This is because Master is more humane than before. Many foreign partners see the Master now, and they all prefer to work with such a Master.

Especially when those partners saw Master's Weibo posted on the Fu Group's official blog late at night, saying that he was a fearful person, all the merchants that cooperated with the Fu Group could not help being warmed up.

May I ask, who in this world does not want to cooperate with the responsible businessmen of the Family Harmony Commission for Discipline Inspection?

Think about it all.

Especially, the lady is actually a considerate, extremely transparent, never bluffing, never pretending, or even a woman who never comes to the company to mess around?

So at this moment, when these cronies heard that Arron would also follow his wife to go on a business trip, they all raised their hands in their hearts to agree.

Arron's so-called business trip indeed followed Suzi.

However, he followed Suzi behind and did not let Suzi know.

After eating at noon, Suzi took a taxi home. I simply took some luggage, and took a look in the cloakroom to change clothes. I wanted to find a professional attire with a personal touch, but when I thought of the pain at the base of my leg, Suzi had to take it all. Casual replacement clothes.

Anyway, I don't attend any banquets, so the simpler the clothes, the more casual the better.

Taking Huanxi's clothes and shoes, carrying a trolley case, and hurried out to the door of his own community, Suzi was suddenly taken aback.

Because for a second, she had a strong feeling. There were a pair of eyes not far away, watching her gently. Although she did not see those eyes, Suzi could strongly feel the gentle and caring look in her eyes. .

She subconsciously looked around.

Seen nothing.

Suzi laughed at himself and said to himself: "Suzi, you think your mother is really crazy, please calm down Suzi, you can't always be entangled in the past, now you have Arron, you have the only one, you have to be the only one To be a good example, you have to stay with the only one for your life, protect the one, and you have to look forward."

Suzi raised his head, forced back the tears that were about to shed, and then took a taxi back to the company.

At 10 in the afternoon, she set off with her colleagues in the company.

Among them, Rayna also followed.

"Suzi, I have just been transferred to the design department, so I will follow you on business trips and inspect the site. I am honored." Rayna was sitting next to Suzi.

Suzi smiled and said: "The capacity of the business trip is an investigation of geography, topography, and geology. Different addresses require different designs and different architectural structures. You can learn a lot about it. You must Study hard, like what we do in architecture, we must continue to practice in order to get the best experience.

Like when I first came to the company, why Linda made the mistakes that I could solve for her, because I used to go to the construction site often, and I

saw the migrant workers on the construction site with their own experience, dealing with many small problems. . "

Rayna grabbed Suzi's hand: "Suzi, I heard that you had suffered a lot before."

Suzi didn't take it seriously: "Let you remember, you will endure hardships, and you will be a master. If you endure hardships, you must also remember that in the depths of your heart, there will always be your own principles."

"Well, I remember it!" Rayna leaned his head on Suzi's shoulder: "Suzi, I have a room with you at night. When you draw, I will give you a hand."

"No problem."

This evening, Rayna and Suzi were indeed assigned to the same suite. As soon as they arrived at the door of the room with their suitcases, Rayna's cell phone rang. She looked at it and immediately connected: "Hello?"

"Miss Min, this is the hotel's hall. Someone is looking for you here, so please come down."

"Oh okay, I'll get down right away."

After closing the thread, Rayna looked at Suzi strangely: "It's strange, we just moved in, who is looking for me?"

Suzi smiled: "It won't be the boy from the Jun family, come here, want to surprise you? Go down and have a look!"

Rayna blushed and went down.

Suzi swiped the card alone and entered the room. As soon as the suitcase was put down, she was caught in the head by something falling from the sky.

"You...what are you going to do!" Suzi suddenly exclaimed.

# Chapter 830

"What are you doing?" A strange male voice sneered: "Do you know how your company took such a courage?"

There was darkness in front of Suzi, whose head was trapped.

But her face was still expressionless for a long time in surprise.

Just when she was stunned, her mouth was sealed by someone, and then she was tied up with folded legs and feet.

In an extremely painful situation, Suzi was stuffed into a large trolley case. Just like that, she realized with a clear mind that she was lying in the trolley case and was dragged out of the room, waiting for the elevator.

She could even hear Rayna's voice: "It's strange, who is looking for us? Isn't it you?"

The accompanying colleague laughed and said: "Our rooms are not far apart. If you want to find you, don't you go directly to your room to find you? Are you sure that it is not the surprise that Young Master Lenny gave you?"

Rayna shook his head: "I called Lenny, she will be in Nancheng. Eh, where is Suzi? Have you seen Suzi?"

"I didn't see..."

"Oh my God, where's Suzi? He was still here just now." Rayna said in astonishment.

Then there was Zhao Xianda's voice: "Xiao Rayna. I think you should stop looking for Suzi. I understand now that the one who called you just now and let you go downstairs is not your fiancé, young master, you must It's from Fourth Master Fu. Suzi is here for a business trip. Maybe Fourth Master Fu is

also here. I can see that the love of Fourth Master Fu for Suzi can be learned from the sun and the moon.

It is estimated that at this moment, the couple are living in a two-person world. Although Xiao Rayna has a good relationship with Suzi, you can't disturb others either. "

Rayna immediately smiled shyly: "I...where do I dare, I also understand the temper of Fourth Master Fu, so I dare not. Hi, I wanted to see Suzi's drawing at night. Now I'm ready to do things for you, don't you dislike me..."

Suzi, who was tied up and curled up in the trolley box waiting for the elevator:  
"..."

She wanted to shout, she was right next to them.

But she couldn't make a sound anymore.

She was almost out of breath. Will she die?

A sense of fear that I had never felt before suddenly hit my heart.

At this moment, Suzi regretted it.

She suddenly became famous. Why did she call her husband just before leaving, and her husband categorically refused to let her come here for a business trip.

Perhaps, the husband has smelled danger approaching them?

After all, my husband has been intensively preparing to conquer Gasing Island for a while, and the danger must be everywhere.

How is my husband now?

Where's the child?

At this moment, Suzi's scene was regretful, she should never listen to Arron's words, no matter what kind of torture she suffered, she would be fine, she was not afraid, she was used to it, even if he died, she would not be afraid. .

Life and death are always involuntary.

She only wants her children and her husband to be safe and sound.

Just being dragged all the way, Suzi thought about her husband and children all the way, but she didn't feel much uncomfortable being tied up and curled up, and she didn't even know when she was put in the trunk.

The car drove out for a long, long time.

About three or four hours.

It was almost midnight and the car stopped.

Li's Suzi was pulled out of the trunk, and then he was dragged to turn left and right, turning around and turning around. I don't know how many turns, but the trolley box finally stopped.

Suzi heard the sound of the zipper opening.

Immediately afterwards, the trolley case was opened, and the black hoods on her head were also removed.
