

Chapter 5053

Charlie once felt that finding the specific address of the dead men would be as difficult as going to the sky.

The reason is that the mysterious organization controls the dead men extremely tightly,

Preventing them from perceiving the exact time, nor allowing them to perceive the light,

Temperature, sound, and the changing seasons of the outside world.

Therefore, May 47 doesn't even know which of the seven continents he lives in,

Let alone whether he is in the tropics or the frigid zone.

Even the only living mouth can't come up with any substantive clues,

And it is even more impossible for outsiders to find this place.

However, Duncan accurately found clues that the mysterious organization could not control.

Earthquakes, tsunamis, and typhoons are all powerful natural phenomena.

If a strong bunker can still isolate typhoons and tsunamis,

Then no matter how strong the bunker is, it is impossible to isolate the strong shock caused by the earthquake.

Those who are imprisoned in the dark, or in some kind of underground fortification,

May not perceive the sunlight, the stars, the real sound, and the temperature of the outside world,

But when the earthquake comes, no matter how deep they are.

Underground or in a cave, they will definitely feel something.

Moreover, violent earthquakes are not common. If they have occurred,

A very accurate timeline can be judged. In this way, as long as the clues are relatively consistent,

There is a high probability that they can correspond.

However, Duncan was not overly optimistic, he said to Charlie with a dignified expression:

“Master Wade, the job you mentioned is the only clue that can be found so far that is related to that mysterious organization,”

“If I can successfully find their station, it is possible to find the clues of the mysterious organization behind it,”

“But if I can’t find their station, or if they have already evacuated this group of dead soldiers when I find them,”

“Then I am afraid the clues will be completely cut off.”

“After all, last time The mission of that group of dead men was a complete failure,”

“Maybe the mysterious organization will move all the dead men to other places out of caution.”

Charlie nodded and said seriously: “I think there is a high probability that they will not evacuate.”

“Think about it, why did they spend so much energy to hide this station,”

“And even tried their best to block the perception of these dead men?”

“It’s because of this. The site selection, construction, and maintenance of the station take a long time and cost,”

“And it cannot be easily replaced, so they must ensure that the dead soldiers who are sent out on the mission know nothing about the place where they live,”

“So that even if they failed and were captured, they couldn’t provide the actual information about the station.”

Duncan nodded: “If that’s the case, it would be the best,”

“The station of the dead must be closely guarded by the core members of this organization,”

“As long as you can find this station,”

“You can follow the vines and find the veins of this mysterious organization.”

After speaking, he looked up at Charlie and asked, “Master Wade,”

“Based on my years of experience in the police,”

“I have concluded an eternal truth. , that is: contact is always mutual.”

Charlie said lightly: “Inspector Li may wish to talk about it.”

Duncan said: “If you watch too many police and bandit movies,”

“It will make people feel that the police always seem to be completely unaware of the criminals.”

“However, the criminals of that kind are relatively low-level.”

“A considerable number of high-IQ criminals have a very sensitive sense of smell.”

“We have just found his clues and also When he didn’t lock his identity,”

“He had already discovered us, and when we tried to dig deeper into the clues,”

“The other party had already disappeared. The organization you mentioned is extremely powerful.”

“When the time comes, it is very likely that they will find me too.”

“Also, this is not the police catching criminals,”

“Generally, the worst result is that people run away and are not caught.”
