

When His Eyes Opened by Simple Silence

Chapter 1022

This is Avery's first confrontation with his son. In fact, after she said the above words, she regretted it.

Although the son is not a three-year-old child, he is only a child under ten years old.

Moreover, no matter how old the child is, as long as he is in front of his mother, he will always hope for the mother's greatest tolerance and accommodation.

Just like before Laura died, she always liked to act like a spoiled child with her mother.

How could she take the anger she received from Nathan home and turn her anger on the child?

Just when she was about to chase Hayden, Hayden had already left the villa.

Avery went downstairs and saw a mess in the living room.

"Layla, don't cry. I have sent the bodyguards to chase him. He will be fine." Mrs. Cooper hugged Robert and coaxed Layla.

Avery was in chaos. Just when she was hesitating whether to coax the children at home first or go out to coax Hayden first, Layla came over and hugged her.

"Mom, are you scolding my brother?"

Avery was stuck in her throat: "Maybe! Mom is in a bad mood today, so she spoke more to her brother."

"Mom, let's go find my brother!" Layla wiped away her tears and pulled Avery outside.

Just when Avery was going to find Hayden with Layla, the bodyguard called.

The bodyguard called Mrs. Cooper.

After Mrs. Cooper answered the phone, she said 'OK' twice, and then hung up.

"Avery, the bodyguard told me not to worry. He said he followed Hayden, and Hayden would be fine. When Hayden breathes out, he will bring Hayden back." Mrs. Cooper spoke to Avery.

Avery nodded: "I was too strict with him just now."

"Avery, you don't have to blame yourself. Even if you are strict with the child, how strict can you be? It's because Hayden's reaction was a little intense." Mrs. Cooper looked solemn. "He probably thinks that his father sent him a copybook to ridicule his bad writing. The relationship between father and son is not the same as the relationship between mother and daughter."

Avery listened to Mrs. Cooper's words and was greatly impressed, Inspired.

When Elliot bought the copybook, he probably never thought that the child would have such a big reaction.

For Hayden, his behavior was like a provocation.

"In the future, before letting Mr. Hayden choose gifts for Hayden, I'll ask you before buying them. Don't be kind to do something bad. It's the first time I've seen brothers and sisters quarreling like this, and it hurts to see them." Mrs. Cooper sighed.

"Well. I'll remind him." Avery took Layla to the bathroom to wash her face.

Peace soon returned to the villa.

"Mom, you just said you were unhappy today, why are you unhappy?" Layla stopped crying, but her voice was still hoarse.

"It's a little thing about mom's work. You don't have to worry about it." Avery smiled and then touched her head, "Next time my brother is angry, let's not accuse him first, let's hug him first, Ok?"

Layla nodded earnestly: "Mom, I remember."

After dinner, it was completely dark.

Avery looked at the thick ink-like night and decided to go out to find Hayden.

Not long after she came out of the community, she saw the bodyguard and Hayden sitting on a street bench.

Her guilt deepened.

If the bodyguard hadn't followed Hayden out, she felt that Hayden wouldn't go far.

He is so young, where can he go?

He has always been very sensible, but now he occasionally loses his temper, why can't she tolerate it?

She strode up to Hayden admitted her mistake: "Hayden, I'm sorry. Mom shouldn't lose her temper with you, and she shouldn't think this is a trivial matter."

Hayden frowned tightly, his thin lips pursed into a line, and he didn't speak. .

"Last time I chatted with your dad, I accidentally mentioned that you are not very good at writing. He probably took it to heart, so he bought you so many copybooks. He didn't laugh at you, nor did he want to attack you. He just wants to help you improve, but in the wrong way, without taking your feelings into account." Avery knew these words, Hayden might not listen at all, but she had to say it.

Elliot, who is your father for the first time, so there must be something wrong with him. As long as his love for the child is true. I will not stop him from fulfilling his obligations as a father.

Hayden didn't speak, and Avery didn't explain anymore.
