

# The Mans Decree Chapter 1613

Chapter 1613 Will Not Die So Easily

The black light immediately collided with the powerful gust of wind conjured up by Kai's punch.

A loud boom resounded in the air.

Kai's punch was destroyed by the black light. Following that, the black light landed heavily on his body, throwing him into the air.

Kai was sent flying into the sky before crashing down heavily to the ground.

Boom!

The impact caused a huge crater to appear in the martial arts arena.

The martial arts arena was built for fights. Strong gold and metals were used in its construction, and the arena was even strengthened by an arcane array.

Even so, the impact of Kai's body smashing against the ground still caused a huge hole to appear.

Kai gritted his teeth and slowly climbed up from the crater his body had made.

At the moment, Edgar was looking down on Kai, acting like he was an almighty god.

"Haha. You are no match for me. What's the use of trying so hard?" He chuckled coldly.

Thereafter, another black ray of light appeared above Edgar's head. Like a bolt of lightning, it shot toward Kai.

He would not stop unless Kai died in front of his eyes.

The battle was a fight to the death. Between him and Kai, one of them had to die.

When Kai saw it, he waved his right hand and the Dragonslayer Sword appeared in his hand.

The sword was strengthened by the Power of Dragons and was gleaming brightly.

Kai let loose waves of aura, and it traveled from his hand before wrapping around the Dragonslayer Sword.

It seemed that the Dragonslayer Sword sensed that Kai was in danger, for it let out screeching sounds.

"Nine Shadows Godly Strike! The first strike..." A frightening light shone from the blade as Kai bellowed.

The light flew out from the sword and clashed against the black light harshly, but it dealt no damage to the black light.

Kai's attack was utterly useless.

When the light came into contact with the black light, it disappeared instantly.

Seeing that, Kai's expression turned ugly, and he gritted his teeth.

"The second strike..."

Whoosh!

Another ray of light emitted from his sword.

However, the result was the same. His efforts were futile.

Kai stared at the approaching black light as an impending sense of death enveloped him.

He inhaled deeply before waving the Dragonslayer Sword and roaring loudly.

Thereafter, he held the Dragonslayer Sword and met the black light head-on.

Boom!

The golden light from his sword and the black light collided together, causing a huge wave of energy.

The entire martial arts arena was enveloped in a blinding light.

Everyone shut their eyes, for they couldn't endure the brilliance of the light.

It even made the audience members, who were a few meters away, flew backward.

Soon after, the light dissipated, and the wave of energy disappeared.

Everyone hurriedly looked toward the martial arts arena. They noticed that Kai's bloodied body was lying in the crater. The light from his body had disappeared without a trace, and the Dragonslayer Sword was stuck beside his body.

"Is he dead?"

"He can't die so easily, can he?"

Everyone started chattering in hushed tones.

"Mr. Chance..."

Colin and the rest of the team rushed forward like they had lost their minds.

Lizbeth, too, jumped up and rushed toward Kai instantly.

"Kai! Kai..." Lizbeth called out Kai's name again and again, but all she got in return was Kai breathing weakly. His eyes were shut, and it appeared that he had lost consciousness.

"Mr. Chance! Please open your eyes! You can't die!"

Colin started bawling in front of hundreds of people.

As for Renee, she stared at the motionless Kai as anger overcame her.

Soon after, white light enveloped her, and a white body armor appeared around her.

Rays of sacred white light encircled Kai and appeared to be healing him of his wounds.

### Chapter 1614 Natural Talent

Even so, Kai did not move. Renee's power appeared to have no effect on him.

"Haha! You can't save him..." Edgar cackled wantonly.

Collin and the rest glared at Edgar with fury in their eyes. Their aura increased exponentially.

Even if they died, they would not allow Edgar to kill Kai.

"All of you are like puny little ants. Do you really believe that you can stop me?"

Edgar could sense their murderous intent and started laughing with increasing satisfaction.

Colin and the rest remained silent, but frosty anger flashed in their eyes. It was evident that they were planning to go all out in the battle.

"Mr. Sanders, what should we do?" Xavier whispered to Arthur at that moment.

Kai was on the brink of death, and Xavier realized that the latter had no intention of lending a hand.

"Let's wait and see. Kai won't die that easily."

Arthur spoke placidly as his eyes narrowed slightly.

Just then, spots of light shone from Kai's body.

It almost seemed as if he had turned into a ray of light.

Thereafter, clouds gathered in the sky and lightning flashed as thunder rumbled.

Enveloped in light, Kai's body floated up to the sky.

"This... What's happening?"

"Is this a lightning tribulation? Will Kai achieve a breakthrough now?"

"How is that possible? Who would undergo lightning tribulation in an unconscious state?"

"This scene looks so scary. How terrible will the lightning tribulation be?"

Everyone stared at the peculiarity in the air and started discussing in shock.

Boom!

Suddenly, there was a deafening boom as a bolt of lightning struck Kai's body.

Originally floating in mid-air, Kai's body dropped down from the impact, and a burning smell emitted from his body.

Edgar burst out laughing when he saw that.

"Haha! Even the heavens are helping me! They must have despised Kai as well and sent him such a terrible lightning tribulation! I don't need to do anything! Kai will be burnt to a crisp soon!"

He laughed gleefully.

Anxious, Colin leaped up and wanted to save Kai.

After all, he reckoned even a body made up of strong metals could not withstand such a frightening lightning tribulation.

"Don't move. With your abilities, you'll be killed before you could even reach him... We have to have faith in Kai and believe that he can achieve a breakthrough..." Lizbeth said as she held Colin back.

Colin felt helpless. He could only raise his head, look to the sky, and pray that Kai could tide through it.

Boom!

Deafening sounds of thunder reverberated through the arena.

Boom!

Yet another bolt of lightning struck Kai's body harshly.

This time around, a ray of light that looked like a ball of fire immediately emitted from Kai's body.

When everyone saw that, some sighed while some rejoiced.

Meanwhile, Lizbeth, Colin and the rest looked on with worry.

"I can't believe he had to go through two rounds of lightning tribulation to become a Greater Martial Arts Marquis. It looks like this brat has natural talent. Luckily, you injured

him severely before he broke through. Otherwise, it would be troublesome if he really managed to achieve a breakthrough,” the old voice resounded in Edgar’s mind.

Edgar rejoiced as well. He was aware that if Kai really broke through such a frightening lightning tribulation, he would be unable to defeat the man.

“Mr. Sanders...” Xavier called out anxiously for Arthur in the crowd.

At the moment, Kai’s body appeared to be burning. It was as if he was going to be burnt to ashes.

Arthur stared at the ball of fire and remained silent.

When Xavier saw his reaction, he could only continue fixing his gaze on Kai.

As everyone stared at Kai, the light slowly dissipated from Kai’s body. Kai, who had been lying down at first, slowly stood up and floated in the air.

Two rays of light emitted from his eyes as he swept his gaze across the audience.

## The Mans Decree Chapter 1615

Chapter 1615 Not Dead

“Mr. Chance is not dead... Mr. Chance is not dead!” Colin yelled excitedly when he saw the scene.

Everyone murmured in disbelief as they stared on in shock.

They did not understand how Kai could survive such a frightening lightning tribulation.

When Edgar realized that Kai was still alive, his expression grew ugly.

At the moment, the latter looked like an immortal as he floated in mid-air. However, the patch of grey clouds above his head did not disappear.

Boom...

Soon after, another bolt of lightning struck him.

"What? Three rounds of lightning tribulation?"

"This is f\*cking crazy!"

"It's weird! This is really weird..."

Everyone's jaw dropped open in shock when they heard the rumbling thunder.

Even Arthur looked slightly shocked as well.

However, the person who was the most shocked was Edgar.

He only underwent one round of lightning tribulation when he became a Greater Martial Arts Marquis.

Even so, he could be considered a special natural talent.

However, Kai underwent three rounds of lightning tribulation.

How is this possible?

Edgar's confidence was shattered by the scene in front of his eyes.

"Stop him! Hurry! He can't undergo the third round of lightning tribulation successfully. Otherwise, we'll be dead meat..." the old voice urged Edgar anxiously.

Edgar immediately came to his senses. After sucking in a deep breath, rays of black light emitted from his body.

Soon after, the black light gathered in his palm.

"Stop him! He's going to attack Mr. Chance!"

Colin realized what Edgar was planning to do.

One would be the weakest when they underwent a lightning tribulation. If Edgar attacked Kai at such a time, the latter would be in great danger.

Colin let out a ferocious roar and rushed forward without a thought for his own safety.

"Insignificant ant..."

Without even looking at Colin, Edgar waved his hand lightly and sent the former flying backward.

Lizbeth flew toward Edgar when she saw what was happening.

However, just as she started heading toward him, she was blown away by a powerful force.

The gap in their abilities was too large. No matter how hard they tried, they could not delay or stop Edgar.

Edgar leaped up and flew into the air.

However, at that moment, a ray of holy light wrapped around him.

The white light caused Edgar to pause in his tracks while the spirit in his body instantly cowered and hid.

He then noticed that Renee, in her white body armor, was emitting rays of white light from her body, which was what restricted his movements.

The third round of lightning tribulation was about to begin.

Edgar knew that he did not have enough time. After letting out an angry yell, he broke free of Renee's restraints.

Renee was struck by his powerful blow. She spat out a mouthful of blood before falling to the ground.

"Now die!"

Edgar turned into a ray of black light and flew toward Kai.

Boom!

At that moment, the lightning tribulation occurred once more.

A large bolt of lightning struck down harshly.

Edgar, who was in front of Kai, was thrown backward by that frightening force.

He could only watch as Kai underwent the lightning tribulation.

The latter appeared to have been pierced by the bolt of lightning.

Edgar prayed that Kai would not be able to withstand it.

The third round of lightning tribulation was stronger than the previous rounds.

Everyone stared on in trepidation. They were waiting to see if Kai could overcome the third round of lightning tribulation.

A trace of nervousness appeared on Arthur's face as well.

Soon, Kai's body turned transparent. The bones and blood vessels in his body could be seen clearly.

## **The Mans Decree Chapter 1616 -**

### **Chapter 1616 Still Want To Escape**

The elixir field in Kai's body spun crazily, and his Nascent Soul was undergoing a change.

The Nascent Soul was as small as a thumb at first. Now, it slowly grew bigger and a face could be seen clearly.

It looked like a smaller version of Kai.

As the Nascent Soul grew, Kai's physical traits changed as well.

A Manifestor could change their physical traits as they wished.

However, in the current day and age when spiritual energy was scarce, a Manifestor's ability to change his physical traits was not guaranteed.

Yet, Kai did not care about the change in his physical traits. What he needed were abilities. He needed stronger abilities.

Suddenly, he opened his eyes. At that moment, two beams of light shone out from his eyes.

The clouds in the sky dispersed as the light shone through.

Kai's aura changed swiftly.

His physical body grew stronger by ten times.

Such was the benefits of an increase in cultivation level.

When Edgar stared at Kai who had successfully undergone the lightning tribulation, his expression grew ugly.

I wasn't able to defeat Kai quickly when he was just a Top Level Martial Arts Marquis. Now that he has undergone three rounds of lightning tribulation, there's simply no way I could defeat him.

"Retreat... Quick!" the old voice in Edgar's mind urged.

Edgar turned and wanted to run away.

However, before he could do so, Kai's voice rang out coldly, "We haven't figured out who the winner is yet. So why do you want to run away now? Didn't you say that one of us must die today?"

Edgar's heart skipped a beat. He did not know how Kai managed to get to his side in a split second.

"Focus on escaping! Don't pay his words any mind..." The old voice urged Edgar to run.

Edgar did not turn around and continued running.

A black shadow appeared behind him, forming a large palm before flying straight at Kai.

It seemed that the spirit inside Edgar had revealed itself. It was trying to delay Kai so that Edgar would have time to escape.

"Hmph! You're just a spirit without a body. Yet, you dare try and challenge me?"

Kai snorted coldly and he raised a hand. A golden light appeared on his palm and surrounding it was a layer of light blue flames.

When Kai came into contact with the large palm, the palm exploded before a frightening wail sounded.

Edgar did not dare to look behind him. He could only run with all his might. Sweat dripped continuously from his forehead.

He was no longer confident in his abilities, and his heart was trembling in fear.

“Hurry! Use teleportation magecraft to stop him...” The old voice in Edgar’s head continued speaking.

A trace of fear could be detected in the old voice. It had been hurt by Kai and was now deathly afraid of the man.

Edgar immediately made a series of hand seals and the space before him started distorting.

Running in front of Kai, the space between them suddenly became both far and near.

“Teleportation magecraft?” Kai’s lips curved into a smile. “But your teleportation magecraft is not very well done it seems.”

As he spoke, he punched the air in front of him. A ray of golden light shone before the sound of an explosion reverberated through the air.

The distorted space was destroyed by Kai in a mere instant.

He could clearly see Edgar running away with a frightened expression on his face.

“Still trying to run, huh?”

He took one step forward and appeared in front of Edgar instantly. He then punched the latter harshly in the chest as golden light shone from his fist.

Coughing out a mouthful of blood, Edgar was then sent flying in an arc across the sky. He had already managed to run a significant distance away from Kai, but Kai’s punch landed him in the martial arts arena again.

His body landed heavily onto the martial arts arena as he stared around him with fear in his eyes.

The crowd stared at Edgar in disdain as bouts of mocking laughter broke out.
