Three months later*

KAIRA POV

It's been three months since scarlet started living with us and a week since she fell sick.

Last week she just came back from school complaining about being tired and having a headache since then she has been in pain whimpering every night and her temperature rising. We have called the best doctors but non has given us a clear answer.

"Maybe she is going to shift?" Kaden said. We were both in her room taking care of her she has been so weak she isn't even able to get out of bed.

"Shift into what?" I asked.

"You know since she is an Angel and tomorrow is going to be her sixteenth birthday, maybe she will get her wings.." I sighed

"I hope you are right. We had promised Serene that we would take care of her baby what will we do if something happens to her.?" I was on the verge of crying.

"Don't worry Kaira nothing will happen to her she will be fine look in just an hour it will be midnight let's just wait and see what happens okay?" he kissed my forehead then went and sat on the couch while I lay on the bed next to Scarlet.

"Zane.." she whimpered I touched her forehead and her body temperature was very high.

"She is burning up!" I said worriedly Kaden gave me the wet towel and I put it on her forehead to reduce the temperature a bit. It went on until—

"Aaah!!" she screamed in pain startling me

"What's happening?" I asked Kaden my tears now flowing

"She is shifting come on let's take her outside.." He said lifting her bridal style running down the stairs.

"Mom, what's going on?" Lucas and Breana burst through the door Dean and Melissa too.

"Scarlet is shifting!" I said grabbing my phone and calling Zane

"She is shifting?" Melissa asked.

"Yes, she is getting her wings! come on.." we all ran downstairs out to the garden where Scarlet was laying on the gra** screaming.

"Mom hello?" Zane answered

"Press video call Scarlet is shifting.." I said excitedly.

" What? what do you--"

"Press video call now Zane!" I said he did as told and I turned the camera facing Scarlet who was laying on the gra**

She screamed again and a white blinding light engulfs her we all shielded our eyes from the scene and only looked when we heard a p*** sound.

"Wow!!" Lucas and Brea said at the same time as we looked at the real-life Angel in awe

Her wings were as white as snow with her blonde hair looking golden swaying beautifully to the rhythm of the wind. Her clothes had completely changed to a silver gown that shined under the moonlight she looked perfect levitating!!

"Wow, I need a picture!!" Zane said.

"Gotcha bro! already took one.." Lucas said waving his phone in front of the camera.

She slowly started coming down then fell on the gra**.

"What happened to her?" Zane asked.

"The shifting has probably drained most of her strength.." Kaden said.

"What will we do about her wings we just can't get her inside like this since they are b--" before I could even finish her wings disappeared. "Never mind!" I said as everyone chuckled.

"I wish I was there in person.." Zane said and I could hear the sadness in his voice.

"Don't worry Zane you will see her soon. love you good night.." I said cutting the call. We all went back inside and Kaden lay Scarlet on the bed

She now slept soundly without whimpering or having a high fever.

Both Kaden and I kissed her forehead.

" I miss you.!" He began pulling me closer planting kisses on my mark.

"Kaden.." I said pushing him away softly.

" what baby it's been almost a week. Look Angel is better now see she is sleeping soundly.." he said pulling me so that my back was pressed against his front. While we looked at my sweet Angel who was sleeping soundly.

" come on baby it won't be long I need you! I want you. I promise we will come back to her room afterward.." he said planting kisses on my neck. I can never resist this.

I looked at Scarlet one last time then nodded my head.

Kaden gave me a big smile picking me up bridal style going to our room!

SCARLET

I woke up feeling like a train just hit me. my whole body was sour. I groaned softly getting up.

Mother was laying next to me fast asleep while Dad was laying on the couch uncomfortably. I smiled. I knew everything that was happening I could hear everything whenever I woke up but couldn't open my eyes and I also know I have been unconscious for a week and two days. I missed my birthday.

I got up pulling the covers so that Mother was covered nicely then did the same to Dad.

I went over and open the balcony doors a cool breeze entering the room

ADVERTISEMENT

It was dark outside. I smiled gazing at the stars especially the one that always shines brightly before the break of dawn. It reminded me of my Mom I miss her so much!

I love you Mom I whispered. A cool breeze engulfed me making me feel warm my Mom was here with me. I sighed in content holding my necklace the one she gave me on our last night together.

I yawn going back into the room. I was Hella hungry but I didn't want to wake up Mother and Dad since they have been awake most of the week taking care of me. I went into my bathroom brushed my teeth took a shower then went downstairs to make some breakfast well since it was three-thirty in the morning. I looked around trying to find something that I could make for myself but ended up getting the eggs tomatoes and bread

I was about to crack the eggs when—

“Angel you are awake!?” I heard Mom’s voice I looked at her as she and Dad entered the kitchen.

“Why didn’t you wake us up? We could have made breakfast for you..” Dad said.

“No, it’s fine. You guys need to rest don’t worry I can—”

“no! no! not having it sit down and I will make it...” Mom grabbed the eggs from me while Dad got the pancake mix in less than twenty minutes my breakfast was done. Pancakes with the simple egg sandwich I wanted to make earlier.

“ Thanks..” I smiled grabbing the sandwich eating it happily while they ate the pancakes. We made small talk till I felt sleepy again. It was only five-thirty

“I am going to bed now..” I said getting up.

“ you want me to come with you.?” Mom asked.

“ No Mom it’s fine I am all better now don’t worry I just want to take a nap..”

“ but—” she started saying but I cut her off.

“ look mother dearest see.” I said twirling around, “ I’m all better now. You need to have some rest too. Both of you, now good night or is it good morning..?” I said and they both laughed.

“Okay if you say so..” She responded while I ran upstairs to my room. As soon as I entered the room I removed my flip-flops and fell on the bed pulling up the comforter and was out like a light.

I felt pain in my stomach and something sticky between my legs I groaned why does my sleep always get cut short

I removed the comforter to see what the stick stuff was and I saw blood.

“Aaaaaah..” I screamed so loud pulling the comforter up covering myself

“What’s wrong?” Dad, uncle Dean, Aunt Melissa, and Mom burst through the door.

“Don’t come closer..” I said as they stopped dead in their tracks. “ I uh I just need Mom..” I added blushing

"Oh.." Dad said going out of the room probably knowing what it was about. This was the first time me having my periods and Mom never told me it came with pain.

"Is everything okay sweetie?" Mom asked.

"Yeah I uh I mean it's it's I.." I blushed I didn't know how to tell her, "It's my first time.." I ended up saying and judging by the smile she had on, she knew what I was trying to say.

"I will go get it.." aunt Melissa said going out of the room while Mom came closer.

"Come on let's get you cleaned up.." I nodded my head getting up.

"It hurts.." I said to her.

"Don't worry the pain will go away soon it only hurts for the first day or two.." She led me to the bathroom as I stripped down and got into the shower the hot water made me feel a lot better I cleaned up then aunt Melissa gave me the sanitary pads. After I was done dressing up, Mom gave me some pain-relieving pills and after drinking them the pain disappeared.

"Come on let's go downstairs for lunch.." Mom said.

"No.." I shook my head still embarra**ed

"Baby girl there is nothing to be embarra**ed about, no one will judge you okay. This is a normal thing it's part of nature. every woman goes through this okay..?" She said easing my embarra**ment a little. I nodded my head going out to the dining table. After all three of us sat down, Mom placed some food on my plate.

"Where are Dad and uncle?" I asked I mean I just saw them earlier

ADVERTISEMENT

"They have gone back for work they only came to get something.."

"Oh.." I said and continued eating. As soon as we were done.

"So when will you start going back to school?" aunt Melissa asked.

"I don't know aunt maybe next week..?"

"Okay so uh there is a stack of you know homework in your room.." I groaned, "really homework but I garr why!!!"

Mom and aunt Melissa just laughed

"Sorry princess but it's necessary if you want to graduate.."

"Fine.." I muttered clearly hating the idea of writing homework. "Anyway, I guess I will go write then.." I said in a gloomy mood

"Don't be all gloomy Angel homework is fun if you put your mind to it. Just try to enjoy it okay.." Mom said I sighed

"Homework is no fun Mom but I will try.." She kissed my forehead and aunt Melissa did too then I went upstairs. Sure enough, there was a big pile of homework like the mount Kilimanjaro. I wanted to cry but recomposed myself.

After two hours of writing homework.

" HAPPY BIRTHDAY!!" I heard and before long two bodies jumped on me covering my face with kisses, my homework s***tering around the room.

"Come on you guys are heavy.." I said trying to catch my breath.

"Sorry!" they both said in unison Luka and BeBe was like twins sometimes they did everything together. They got off me and I sat up.

" Happy birthday Angel we missed you so much.." they both said again this time pulling me into a much gentler hug.

"Thank you guys I missed you too.." I smiled at them.

"We got you presents!!" Luka said opening his backpack and taking out a nicely wrapped box.

"What's this?" I asked taking it from him.

"It's just something simple I thought you might like. Open it.." I unwrapped it to find a beautifully framed photo. We took it when we went for a Christmas dinner. The whole family was in it and there was something written just below.

Family share love and stick together you will always be our family and we love you! I felt like crying this is so sweet

"Aww luka this is lovely thank you!" I said pulling him into a hug.

"You are welcome Angel.." he said smiling at me.

"Okay, my turn.." BeBe said handing me a smaller box.

I smiled taking it from her.

"I made it myself.." she said as soon as I saw the beautiful pink bracelet *Sisters are forever* were the words written on it. "I always wanted and wished to have

a sister and when you step foot into this house, I knew my prayers had been answered thank you for coming into our lives.." she hugged me.

" Thank you so much for considering me your sister BeBe it means a lot!" I said pulling away I place the bracelet around my wrist touching the beautifully arrange letters, "I am never taking it off!" I said as she gave me a watery smile

" Ewww you both are amazing this family is amazing thank you.." I pulled them both into a hug as we all giggled.

I picked up the photo then placed it on my nightstand between the photo of me and my Mom when we had a Mother-Daughter bonding time and the photo of me and Zane that was taken the day I found out he was a werewolf when he lifted me up bridal style. I smiled now my family is complete.

"Okay, now I am pretty sure you are going to hate us.." BeBe said breaking me out of my little bubble, "We brought you more homework.." she removed a big book.

" Way to ruin the moment BeBe.." I glared at her.

"Don't worry we will help you!" she said b***ering me up.

We spent the rest of the afternoon and evening doing homework. By the time it was dinner time we had done most of the work. I was Hella exhausted we ended up falling asleep with books in our hands.

KAIRA pov

It was dinner time, I and Melissa had done cooking and setting up the table. I am the Queen and should have lots of servants doing the cooking but I prefer doing it myself. The only thing the omegas do is clean up the house but laundry and cooking me and Melissa do it.

"I will go call the kids.." I said to her. They have been in their rooms since they came back from school.

I first started by checking Brea's room but it was empty.

Lucas' room was empty too. That's weird I didn't see them go out.

I went and checked Scarlet's room and they were all bundled up on the bed asleep with books s***tered on the floor I stifled a burst of laughter then took out my phone and took a pic sending it to Melissa.

Lucas was laying at the foot of the bed one of his legs dangling on the side.

Brea was laying her head on Scarlet's lap while she (scarlet) was laying on her teddy bear.

In as much as they looked cute, I had to wake them up

"Lucas, Brea, Scarlet wake up.." I said loud enough.

"Mom two more minutes!" Lucas said he wanted to move and adjust himself on the bed but ended up falling face flat

"Au.." he winced while I laughed. My laughter startled Scarlet and Brea waking them up.

"Come on kids dinner is ready.." I said helping up Lucas.

Dinner went by smoothly the kids talking about how school was and how much fun they were having and as soon as they were done they ran to their rooms...

His Scarlet Queen Luna Chapter 43

It's been two years since Zane and I met but one 1year nine months and ten days since he left me. He still hasn't called or texted me.

Dad has been training me and I can safely say I am a better warrior now, I can even beat half of the pack warriors.

Living here has been amazing I now have two best friends Luka and BeBe and also Juanita and another one Shaira who is mated to one of my bodyguards Gabriel. Yep, I have two bodyguards who go where ever I go. Dad is super protective of me, he makes sure I tell him where ever I go.

I was currently in the living room with Juanita, Shaira, and other friends planning a surprise birthday party for Luka and BeBe. Luka's birthday is just a day before BeBe's so we are planning a party for both which will be held on April tenth, which is today Luka's birthday but the gifts will be given on the eleventh, tomorrow BeBe's birthday. I was only like eleven days older than Luka and twelve days older than BeBe

"Is everything set?" I asked Juanita who was working on the decorations.

"Yes, Luna I mean Scarlet everything is all set. "

"What about the cake is it ready too we only have an hour before they show up everything has to be perfect.." I said

"Don't worry about it just go get read.." We had planned to start the party at 8 pm till 1 am much to Dad and uncle Dean's dismay because according to them a

seventeen-year-old shouldn't be partying but after I b***ered them up telling them we would be safe they agreed.

"What do you mean get ready? I am already dressed, is the dress not appropriate, or is my makeup is not okay?" I was wearing a mid-thigh red dress that had a full neckline but short sleeves.

"No, I meant to get everyone ready and see if Breana and Lucas are already dressed.." She said making me glare at her. This had to be perfect.

"Is everyone in position?" I asked loud enough for everyone to hear. The living room had been turned into a party hall and everyone had already gathered we were only waiting for BeBe and Luka.

"Yes Scarlet.." they all said.

I quickly texted mom telling her that everything was ready.

ADVERTISEMENT

"Mom please tell me why I had to dress up and why you kept me locked in my room?" I heard BeBe ask.

"They are here.." Juanita whispered.

"SURPRISE!!" We all shouted once they entered and aunt switched on the lights.

"Oh my gosh, I can't believe this!!! This is so awesome..!!!" BeBe squeaked running to hug me.

"Thank you sweet Angel thank you so much.." She said kissing my cheeks well I giggled.

"Happy birthday BeBe.." I said to her.

"Happy birthday to you too Luka.." I said to him as he just stood there looking at the place in awe

"Thank you so much, Angel! You really are an Angel. This is amazing.." he said hugging me.

"You are welcome now time to cut the—" I started but the door opening cut me off I was not expecting the person who showed up nor was I expecting the girl he came with.

"Brother.." BeBe squeaked running towards Aaron engulfing him in a bear hug. "I missed you so much.."

"Missed you too strawberry happy birthday.." He said.

I stood there my anger flaring but was holding back I worked so hard to make this party-perfect. She was standing there acting all shy and scared.

"Angel are you okay?" Mom asked standing next to me while aunt Melissa stood on my other side.

ADVERTISEMENT

"What is she doing here?" I said gritting my teeth it was other than SASHA.

"Calm down Scarlet you killed Skylar remember?"

"Yes Mom I do remember but she could have resurrected!" I snapped I didn't mean to I was just angry that she was here again in this house.

"Mom.." Aaron said coming towards aunt Melissa hugging her while I gave death looks to SASHA.

"This is my mate Brook Powers and Brook this is my Mom.." He introduced me to it while I glared.

"Nice to uh meet you, Brook.." the aunt said.

"Hi Scarlet.." Aaron said nervously I didn't even spare him a glance my eyes were focused on her if she came back and tried to seduce Aaron again I swear I am going to kill her. I saw her cower by my intense gaze hiding behind Aaron. Now everyone was quietly watching the drama unfold. Most of the teens here at the party knew what happened almost two years ago.

"Angel I think you need some rest come on.." Mom said pulling me away while I glared at her.

Aaron pov

I watched as aunt took Scarlet away. I knew something like this would happen but I am glad it wasn't a big scene.

"I think she hates me and I don't know why.." Brook mumbled.

"Don't worry love, she just confused you with someone else.." I kissed her forehead. I do remember clearly what happened to me and the fact that I was brainwashed by Skylar but when I met Brook something in me drew me closer to her and my Wolf Marcos was sure she was the one. Brook had it tough. I met her a year ago in London, I was driving back to my apartment when she came out of nowhere falling in front of my car. She was bruised and badly injured not because I ran her over by my car but because she was tortured and abused by her pack. That night I found her was the night she decided to run away. I have been by her side ever since and it was only last month that she accepted me and agreed to come to meet my family.

"Come on everyone time to sing happy birthday.." I heard Juanita's voice as everyone gathered around the table. We all sang happy birthday to my sister and cousin then they started partying while I went to my room with my mate.

SCARLET

I was angry no not angry but furious SASHA was back again hanging on Aaron's arm, that girl never learned. I grabbed my bottle of perfume throwing it on my floor length mirror shattering it into pieces

"Angel please calm down.." Mom said she and Dad were currently in my room trying to calm me but I was beyond pissed.

"Maybe it's not her just take a nap and relax okay?" I didn't want to take a nap I want to kill Sasha.

"Angel calm down.." Dad said holding my hand and sitting me on the bed while my breathing was heavy with anger, "Listen to your mom and take a nap, okay everything will be okay tomorrow."

"No Dad as long as that which is in this house nothing will ever be okay!!" I angrily said.

"Yes okay you are too angry and we don't want you doing something you regret by killing an innocent person so how about you just sleep and then we will talk tomorrow morning okay?" I took calming breaths.

"Fine!" I said, "What about the party?" I asked

"Don't worry Juanita is taking care of everything.." Mom said I nodded my head going to the bathroom to remove my makeup. After I was done and changed into comfortable clothes. I came out.

Mom and Dad led me to Zane's room since mine had shattered gla**es everywhere.

"Don't come out of your room until tomorrow okay? good night.." Dad said kissing my forehead while I nodded my head Mom did the same too and they both left the room closing the door behind them.

I lay on the bed cuddling Juan Michael and before long sleep caught up to me.

His Scarlet Queen Luna Chapter 44

I woke up with the rays of sunlight hitting my face.

"Rise and shine Angel.." I heard Mom's voice

"Good morning Mom.." I said to her yawning and stretching my arms.

"Get ready and come down for breakfast you've been sleeping for too long now.." She kissed my forehead and then left.

I went over to my bathroom getting ready for the day then went downstairs to find everyone was already gathered having breakfast.

Then I saw her sitting next to Aaron I looked at her direct in the eye then glared while she visibly gulped. That's it, witch, you should be scared

"Morning family.." I said sitting down on my usual sit which was just across from hers.

"Morning Angel.." Dad said followed by a series of good mornings from everyone else.

I looked at her directly in the eye then picked up a fork using my strength, I bent it While she looked on her face filled with fear.

"Scarlet there is something you should know.." Aaron began.

"Hey, Aaron how are you? good to have you back.." I smiled at him. I was glad he was back but hated the fact that he came with HER

"Good to see you too Scarlet so uh listen, she isn't Skylar.." he said placing his arm around her shoulder. The tension was heavy in the air everyone could feel it.

"Don't try to explain Aaron I will be the judge of that.." I said, "And don't worry I won't do anything to hurt her but she should know that if she is Sasha and tries to hurt either you or any other person in this family and pack then I won't be held accountable for my next actions.." I said.

"Welcome to the family uh what's your name anyway?" I asked grabbing a toast from the plate.

ADVERTISEMENT

"B-B-Brook Powers.." she stuttered while I smirked

"Great.." I responded the rest of breakfast went by smoothly I occasionally glanced at her and it so happened that she glanced at me to our eyes meeting.

"Can I T-T-talk to you.." Sasha I mean Brook said to me everyone's eyes darted from her to me.

"Baby I don't think that's such a good idea.." Aaron said.

"Don't worry Aaron.." I assured him, "If she wants to talk let her."

"Please don't do anything to her she is my life and I love her.." Aaron said to me I nodded my head giving him a reassuring smile. I led Brook upstairs to my room which was now cleaned up. After she entered I closed the door then got closer to her sniffing her scent.

No dark magic good. Ever since I turned when I was sixteen my goddess abilities have surfaced so I can tell when someone is not who they say they are though I don't read minds.

"Why do you hate me?" She asked in a whisper. While I went around her assessing her search to see if she was an intruder.

"Tell me about yourself I mean EVERYTHING don't leave anything out. I wanna know about your family where you're from, what you do for a living everything even your favorite color.." I said sitting on my bed while she stood there.

"Okay, my name is Brook Powers I am from London I belonged to a pack called Mount Wolf Ash pack where I was uh abused.." She said her voice cracking at the end tears threatening to spill.

She told me everything about her life how she was treated lowly by her former pack how she was beaten by the Alpha e.t.c by the time she was done both of us were crying while we sat on the bed her laying her head on my chest.

After our crying and the emotional episode, I could tell she wasn't faking anything, and most importantly she wasn't Sasha. I told her about me as well and we ended up becoming best friends in just three hours.

"Uh, Scarlet. Brook are you both okay in there I am worried.." I heard Aaron's voice while Brook giggled.

ADVERTISEMENT

"He is always like that worried over nothing.." She said while I laughed.

"I know mates are like that though I have no idea whether mine is even alive or not.." I commented

"Don't worry he will come back to you.." she reassured.

"Brook please say something before I break down this door.." Aaron's voice came even more urgent making us laugh even more.

"Coming, Ronnie.." I said

"Ronnie?" Brook laughed.

"Yeah, it's the nickname I gave him by the way you also need one I guess I will just calm you.... bloom.." I said getting up from the bed.

"Bloom? what does that mean.?" She asked also getting up.

"You are like a rose that bloomed in Aaron's life making it better.." I added opening The door to see a worried-looking Aaron

"Thank goodness you are okay I was so worried and why do I smell salt? have you been crying.." he asked looking at her puffy eyes.

"Scarlet what did you do to her?" he glared.

"Please jeez, it's not like I murdered her she is safe and sounds you can ask her if you want. Anyway by bloom see ya.." I winked making her giggled.

" wait.!" She stopped me, " thank you.." she mumbled pulling me into a hug.

ADVERTISEMENT

"For what?" I asked hugging her back.

" For being a friend and a shoulder to cry on. Though you gave me death glares when I walked into the house, I knew deep down that we were meant to be friends—"

"No not friends.." I said breaking the hug, " but sisters.." she smiled sweetly at me while I did the same.

"See ya around Bloom and have fun you too I can't wait to have a niece.." I laughed while Bloom blushed and Aaron just smirked pulling her by the waist holding her close

"What happened between you two?" I heard Aaron's voice as I went down the stairs. I went over to Mom, aunt, and BeBe who were working on lunch.

"Hey need some help?" I offered.

" Yeah, I wanna know everything that happened between you and Brook and why your eyes are puffy.." BeBe said pulling me to her.

"I won't tell you BeBe because that is something that Bloom has to share with you but all I can say is she is a really nice girl.."

"Bloom?" BeBe asked.

"Really?" mom and aunt Melissa asked at the same time, "You don't hate her.?"

" yes I have nicknamed her as Bloom and no I don't she isn't Sasha.." I said cutting the carrots. They nodded their heads then continued what they were doing.

After we were done we sat down ate whilst laughing and chatting Bloom seemed to be more relaxed now Aaron too.

5 years since Zane and I met,

Four years, nine months, two days since he left me. I have totally given upon us. I always asked Mom when he would come back but it seems he will never. He probably has another chick hanging on his arm.

I stripped down looking myself in the mirror seeing his mark on my shoulder that had faded to a mere birthmark.

Even though I claim that I have given up on him I still don't hook up with other guys thought they line up for me.

For the past few years, this family has been amazing to me after I graduated I started online college for six months then joined Dad's business. I now have my own black card and a car.

Mom has been teaching me everything I need to know about leading a pack and how to be an amazing Luna but I don't think that is in my destiny because if Zane never comes back then the throne will automatically be Luka's who still hasn't found his mate.

It's been a year now since I last asked Mom how Zane was doing or when he was going to come back. I have placed Juan Michael in his closet and I have packed all the hoodies he gave me because I don't want anything to do with him.

In only twenty minutes it will be my twentieth birthday.

I took a shower and after I was done I wore my comfortable clothes then went and sat on the small couch that was on the balcony looking at the stars that were twinkling brightly I smiled.

"Beep Beep Beep" I checked my phone to see it was 12 a.m

'Happy twentieth birthday to me' I smiled.

I left my phone on the couch then stood up closing my eyes imagining myself in my Angel form with wings the dress and everything.

I opened my eyes to see myself glowing.

ADVERTISEMENT

I flew off my balcony into the skies admiring the beauty.

After flying for like an hour I came back downshifting back into my normal form.

"I miss you, mom.." I said closing my eyes and just like every day on my birthday a cool breeze blew by as I felt myself being engulfed in a bear hug. After a few minutes, the air turned normal. I smiled again grabbing my phone checking the time it was 1 a.m I closed the balcony door then went to bed letting sleep engulf me.

"Drip! Drip! Drip!" I felt something falling on my face, was it raining? I opened my eyes to see two grinning faces.

"Happy birthday Angel.." I gasped as they poured cold freezing water on me I abruptly got up from bed to see my nightie wet and hugging my skin

"BREANA ALICIA LEIGH!!! LUCAS DREW BLACK!! I SWEAR I AM GOING TO KILL YOU!!" I yelled as they laugh closing the door to my room

I growled going over opening the door when I gasped again as a bucket of some sticky substance fell on me followed by feathers.

"Happy birthday Angel!!." they laugh running downstairs.

"GOD PLEASE HELP ME IF I DON'T KILL THEM BOTH!!" I stalked downstairs to find the whole family had gathered and BeBe and Luka were hiding behind Dad and Uncle.

Everyone was trying to stifle their laughter. Even Aaron Jr (Aaron and Bloom's 2year old baby) was hiding his face in Aaron's shirt probably thinking I was a monster.

" BREANA! LUCAS! how old are you?" I asked placing my arms on my waist.

"Uh, nineteen.." They both responded.

"FREAKING NINETEEN AND YOU STILL DO PRANKS!!" I yelled as they flinch while the others were trying so hard not to laugh, "I am going to take a shower in the room across from mine and when I come out I want my room clean NOT a single speck of dust. My bed should be DRY too and if I find it NOT perfect, I am going to grab both of you by the EAR and leave you in the Amazon forest do you both UNDERSTAND?" I said it slowly and calmly with my teeth gritted.

ADVERTISEMENT

"DO YOU BOTH UNDERSTAND!!" I yelled

"Yes, Angel but—" Luka began but a growl from me cut him off. I pointed my finger up the stairs still glaring

"Fine.." They mumbled going up the stairs while I sighed. They can be so childish sometimes.

"Happy birthday Angel! I would have hugged you but you have a little something here.." Mom said pointing at my face.

"I am going to shower.." I mumble going upstairs I slip but quickly recomposed myself and everyone burst into laughter Gaaarrrr!!

I went straight to Zane's room stripped down throwing my sticky clothes and underwear in the laundry basket. I turned on the shower and stood there letting the substance wash off. After an hour and thirty minutes of scrubbing and cleaning my hair and body, I was finally clean. I grabbed a towel from the hunger then came out only to find a blue dress a card and some blue saddles.

Happy birthday with a smiley face and a heart drawn on it I smiled picking up the dress looking it over. It was really beautiful mid-thigh with a low neckline but not too low that my b***s show.

I placed it back down then went over to the vanity table that had all the hair products I needed.

After blow-drying my long hair and curling it I was finally done. I slipped on the dress which hugged my curves perfectly but not in a s***ty way, I wore the sandals too finally all done and clean.

I slowly opened the door scanning around to see if there were any more pranks,, I let out a sigh of relief when I found non.

I went back to the bathroom grabbed the laundry basket then went downstairs to the laundry room leaving it there. I will wash it later.

I scanned around and no one was around that's odd. I hope they are not planning any more pranks.

I sighed going back to my room

ADVERTISEMENT

"SURPRISE!!" everyone yelled as soon as I opened the door

I gasped as roses fell on me.

My room had been decorated beautifully and everyone was all dressed up and holding presents. And there was a chocolate cake in the middle

Oh my gosh!!

"Happy birthday Angel sorry for the prank it was the only way we could do this without you noticing.." BeBe said.

"Oh thank you guys so much.." I said pulling her into a hug. They all gave me their presents and sang the birthday song after they were done I blew the candles off the cake making a wish then cut it.

"We have one more surprise for you, Angel." Mom said excitedly.

" Come on.." She said leading me downstairs.

" where is the surprise?" I asked as soon as we reached

"Don't worry it will be here in a second..." she said.

While we all stood patiently looking at the door.

After a few minutes, the door opened and my heart stopped beating while everyone yelled SURPRISE!!

"SURPRISE!!" my family said while I stood there shocked looking at the handsome devil that stood before me with a corksy smirk. He was wearing black jeans with a white v neck t-shirt that hugged his muscles perfectly which were big by the way. ZANE.

"Miss me kitten?" he said snapping me out of my shock. I looked at Mom who was standing next to me with a huge smile on her face.

"Is this real?" I asked her and she nodded her head. I looked back at Zane.

" Four years." I took a step closer to him,

" nine months." I took another step,

" 3days.!" I was now standing in front of him

"and you are coming back now?" I asked in disbelief poking his chest after every word.

"Sorry!" he mumbles. But I shook my head. Looking at Mom.

"Four years, nine months, and three days.?" I repeated the same words. Looking at her.

"ARE YOU FREAKING KIDDING ME.." I yelled looking at Zane.

I turned around then looked at mom, "You shouldn't have let him come back he should have stayed in Italy.." I said then turned around to face him.

"Go back to where you came from. I don't need you.." I added running up the stairs.

"Angel wait!" Mom called but I turned a deaf ear. I opened my room door closing it with a bang! messing some of the decorations that were hanging on the roof.

"Aaaah!!" I screamed trying to release some of the anger I was feeling this is just some freakish dream I will wake up any second now.

I grabbed my phone and headset removed my saddles then lay on the bed listening to music I am sure by the time I will be waking up I will realize that it was just some dream.

Before long I found myself falling asleep.

* ZANE*

I opened the front door as the most beautiful scent hit me.

Freshly baked chocolate chip cookies. My eyes quickly found her as she looked at me in disbelief while I smirked taking in her body, she looked so hot and nice in that blue dress and I so badly wanted her.

Though I could see she was hurt and didn't want me near her because I didn't contact her for almost five years. But I was willing to gravel at her feet and beg her to forgive me.

She was yelling but I couldn't quite hear because my eyes were trained on her pink lips that I haven't kissed for so long gosh.

I watched as she ran up the stairs swaying her hips seductively dang did she look hot and curvy she had grown a lot and a little bit taller too.

"Mate.." Juan purred in my head as we both watched her disappear up the stairs. I knew this was going to happen that is why I came prepared. I did wrong by not calling or texting her but I was just afraid that if I did and heard her sweet melodious voice I would get on the first flight back home.

"Guess she didn't like the surprise.." Lucas said.

"Yeah.." Breana agreed.

"Hi, mom.." I said to Mom hugging her

"I missed you so much.." she said hugging me back.

"Hi, Dad.." I said hugging Dad too. After I hugged almost everyone else I stopped dead in my tracks seeing the lady who was carrying a baby. She looked just like Skylar I glared while she hid behind Aaron.

"It's not Skylar.." Aaron said, "She is my real mate Brook.. "

"Does scarlet know?" I asked.

"Yeah, we've been living together for two years now.." He said and I sighed in relief.

"Congrats man.." I smiled at him giving him a bro hug. " hi welcome to the family Brooks nice to meet you.." I smiled at her as she smiled in return no longer hiding behind Aaron.

"How old is he?" I asked looking at the kid who looked just like a mining version of Aaron.

"1year eleven months and another on the way." Aaron smile pulling Brook into a hug as I smiled at them seeing my cousin in love.

We all sat down chatting and them telling me everything about what has been happening since I left and all about my sweet cupcake.

"I tell you what?" Lucas began, "I bet Angel will definitely forgive Zane in less than a week. I know her she can't resist him.." everyone laughed. While I wonder why he used a pet name for my mate only I should give her pet names.

" Nop!" Breana interjected, "I know Angel she hasn't talked about him in a year now. She even threw away everything that has to do with him, she won't give him a chance and if I were in her shoes and my mate decides to come back four years later he would find me already hooked up with someone else.." I guess everyone calls her Angel now.

"Did she hook up with someone else?" I asked this is bad what if she did?

"Nope!" Breana and Lucas said at the same time.

"Why do you think I said she would forgive you by the end of the week?" he asked making me sigh in relief.

"Fifty bucks.?" Brea said stretching her hand.

" Fifty bucks.." Lucas shook it while I just let out a chuckle.

"Well, I also bet that Angel will have Zane wrapped around her finger.." Brook said this is when I have heard her voice.

"Yeah!" Brea agreed.

"Nope, she won't get a chance.." Aaron said while Lucas agreed

"Wanna bet?" Brook said stretching her hand, "If I win you owe me a full day of us watching chick flick movies and eating ice cream together.."

"Chick-flick?" Aaron groaned "fine but if I win—" He said then smirked wiggling his brows and Brook blushed to make everyone laugh.

I looked over to the stairs wondering if she would come down any second.

"How about you go get some rest yeah?" mom said.

"Yeah, you are right to see ya later family.." I said going up the stairs

"Scarlet?" I knocked on her door but silence

"cupcake.." I said still silent. I contemplated on whether to go in or not but then I just decided to go in.

ADVERTISEMENT

"Baby?" I said opening the door softly I saw her curled up on the bed her back facing the door.

"Cupcake I am sorry.." I said going over to her but in silence, she moved to face me and that's when I realized that she was sleeping with headsets in her ears. Her beautiful pink lips were slightly parted I so wanted to kiss her real bad.

I bent down and was about to kiss her when I stopped myself making Juan whine. He kept on begging me to just mate her. Well I so badly wanted to do it after being s**ually starved for 24 years of my life I just can't wait anymore dang thinking about it was already making my life hard.

I removed the headsets from her ears switched off the music then kissed her forehead walking out of the room.

I need a cold shower. I went to my room which smelled just like her, her intoxicating scent was everywhere engulfing me like a blanket making my life even harder than it was.

I inhaled deeply then went over to my bathroom stripped down and took a cold shower.

After I was done I wore comfortable clothes then sat on my bed pa**ing some time and planning how I will make it up to her.

"Zane.." I heard mom knock on the door I got up and opened it

"Lunch is ready.." she said I nodded my head following her downstairs. Everyone was already gathered but Scarlet was nowhere in sight I sighed sitting next to Dad.

I was about to start eating when—

"Mom Dad I'm going out I won't be back till midnight..." I heard my cupcake's beautiful voice my mouth hung open seeing the outfit she was wearing. She was wearing a short glittery silver dress that hugged her body like a second skin. She had on really long heels and was wearing heavy makeup totally not the Scarlet I fell in love with!

"Stop!" I growled going over to her while she glared.

"What!" she spat.

"What the hell are you wearing?" I asked eyeing her up and down her outfit was a major turn on but I didn't want anyone else seeing her! I was possessive like that.

'What's wrong with my outfit?" she asked in a bored tone.

"You are not going anywhere dressed like that.." I said

"Why? What gives you the right to control me? Firstly you are not my mother, you are not my Dad, you ain't even my mate! you are just some stranger who came to destroy peace in this house.!!" Okay, that hurt a little.

His Scarlet Queen Luna Chapter 47

[/ His Scarlet Queen Luna by Milagros Faiyth](#)

"So you have no right to tell me what I can and can't do! now get out of my way I am getting late.." she said making me angry.

"I am YOUR freaking MATE and you are not LEAVING the house wearing that and that's FINAL. Now go upstairs and CHANGE.." I ordered.

"So you are saying if I change I can go?" she asked and I nodded my head happy that we were getting somewhere and she was no longer making me angry.

"Okay.." she shrugged her shoulders putting her hand on my shoulder for support while she removed the heels. Just by her touching me like that was making my life hard but I had to control

After she was done removing her shoes she ran up the stairs sashaying her hips seductively while I gulped trying so hard to not follow her up the stairs and just have her for myself.

I went back and began eating but ten minutes later she came back down.

"See ya later.." she said I looked at her eyeing her up and down while I growled stopping her.

If I thought that the first outfit was worse this one was much worse. She was wearing a see-through crop top showing off her flat stomach and paired up with booty shorts.

I growled Stalking towards her and grabbing her placing her over my shoulders.

"Hey let me go!!" she said hitting my back while I spanked her b*** disappearing up the stairs.

"Put me down right now you stranger! I don't like it when strangers touch me!!" she yelled.

"keep doing that and I swear I will take you right here right now.." I said opening the door to my room and throwing her on the bed.

"What are you doing?" she asked bouncing on it while I locked the Door

I woke up to find myself no longer listening to music my phone was placed on the table I sighed grabbing it and calling someone

"Hey, Juanita.." I said once she picked up.

"hey girl happy birthday.." she said and I smiled.

"Thanks, Juan are you at home?" I asked

"Yes, why? what's wrong? you sound low.."

"He is back.." I breathed out.

"That's great—" she began but I cut her off

"Not great it's terrible. Why now and especially today on my birthday.?" She sighed

"Come over girl we talk and maybe go out.."

"Okay will be there in thirty.." I said cutting the call.

I waited for him but not anymore I no longer want him in my life I am going to find someone else. I went to my closet picked out the only outfit that will make him angry I actually don't wear such but BeBe got it for me last year on my birthday. Luckily it still fits I dressed up and ran downstairs when he stopped me.

He thinks this is short well I will show him what short is. I went back upstairs and wore an even shorter one. But I was not expecting him to carry me on his shoulders, after trying so hard to fight him off we ended up in his room.

"What are you doing?" I asked as he locked the door.

"What does it look like I am doing.?" he answered his eyes dark with desire. Which was a major turn-on. In only seconds he was on top of me kissing me.

ADVERTISEMENT

I tried to push him away but he was too strong instead he grabbed both my hands pinning them up to my head while he kissed me I tried so hard to move my head and to prevent him from having his way but instead he slipped one of his hands down squeezing my b***

I gasped which was a lop hole for him to have his way and kiss me. Such a cheater!

After trying some more to pry him off me I finally gave up kissing home angrily telling him just how much I hated him through the kiss.

He broke away after some time both of us breathing heavily

"I hate you you know.." I said glaring at him.

"I know I am sorry .."

"sorry? Really? You left and didn't even call me to check if I was okay or not you just abandoned me and all you have to say is a freaking sorry?" I said glaring.

"I am sorry I was scared that I would come running back to you if I talked to you. You have no idea what you do to me love.." he said nuzzling his nose on my mark making me let out a whimper.

"Give me a chance and I promise I will make it up to you.." He said kissing it making my breath uneven.

"I'm still not forgiving you.." I said out of breath I have never Been this close to any guy in almost five years I was major turned on.

“Let me please you..” he said huskily. Trailing kisses on my collar bone

“Zane..” I whimpered which was an encouragement because in no time he was attacking my lips then ripped off the crop top I was wearing followed by the bra and the shorts and underwear leaving me bare. I tried to cover up but instead, he pinned my hands above my head.

“I like you just like this! you are hot..” He said kissing my now bare chest and going lower.

He looked up at me for approval and I nodded my head as he let go prying my legs apart.

Then I felt it my first o****m it was like I was in the sky floating on the clouds. It was the best feeling ever.

“Did you like it?” he asked while I breathed heavily.

“Yeah..” I said getting up laying on top of him still naked, “my turn..” I said.

“Wait! what?” He stopped me.

“You pleased me now I have to do it for you too!” I said.

“No..” he shook his head, “ I wanted to do it to show you how much I love you and want to please you so that you can give me a chance not for you to do it for me too. There will be other times—” I cut him off by placing my lips on his

“I want you..” I said biting his ear. He growled lowly.

“Make me yours I am readily available..” I said seductively.

“Cupcake if you keep saying this I won’t be able to stop myself..”

“I don’t want you to. But—” I got off of him, “You don’t want me? okay. Then I will just go..”

“No!” he growled pulling me to him, “you are mine..” he said huskily.

“ Then take me and make me yours..” I said and in less than seconds, he was kissing me while I helped ripped off his clothes.

We both lay on the bed me cuddled on his chest trailing my fingers on it. Our first time it was amazing.

"I love you cupcake.." he said kissing the top of my head. "I am glad you waited for me just like I waited for you.." he placed his index finger on my chin tilting my head up so that I was looking at him then he placed his lips on mine. I smiled in the kiss pulling away hugging him closer

"I am still angry with you you know.." I said taking a big whiff of his sweet scent.

"I know and I will make it up to you.." he pulled me again so that I was looking at him then he crushed his lips onto mine which turned into a repeat of what we just did.

After doing it a few more times we finally stopped while mostly because I was hungry the only thing I ate was the piece of cake this morning.

"Come on Badboy I am hungry.." I said to him we were both in the shower having a heated make-out session. We both couldn't get enough of each other after having to wait for so long.

" bad boy huh. I will show just how much of a bad boy I can get.." he said while I giggled.

"No baby I am hungry.." I pouted.

"Just one more cupcake.." he said.

" no, you have to work for it.."

I giggled getting out of the shower dressing up.

"What can I do?" he asked snaking his arms around my waist.

"By taking me down to have dinner.." I said while he smirked.

He grabbed his clothes dressing up while I wore one of his shirts and sweats going out to my room.

I changed into a green jumper while he waited for me clearly hating the idea of me removing his clothes.

ADVERTISEMENT

"Don't be such a baby.." I said squishing his cheeks while he pouted

"I want you.." he said pulling me closer.

"After dinner!" I said pushing him off giggling while running downstairs.

"Wanna play chase!" he laughed running after me. Before I could even take the first step on the stairs, He pulled me back.

"Gotcha.." He said kissing me again causing another heated make-out session. After like twenty minutes of making out in the hallway we finally pulled apart both breathing heavily and our clothes and hair messy.

"I want you so bad I can't take it anymore.." he said his breath fanning my face.

"I want you too but... after dinner.." I giggled running down the stairs now.

"You can't run from me cupcake.." I heard him say.

"Yes, I can I just did.." I responded. I was about to take the last step when he grabbed me by the waist while I squeaked laughing.

"I told you, you can never run from me.." he smirked tickling my sides making me laugh.

"stop Zane.." I laughed. Luckily we were both hiding behind the wall that separated the stairs from the kitchen and dining room.

"nope not until you give me what I want.." he said laughing.

"Uh, guys in as much as we love seeing you both happy and together some of us are trying to eat dinner and we don't want to see you making babies.." Luka said making me blush to bury my head in his chest. While Zane just laughed.

"Making babies huh?" He smirked lifting me bridal style

ADVERTISEMENT

"come on Zane.." I squeaked.

"Okay okay fine.." he muttered putting me down while I laughed going down the last steps being in full view. everyone just looked at me with knowing looks making me blush.

"Oh, my little girl is all grown up now.." Mom got up from the sit, "I can't wait to have grandkids.." she said while everyone just laughed making me blush even more

"Are you happy baby? was he good to you?." she asked.

"Well, mom I uh....." what am I supposed to say.

"Zane, did you hurt her? How could you? You were supposed to be careful.." she said making me blush even more. I can't believe she was being so vocal about this.

"No Mom I didn't hurt her, I was careful too because it was her—" I placed my hand on his mouth silencing him can't keep a secret. Everyone just laughed at me. I removed my hand from Zane's mouth while he kissed my cheek sitting down. I was about to sit next to him when he pulled me so that I was sitting on his lap

"Zane.." I whined moving my hips he placed both his hands on each side stopping me

"cupcake if you continue like this I swear you won't get to eat dinner.." I blushed why are men so vocal.

"Mom please tell him.." I said to Mom who just shrugged.

"I want grandkids.." she said.

"Fine, I guess I will have to deal with this myself." I muttered, "Zane if you don't let go of me I will sleep in my room.." I said.

"Your room? yes, we will both sleep together.."

"No.." I said moving so I was looking at him, "I will be sleeping in my room while you will be sleeping in yours.." he widened his eyes.

ADVERTISEMENT

"You wouldn't dare.." he said.

"Try me.." I retorted, "I can totally sleep without you but I know you can't.." I smirked.

"Fine.." he mumbled lifting his hands in surrender. I got off his laps then sat on the seat next to him between him and Luka

"See Brea you owe me fifty bucks.." I heard Luka say.

"Dad gives me fifty bucks.." she said to uncle while everyone just chuckled

"What's going on?" I asked

"You see I made a bet that by the time this week will be ending both of you will be fully mated but look it has only been a day and you both are already into baby-making.."

"And you owe me a full day of chick flick movies.." Bloom said.

"Bloom you too?" I asked shaking my head.

"Yeah, I told sweet Ronnie here that you will have Zane wrapped around your finger and he already is.." Aaron groaned muttering something like 'dang it why did I agree to this.'

"Did you say something?" Bloom asked him

" No sweet cheeks I said that I am excited to watch with you.." he said.

"Thought so.." Bloom said making us laugh. You can never win with a pregnant woman.

His Scarlet Queen Luna Chapter 49

After that, we all continued with dinner. I was halfway then I remembered we didn't use protection.

oh no, what if I get pregnant it's not yet time for a baby we still have a lot of things to deal with now that Zane is back.

"Are you okay cupcake?" Zane asked squeezing my hand giving me a worried look

"Yeah, I am fine don't worry about it.." I said going back to eating. I will talk to mom about it maybe she can have a solution.

"Mom can I talk to you for a moment.." I said after we were done with dinner

" yes sure is something wrong?" she asked

"No nothing just want to talk.."

Everyone else left while Zane me and Mom remained.

"Zane can you give us a minute.." I asked.

"no secrets.." He said sternly.

"It's not a secret I will find you in our room.." I winked at him.

He smirked practically running upstairs while I giggled.

"What's wrong Angel?" Mom asked giving me a worried look.

"Mom I don't want to have a baby.." I said she looked at me in shock, "I mean I do I love babies but not right now we still have a lot to deal with.."

"Okay then why didn't you discuss this with Zane?" she asked.

ADVERTISEMENT

"I didn't realize it until when we were eating dinner and we didn't use protection.." I told her.

"Don't worry about it I will give you some pills they will help but you need to talk to Zane what if he wants one plus I also want a grandson I am getting old you know 43 is such a big number.." she said and I sighed.

"Yes, mom I want a baby too but not yet. You know why Zane and I had to separate in the first place we still have a lot to deal with.." she sighed

Opening the cupboards then took out a small plastic that had pills.

"Thanks, mom.." I said while she muttered you are welcome.

"Mom.." I said to her. "Zane and I will have a baby soon but it's just not the right time.." I told her.

"Yeah I know.." she said I sighed going up the stairs. I found Zane in his room waiting for me.

"Finally.." he smirked snaking his arms around my waist he was about to kiss me when I pushed him away.

"We need to talk.." I told him to place the plastic bag on the nightstand.

"Is something wrong?" he asked.

"Zane.." I said leading him so that he sat on the bed while I knelt between his legs, "I don't want to have a baby.." I said

"What! why? I want to have a baby, why don't you want to have one?" He asked and I sighed.

"What I mean to say is that I do want to have lots of them with you but it's not the right time we still have a lot to deal with especially Ceros. What if the war starts while I am pregnant it won't be good for me or the baby.." I said

"I understand.." he gloomily replied. I knew he wasn't happy with this.

ADVERTISEMENT

"I really want to have a baby with you.." he said pulling me so that I was sitting on his lap. He placed his hand on my belly.

"I want to put my pup in you.." he made me sit on the bed then he removed my jumper off kneeling in front of me. He bent down kissing my now bare belly.

"I want to see little me's and little you's running around the house, I want someone to call me dad.." He looked up at me cupping my cheeks.

"I won't start a family with your cupcake. I want to see you with a big baby bump. I want you to be the mother of my kids but if you are not ready then I understand.." He said and I sighed he really wants a baby I guess I won't stop him from being a father. I pulled him into a kiss which turned into more l*****.

*

I woke up in the morning and the first thing I noticed was Zane's side of the bed empty with a note.

"Get ready by 7 pm I want to take you somewhere x*.."

the note said and I smiled.

I dragged my naked self into the bathroom got ready then after that, I took the bag of pills downstairs. Only Mom, aunt, Bloom, and BeBe with little junior were at home.

"Good morning Bloom. How is the baby doing?" I asked Bloom who was stuffing her face with ice-cream

"Baby fine mama not good.." she said with a sp*** full of ice cream in her mouth.

"Why is mama not good?" I asked her.

"Well Aaron isn't here and I am a little needy.." She pouted making aunt Melissa and Mom laugh.

"He will be back soon don't worry.." I said to her.

ADVERTISEMENT

"Good morning aunty.." I said to aunt Melissa

"Morning Angel.." she responded

"morning BeBe and Aaron jnr.." I said to BeBe while I tickled Aaron Jnr's tummy who giggled.

" good morning new mommy in the house.." BeBe smirked while I smiled shaking my head.

" good morning sweet mommy dearest.." I said hugging her.

"Morning Angel.." she said sadly looking the other way and I knew just why. I know I don't want a baby now but I guess I can't keep mom from having a grandchild.

"Mom look at me.." I said to her. She turned her head facing me, " here.." I said handing her the plastic of pills,

" I brought it back I don't need it.." a smile broke from her lips

"Really.." she asked smiling widely at me while I nodded,

"oh thank you so much, Angel.." she grinned at me while I smile.

"Come on have some breakfast I want my grandson to be very happy and health.." she said making me laugh

"Mom I am not pregnant yet.." I said.

"I know but you might also be. everyone knows just how you both can't keep from each other. You both are acting the way Aaron and Brook used to before Aaron Jnr was born." she said placing a stack of pancakes with maple syrup and a creamy cup of tea.

"Yeah totally very soon there will be more babies in the house. congrats in advance Angel.." aunt Melissa said kissing the top of my head. I smiled eating the breakfast.

I sat on the vanity admiring the work that BeBe and Bloom did.

I was all dressed up in a black dinner dress and my make-up was mini but hot with matching heels and my long hair flowing on my back since Zane likes it that way.

"You look so hot he won't be able to resist you.." Bloom said while I smiled.

"Yeah, I hope so.."

"Ready?" BeBe asked and I nodded my head. It was 7:10p.m Zane was probably waiting for me. I got up grabbing my purse and phone walking down the stairs where Zane was looking so hot patiently waiting for me wearing a black suit but without a jacket and necktie while his white shirt was folded in his arms.

"You looking so hot maybe we should just forget about the date.." He said and I blushed.

"You don't look bad either.." I comment he pulled me into a kiss then intertwined our fingers leading me outside towards his black Porsche car.

"Where are we going?" I asked buckling up my seat belt.

"You will see when we get there.." He said driving off. After some time we reached a fancy restaurant. He got out of the car then came to my side and opened the door.

"Such a gentleman.." I giggled while he laughed

"Only for you baby.." he said and I smiled. I got out of the car and he led us to the entrance.

"Reservation for Mr. Black.." He said to the man at the entrance.

"Uh right this way sir.." He led us to a private room that was really elegant and fancy with only a few people around.

"This looks lovely and fancy.." I commented.

"The best place for my Queen.." he said pecking my lips then helping me sit while I said a 'thank you.'

Shortly after the menu came. we ordered our food and as soon as it arrived we began eating in comfortable silence.

ADVERTISEMENT

"This is really good.." I said. The steak was absolutely amazing and mouth-watering if I had my way I could be coming here every day just to eat this. As soon as we were done with our food the lights dimmed a spotlight shining on our table

"uh, what's happening?" I asked as Zane got up from his seat and knelt on one kneel.

"Ever since I was young I never wanted a mate, I thought that being bound to one woman was a waste of time.." Zane began, " But when I met you that day five years ago in the school cafeteria my entire view about mates changed. I wanted to be a bad boy without a care in the world and I was on my way to achieving that goal but once you stepped foot into my life my entire goal changed. I began caring cause you mattered more to me than anything.

Since that day I have always loved you and all I want is to do anything and everything that will bring a smile to your lips.

Scarlet Reyes, I want to spend my entire life with you to love you to take care of you to make you my wife my Queen, and the Mother of my pups. So will you marry me..?" He said opening a velvet box that contained a beautiful platinum ring while my mouth hung open. Marry me? what? uh?

He looked so nervous probably thinking that I was going to say no. I smiled helping him up

"Yes! yes! yes! I will marry you.." I said as he let out a sigh of relief

"Oh thank God I love you so much.." He placed the ring on my finger then pulled me into a kiss as the people who were in the private room began clapping. After the clapping died down music began playing.

"May I have this dance.." He said stretching his hand. I giggled grabbing it as he led me to the dance floor.

An Indian song titled "mere Naam Tu" began playing though I didn't understand any words.

"What does the song mean?" I asked and he smiled.

"I will tell you.." he grinned at me placing one of his arms around my waist while the other was intertwined with mine,

"A color that doesn't match the color of your lips is not a color. A fragrance that doesn't stop in front of your beautiful tresses is not a fragrance.." I blushed to bite my lip while he nuzzled his nose on mine pulling me closer to him so that our bodies were pressed against each other.

"The world seems dull in comparison to you but you add color to mine. You are just mine and no one else's that's why I am openly proclaiming it to the world.." he said looking deep into my eyes.

"As long as there is day and night in this world you will always be mine.

As long as my name exists on this earth you will always be mine.." He placed his palm on my cheeks caressing it while we swayed to the Music.

ADVERTISEMENT

"You will always roam around in my grasp just like the earth roams in the grasp of the sun.." at this point, I was blushing uncontrollably while his beautiful blue eyes shined with so much love.

"You will never find yourself detached from me. You will always be the other part of my life.." the song ended everyone clapping and cheering while he pulled me into a kiss.

"I love you.." he whispered after we broke away and I smiled.

"Thank you so much you are the best mate a girl could ask for I love you too," I said a smile adorning his lips.

"Mr. and Mrs. Black everyone.."

Someone announced a series of applause following while I just laughed looking at my ring.

We went and sat down and he started pouring me some red wine.

"Cheers to a beautiful future together.." He said.

"Cheers.." I said taking a sip of the drink. Soon we were both tipsy but not too much that he wouldn't drive. As soon as we got into the car a heated make-out session was ignited me sitting on his lap my dress had risen a bit showing off my undergarments while he trailed his hands touching me everywhere.

"Let's go finish this home.." He said pulling away both of us breathing heavily. I got off his lap and he drove us home.

The moment we reached home and he opened the door to my side of the car I got out only to be pulled into a kiss.

We would occasionally pull away walk a little then kiss again until finally, we were in his room I don't even remember where I left my heels or the purse I had.

He closed the door with his foot his shirt long gone along the way he helped me remove my dress throwing it somewhere around followed by my undergarments and his.

He pushed me on the bed attacking my body while I m*****ed out his name.

It was another night of pa**ion and l***** as he made me his over and over again don't know for how many times.

I wanted to get out of bed only to realize that I was laying literally onto him on top with his large muscular arms wrapped around me protectively I felt safe and secured. But as much as I was loving this nature calls.

I tried to remove his arms but he only tightened them.

"You are not going anywhere Mrs. Black.." he said huskily turning me on and judging by the feeling of his life on mine he was turned on as well. Mrs. Black that's something.

"I want to go to the bathroom.." I said. Removing his arms from my body.

"Okay but come back quickly.." I nodded my head getting up a low whistle made me turn to look at him.

"You are so hot.." he said his eyes turning dark while I just giggled dragging my naked self to the bathroom.

After I was done doing my business and brushing my teeth I looked at myself in the floor-length mirror and gasped.

My body was filled with hickeys all over not a single place was left guess I am wearing a scarf and sweat pants.

"Baby, you done? I miss you.." Zane knocked on the door.

"Yes come on in.." I said he opened the door and I glared.

He smirked clearly knowing why I was glaring.

"You look amazing baby.." He said his arms making their way around me while our eyes locking through the mirror.

He was shirtless and once I saw my work on him I smirked

guess I am not the only one who will be wearing long clothes.

"Badboy look in the mirror.." I said pointing at his neck. He gasped once he saw it. I moved so that he could have a full view of himself while I laughed I thought I was the only one who had hickeys all over well he did too!
