "This can't trouble me, it's up to me!"

Yubi, she suddenly lifted the lining of her skirt and wiped off the mouse oil on her hand and neck. After wiping, the skirt lining was placed on the inner side, and she couldn't see it at all.

This action stunned Galia and Rayna.

Galia exclaimed in a low voice: "Suzi, you... even do this kind of show operation!"
