

## 16. The Party (part-1)

Evelyn

Me and dad were sitting in the car and i was really nervous. Dad noticed it as he placed his hand over mine. "Sweetheart you okay?" He asked.

"Yeah i'm fine dad. Its just, you know that i have never been to a party before" i replied. "Everything will be okay princess. Just relax" he reassured me and i nodded.

Our car crossed from big silver gates in which a big S was engraved.

"Look we are here" dad said and when i looked outside my jaw dropped. In front of my eyes stood a beautiful mansion 'the storm mansion

Lots of cars were parked outside. Me and dad came out of the car, i held his hand.

People had to pass through the security check and it seemed like storms were very careful about these things because security seemed quite strict.

Me and dad went towards it, three four men were standing there. As soon as they saw us they bowed. I frowned, they weren't bowing for any other guests.

Dad had the same expression as mine. "Welcome Mr & Ms. Winters, you both can go, there is no need for checking" he said to us.

I looked at dad, he looked quite surprised too. "Okay, thank you" he said and we went ahead.

"What was that dad?" I asked in curiosity.

"I don't know princess" he replied shrugging. A er that together we made our way inside.

-----

"Yeah we gonna plan a destination wedding" said olivia laughing with crystal and elle who were trying to show o in front of their friends in the party.

(A/N:Olivia, crystal and elle are storm brothers fiances and jason evans is their father. In the end of chapter 3, things are mentioned about them)

Ace sco ed hearing her words, they overheard olivia's rant. "Can't we just break this engagement like right fucking now and throw them out of this party" he said with a bored tone.

"Agreed. Come on noah, we can just break it o right now and kick them out. I don't want to see their pathetic faces, we never even bought them any engagement ring and these whores are talking about wedding" said elijah with disgust.

"Trust me I'm more desperate for this than both of you but if we did it right now they will create a scene in front of everyone, though i don't care about it. My main concern is evelyn, i don't want her to get anxious that's why we need to wait till the party ends" noah explained.

At the mention of evelyn, ace and elijah calmed down. They realized noah is right and nodded their heads in understanding.

"Speaking of evelyn why haven't she arrived yet" ace said, noah and elijah also started looking here and there. "She better not ditch us or else i will spank that ass of hers" noah growled. Noah was the calmest one but when it comes to evelyn he becomes anxious.

"Damn" mumbled elijah with wide eyes, noah and ace looked at him and then followed his line of sight. They felt their hearts stop when they saw evelyn entering looking like an angel.

"Fuck" "holy shit" noah and ace said in unison. They could feel their dicks getting hard. Without wasting any time the trio walked towards her.

"Henry, we're glad you came" ace greeted him. "Of course and congratulations for the tender" henry said smiling. "it couldn't have been possible without your help" noah said.

"Hello evelyn" elijah said. "Hy" she replied with a smile, she was happy to see the storms. They were the only one she knew at the party.

The trio managed to indulge henry in conversation with his other clients. When henry le to talk with them, the trio hugged evelyn.

She was shocked when the storms suddenly pulled her in a hug but soon she hugged them back.

"You look so beautiful little one" noah commented. "Yes" said ace and elijah in unison. Seeing evelyn, the brothers were in complete awe. She blushed a little "thank you, you all look handsome yourself" she said and they smiled.

"Come, lets get you something to drink" ace said and held evelyn's hand, noah held her another hand and elijah walked closely behind her. They didn't care if other people were looking at them.

They settled on the chairs "what would you like to drink" asked elijah "anything" she said. He got her a glass of juice and settled beside her "thank you" she said and started drinking it.

Suddenly noah noticed their 'fiances' looking here and there, he realized that they were looking for them. Ace and elijah also saw them, noah nodded his head to chase, his bodyguard. He had already planned everything, he told chase to distract the girls if they tried to disturb them while they were talking to evie. Storms smirked when they saw chase handling the girls.

"What do you think about this party little one" asked noah "Its really cool and your place is really nice" she said honestly. She was really impressed. They smiled at her. "How about we show you around the mansion" ace said excitedly.

"No no its alright. I don't want you to leave in the middle of your own party" evelyn said.

"Remember you showed us around to your house, now its our turn, plus we don't want to stay in this party anyways" elijah said. "Um ok but i have to tell dad first or else he will get worried" said evelyn and the brothers looked at each other. They knew henry wouldn't let her go and on top of that he will become suspicious of them.

Henry was a smart man, their one mistake and he will take evelyn away from them.

"Don't worry kitten, one of our sta member will inform him" noah said and held her hand "come on let's go." They were about to leave when a man came towards them.

"Hello Mr. Storm" he said and the brothers wanted nothing but to rip his throat for interrupting them but they couldn't, he was one of their main clients and the most important reason was they didn't want to scare evelyn in any way.

"Hello Mr. Wilson" said elijah "its a very nice party" he said and his gaze fell on evelyn who was admiring the decorations.

The storms noticed his gaze on their babygirl and their jaw clenched. Ace stepped forward and covered evelyn's small frame behind him.

"Let's have a drink, everyone is waiting for you guys" the man said, the trio wanted him gone but they knew he was a stubborn man.

"Sure let's go" said ace, Him and elijah le with the man before nodding their heads at noah.

"Little one" noah said and evelyn looked at him. "We really don't want to go with him but he is a stubborn man but we'll be back in few minutes okay" he said.

"Its okay take your time" she said politely, she didn't want them to avoid people because of her.

"You will stay right here and wait for us okay" noah ordered and evelyn nodded her head. Noah put his finger under her chin "verbal answers little one" he said sternly.

She gulped "yes" she whispered. "Good girl" noah said, he gave her a smile and le. Evelyn knew that the trio care for her but the way noah behaved scared her a little but she shrugged it o.

Evelyn was standing near the window staring at the sky. "Beautiful" she heard someone say behind her. She turned around and came face to face with a boy who looked around her age.

Evelyn looked at the boy confused "you are beautiful" he said with a grin. "Thank you" she said while looking down. "I'm liam" he said extending his towards her. "Evelyn" she replied shaking his hand.

"Cute name for a cute girl like you" said the boy named liam and evelyn blushed hard. Just like that they started having a conversation.

"You did what" said evelyn with a giggle. "Oh come on i had a crush on her" liam said rolling his eyes. "You had a crush on your elementary school teacher so you wrote her a love letter" evelyn said laughing. "And then she showed it to your parents" evelyn continued and laughed even harder.

"God that was really embarrassing man" liam mumbled.

"Sorry for laughing at you" she said with a small smile. "Don't be sorry, i'm really enjoying talking to you" liam said with a big smile "me too" she said.

They were still talking when evelyn noticed liam's face turning pale and his eyes were wide, she looked at him confused oblivious to the fact that behind her were standing the storms who were looking ready to kill.

Evelyn heard someone clear their throat, she turned around and saw ace, noah and elijah. She smiled at them but they were looking at liam and frowned. They came towards them and stood beside her.

"I..h..h-hello sir" liam stuttered and she looked at him confused 'why is he so scared' evelyn thought and then suddenly realized that he was scared of 'the storms' who were standing in front of him.

"Hello boy" said ace with a cold voice. "Please excuse us. Lets go puppy" said elijah with angry eyes and held evelyn's wrist. They walked away from liam, "was he bothering you? Tell me puppy, i swear i'm gonna break his-" said elijah but evelyn cut him o "he didn't do anything elijah don't worry, we were just talking. He is a nice guy" said evelyn with a smile.

Hearing her words their eyes darkened "oh yeah, he is a nice guy?" Noah said gritting his teeth. They couldn't stand the thought of evelyn looking at any other guy let alone calling him nice.

Evelyn looked at them confused "are you okay" she said so ly and touched noah's shoulder in concern. He visibly relaxed under her touch while ace and elijah stepped closer to her and held her hands.

"Come on kitten we'll show you around" said ace and they came out of the party. Evelyn was admiring the big mansion she was just looking at her lovingly. "This is the main entrance" said elijah and opened a big door. A gasp escaped from evelyn's mouth seeing the gigantic hall.

Evelyn's house was huge too but that was nothing in front of the storms mansion. "Wow" she mumbled, she was in complete awe. "Come" said noah and they started climbing the beautiful stairs.

Evelyn admired the paintings hanging around. "They are so pretty" said evelyn referring to the paintings. "I didn't know you guys liked art" she said turning towards the brothers.

They looked at her and smiled "we don't but someone else does, someone who is really special for us" said ace looking at her lovingly.

"Who" she asked. "Take a guess" elijah said.

A smile formed on her face "i know" she said and the brothers smiled at her "you bought these for your fiances" she said happily and their smile dropped. "How do you know about them" asked elijah with a frown.
