

## Read I Am A Quadrillionaire Chapter 1821

I am a quadrillionaire chapter 1821—She was about to help David and complete the task, so she did not expect something

unexpected like this to happen at this juncture.

Alba panicked for a moment.

She did not know what to do and the Fellowes family asked her to wait for now.

However, Alba did not want to wait, nor could she.

Anders had already broken through to partial Saint Realm, and if she waited any longer, she would probably have to marry into the Palmore family.

At that time, her whole life would be completely ruined.

Alba hurried to David's residence, wanting to discuss what to do with David.

After knocking on the door and getting David's consent, Alba quickly pushed the door open and entered the room.

Upon seeing Alba's flustered face, David asked curiously, "What's wrong, Miss Fellowes? Did something happen? Why are you so flustered?"

"Master David, things are a little troublesome now," Alba said.

"Oh? What's going on? Tell me!" When David heard that, he immediately stopped lazing about and became serious.

He knew that the trouble Alba mentioned must be related to East League Trading Company.

Otherwise, she would not rush to find him.

Now David was relying on East League Trading Company to spend money so that he could get lavish points.

If there was a problem with East League Trading Company, wouldn't it mean his lavish

points would not increase?

He would not allow this!

“Master David, East League Trading Company has been seized and we cannot conduct any transactions. That is to say, we can no longer develop and strengthen East League Trading Company and we cannot complete the tasks assigned by your master,” Alba said while she sobbed.

‘What?’

‘Someone seized East League Trading Company?’

David stood up after hearing that.

“Are you telling the truth?”

“Yes!” Alba answered.

David did not speak anymore. He took a few deep breaths and forced himself to calm down before continuing to ask, “Miss Fellowes, what’s going on? Tell me.”

“Actually, I don’t know what’s going on! East League Trading Company was suddenly shut down, but news came from the Fellowes family just now saying that it was the Palmore family who did that.”

“The Palmore family? Why did they seize East League Trading Company?” David asked with a frown.

He had also heard about this big family.

It was one of the six forces with Sacred Saint in Star Kingdom and the family behind the Fellowes family.

Their strength needed no introduction.

They were very powerful and frightening.

This was evident from how they forced the Fellowes family into a dead end.

“According to my guess, the Palmore family should have discovered that Treasure Trove was conducting secret transactions with East League Trading Company, which may threaten their interests, which is why they did that. After all, in the eyes of the Palmore family, Treasure Trove has long been theirs and no one is allowed to get their hands on their personal belongings,” Alba voiced her thoughts.

After learning that the Palmore family was behind this, she correctly guessed the general essence of the matter.

David did not speak anymore as he had a headache.

He still had not taken care of the Lightfoot family and now, another even more powerful family showed up.

‘What should I do?’

‘If East League Trading Company is shut down, then I can’t spend a lot of money to get lavish points.

‘Without lavish points, my strength will stagnate.

‘If I can’t improve my strength, I can’t even fight the True Saints of the Lightfoot family, let alone the Sacred Saint of the Palmore family.

‘Gosh!’
