

Chapter 811

"I know how to pay you back." Rayna said suddenly.

"Miss Min, you say." The lady boss was still very kind to Rayna.

"The Min family also has a single-door residential house in the countryside. I think it should be worth two hundred to play if there is no way. According to Walton's parents once said, that single-door small courtyard originally belonged to Walton. Property, so you only need to take her house back and sell it for two million, which is enough to repay your money, your sharpness, and the money of the person whose head I smashed that day. "

"What you said is true?" the woman asked.

"It's true!"

Walton also asked Rayna in astonishment: "How do you know?"

Rayna smiled contemptuously: "You don't know, this is the difference between you and your parents. Although my parents are your real parents, I have also enjoyed the love of father and mother for twenty years. I am very When I was young, they told me and took me to clean the courtyard, in a suburban village in the northwest corner of Nancheng.

Although it is a rural house, it is worthless.

However, that single-family courtyard can also sell some money. "

"No! Rayna, what is your peace of mind? Are you going to sell even the last shelter for my parents and me?" Walton asked in a questioning tone.

Rayna was stunned: "You...what did you say?"

Walton: "..."

Here, the female boss immediately said: "Go! Call her parents over and let them take their daughter away. I don't want such a woman. I think it's too bad. I want their house!"

The subordinates went away.

Walton: "..."

Rayna said: "Walton, is it possible that you are squandering money, do you let others pay for you? Or, you are stinky here.

Or, just use your house in exchange for your free body! "Rayna! You are not short of money now, you are married to Lenny, what do you want! The money exposed between Lenny's fingers is enough to save me! "

"But will I save my enemy?" Rayna asked.

Walton: "...Then what are you doing here?"

"Be clear, what else are you hiding from me? It's your parents who killed my parents about my parents, right?" Rayna asked.

"Shut up for me! You silly things! How could your parents be killed by us! It was my brothers and sisters-in-law, how could I kill them!" Behind him, there was a message from Father Min. Sound.

Rayna turned around and saw Min's father and Min's mother.

"Are you here?" In Rayna's tone, love and hatred were mixed.

After all, hatred prevailed.

Think about what happened to him these days, think about the unfeeling things they did time and time again, even though they raised themselves up, Rayna didn't dare to appreciate them at all.

"Since you were a kid, you have been pulled up! You are a white-eyed wolf! White-eyed wolf!" Father Min pointed to Rayna's nose and cursed.

At this moment, Rayna calmed down instead: "No matter how you scold me, I will recognize it. After all, I called your parents for more than 20 years? It was written off by us.

However, my husband and I, as well as my second cousin Darius, three sons here, if we don't spit out and don't let your woman leave here, even if your single-family courtyard comes to exchange, today Your daughter can't get out of this hotel underneath.

She will be rotten to death, stinking to die here. "

Yu Bing, Rayna said to the boss lady very domineeringly: "Boss boss! Don't look at my face anymore. How much money do you want? You will count your interest and the money from the injured old man last time. On the head, let them double back to you!"

"Yes, Grandma Jun!" The female boss met Feng Shiruo the most.

"Don't..." Father Min finally relented: "Rayna, anyhow you are also Galia's cousin, it doesn't matter, please save Galia, we will definitely compensate you for the follow-up matters. , OK?"

Rayna sneered: "I don't want to compensate, I just want the truth! Please tell me the truth, how my parents died!"

Chapter 812

Father Min cried and said: "Your cousin A Zhen also knows the cause of your parents' death. They died because of a plane crash."

Behind him, Darius also nodded and said, "Rayna, your parents' death is indeed due to a plane crash."

"Then...why do we want to exchange our identities?" Rayna asked.

Having said that, she was already crying.

In fact, in her current state of mind, she is not rare at all about the prosperity and wealth of the Shu family, but she is too frustrated by her uncle and aunt.

Seeing Walton crying, the uncle's face felt a kind of guilt.

He touched Rayna's shoulder and started talking to her from the beginning.

Rayna's biological father Min Xiaozhong and Walton's biological father Min Xiaolian are a bunch of twin brothers, but the two brothers have taken a different path since childhood.

Min Xiaozhong has excellent academic performance since he was a child, and all the way to a university graduate doctor, he met his wife with the same degree of education, that is, Darius's aunt.

Two like-minded people worked in a research institute abroad, and only came back to Nancheng for the wedding after a long time of love.

When Min Xiaozhong returned to his hometown in Nancheng with his girlfriend to get married, he discovered that his younger brother Min Xiaolian was also in love.

Min Xiaolian's love partner is the same as Min Xiaolian, an ordinary worker in the factory. Seeing the appearance of his brother and his girlfriend returning to his hometown, Min Xiaolian felt a little bit uncomfortable in his heart, helpless, since he was a child, he didn't study hard. Mom and Dad gave him the opportunity to learn, and gave the two brothers pocket money. It has always been the same, and even his brother Min Xiaozhong often used his pocket money for his younger brother.

But my brother still failed to have a good school.

Not to mention a good career.

Fortunately, my elder brother and younger brother have a very good relationship.

The two brothers married on the same day.

Even the days when the two brothers and wives were pregnant with their children only differed by only half a year.

That year, Min Xiaozhong and his wife were expecting a baby in Nancheng.

After Min Xiaozhong's wife gave birth to a child, the couple planned to return to China for development. They wanted to find a job in the research institute in Nancheng, and when they found a local research institute, there happened to be an unsuccessful experiment in the hospital that needed several more trials. Min Xiaozhong and his wife happened to be there that day. When they saw the experiment, they looked at each other and smiled.

Because they have done this experiment abroad, and they have taken a lot of notes.

If you can get those records back, it will be very helpful to the domestic experiment. Both husband and wife feel that after all, it is the success of their husband and wife's experiment, and it should be no problem to get them back.

As a result, on the plane where the couple took the test records, the plane crashed and the couple crashed and died.

Until now, Min Xiaolian even felt that it was a conspiracy.

However, he has no evidence.
