

## Chapter 1329

"Was I supposed to give up on this lucrative job?"

"I was not willing to, and I need to raise my daughter.

"I told my boss the situation, so my boss gave me some information on some existing clients and ways to contact large investors within South City.

"Then I saw a question.

"Why did our company work with so many other companies, but not the Ford Group? The Ford Group is at the top of South City.

"I asked my boss, and my boss told me, 'If you manage to turn the Ford Group into one of our clients, I'll give you a million-dollar raise by this year.'

"A million dollars! How much did that mean to me?"

"I immediately assured my boss that I would do it!

"I said that I will definitely be able to get this contract from the Ford Group, because my cousin knows Young Master Ford.

"I'd already given my guarantee. I pleaded

my cousin knows Young Master Ford.

"I'd already given my guarantee. I pleaded with my cousin, but he didn't agree to help me. However, I wanted this deal too much. With this deal, I could allow my mother to retire in South City. And for my child, I felt like I could do anything.

"So..." At that, Lori smiled miserably. "I was wrong from the start. I should not have come in like that. I should not have tried to play tricks.

"My ugly actions have caused me to pay the price.

"I wasn't able to accomplish the task for my boss, and I'm about to be fired. However, my boss is quite kind, and he did not actually fire me, but only reduced my salary to six thousand a month.

"After that, I was transferred to a small town three thousand kilometers away from South City as an accountant.

"If I agree, I can continue at the company. If I don't, I will have to resign myself. That way, the company will not even have to pay me any compensation.

"I came here... I came to apologize to you. If you allow me to live, I will be reporting to

somewhere three thousand kilometers away.

"Of course, if you still think I'm disgusting. I will..."

After that, Lori looked at Sebastian with a clear expression. "Young Master, I want to do it myself, is that fine?"

Kingston never expected those words.

He did not even know what to say.

Kingston looked at Sebastian, thinking, 'Young Master, you can't soften your heart. You can't be fooled by the flowery words of this woman. You're not that kind of person.'

Only, he heard Sebastian say plainly, "The company you're working at, is it the Smith Group?"

Lori looked up and asked, "How... How did you know?"

Sebastian said, "Your boss is called Zach Smith?"

Lori nodded. "Yes, that's right."

The Smith Group should have belonged to Zayn's parents. After that, because Zayn had taken Sabrina and fled, the company ended up with Zach.

The Smith Group should have belonged to Zayn's parents. After that, because Zayn had taken Sabrina and fled, the company ended up with Zach.

For over a year, for Zayn's sake, Sebastian had been suppressing the group. He naturally could not give Zach any business.

"I can give you this deal," Sebastian said bluntly.

"You... What did you say?" Lori did not believe her own ears.

Even Kingston was stunned.

His tongue was tied.

He did not say a single word.

However, his expression was clear.

'Surely not, Young Master?

'You... Are you really being seduced?'
