Chapter 2418

Gloria raised her wrist and replied generously: “Yeah! My wrist was injured before, the doctor told me to wear wristband.”

“Oh, then you can’t do physical work, right?”

Gloria smiled, and was about to answer when another secretary said, “Ms. Wiens’s current position doesn’t require any physical

work at all! Ms. Wiens, if you have any physical work, you can just ask us to do it for you.”

Gloria didn’t expect everyone to be so enthusiastic, and was at a loss for a while.

Gloria: “President Tate asked me to prepare the annual meeting with the administration department first.

There shouldn’t be any physical work. Thank you, you are all so enthusiastic. When I get my salary, I will invite you to drink milk tea.”

“Okay. Ah! Although I don’t drink milk tea to lose weight, I must drink the milk tea you asked for.”

“Ms. Wiens, you are so beautiful, do you have a boyfriend? I heard that you are from Yonroeville, and you plan to settle in

Aryadelle or go back to Yonroeville after working for a while?” another asked.

Gloria chose an empty workstation and sat down, took out a notebook from her bag and put it on the table, then replied quickly, “I don’t have a boyfriend, and I don’t plan to find a boyfriend for the time being. I just graduated and I’m still young. I want to have a stable job first.”

“Well, your idea is right. Making money is more practical than dating. When you have a career and money, you won’t be able to find the kind of man you want! Although you are now Young and beautiful, you can find good men, but when you get older, men may get tired of you abandoning you, and only the money you earn is real.” Another woman felt this deeply.

“President Tate is the best example. Even without Elliot, our President Tate is a very successful woman.”

A secretary flattered,

“President Tate is always a medical genius. Just this alone can fascinate many men! I heard that Before President Tate studied medicine, she had a good relationship with Elliot. But President Tate had no ability at the time, so she could not stay with Elliot

for a long time. Later, President Tate became a medical genius, and Elliot chased President Tate back again. “Almost all the old employees of the Group knew these gossips.

But Gloria was listening to it for the first time, so she listened with great interest.

Gloria: “Then why doesn’t President Tate continue to be a doctor?”

“How tiring to be a doctor! If there is an operation, it will be even more tiring. Now that President Tate has a family and children, she must be family-oriented.”

Gloria: “Yes. It’s sometimes difficult to balance career and love.”

“Your family is in Yonroeville, right? If you are particularly successful here, I’m afraid it will be difficult to go back. After all, Yonroeville is not as good as Aryadelle.”

“I want to do my job well first and talk about the future things later. If I think too much, I’m afraid I won’t be able to do anything well.” Gloria could feel that her arrival was a threat and competition to everyone.

On the surface, everyone was very enthusiastic and welcomed Gloria. In fact, between the lines, there was a desire for Gloria to return to Yonroeville.

kindergarten.

In the afternoon, there were outdoor activities in the kindergarten, going to a farm in the countryside to experience potato digging.

In this event, not just one class, but children from several classes went together.

The children in Siena's class were actually used to the existence of Siena. Although Siena had ugly scars on her face, Siena

never took the initiative to talk to any children.

Siena was not so noisy, as quiet as the air. As long as she didn't put her eyes on her, she couldn't affect anyone at all.

In other classes, many children saw Siena for the first time. After seeing Siena for the first time, some children screamed.

A child screamed, causing other timid children to scream.

The teachers immediately went to appease the screaming children.

Siena understood that she scared the children, so she walked behind the teacher and hid.

She was afraid that those children's exclamations would affect her potato digging activities.

The teacher said that the potatoes dug up today could be brought home by yourself.
