

Read I Am A Quadrillionaire Chapter 1933

I am a quadrillionaire chapter 1933-“Prim, why are you getting involved with Zenon? And York, have you forgotten the past grievances between the Ginger and Palmore families?” Sid frowned and asked.

The Prim he was talking about was Primrose, the grandmaster of Evergreen Island in Star Kingdom.

York was naturally the Sacred Saint grandmaster of the Ginger family.

Sid did not expect the two to get involved with Zenon.

The other two’s behaviors were within his expectations.

“Sid, my brother, just agree! Star Kingdom has been quiet for so long, and it’s time to shuffle the cards and clean up some garbage. This is the trend. You can’t protect the entire Star Kingdom by yourself,” the old woman, Primrose, persuaded.

“Lord Sid, as long as you pass Zenon’s proposal, you will main the head of the Saints Association. As for the grievances between the Ginger and Palmore families, you don’t need to worry about that,” York also said.

“What if I don’t pass it?” Sid asked.

“If you don’t, we can only forcibly remove you from the position of the head of the Saints Association. I hope you don’t blame us when the time comes.” It was Zenon who spoke this time.

“Haha! Good! Very good! Amazing! You must have been planning this for a long time, right? Zenon, I underestimated you. I didn’t expect you to gather everyone together.” Sid laughed.

He genuinely did not expect Zenon to unite the remaining four.

It seemed that the saying was true.

There were no permanent enemies, only permanent interests.

With enough benefits, even enemies could become friends.

“Lord Sid, no matter what, we have seen the contribution you made to Star Kingdom. Even if you are not the head of the Saints Association, you will still enjoy the treatment of a deputy head for life, and we will always respect you.”

“Zenon, you don’t need to be hypocritical, and I don’t need it. Since you dare to bring them here to make me abdicate, you must be very confident in your own strength. If you have the guts, let’s fight and show me how much progress you’ve made in the past year,” Sid stared at Zenon and said slowly.

At the same time, he stood up straight.

His Sacred Saint energy started pouring out.

When the other Sacred Saints showed up and stood next to Zenon, Sid knew Star Kingdom would return to its previous regime.

This was because he could not fight five people at the same time.

Next, Star Kingdom would surely be thrust into chaos.

Now, Sid needed to vent the anger in his heart.

Plus, his target this time was Zenon.

No matter what, he had to teach that scoundrel a lesson.

Even if the other party disagreed, he could still pressure Zenon with his imposing aura.

He thought Zenon would not agree, but unexpectedly, Zenon grinned and replied, “Since Lord Sid wants to test my ability, I will surely say yes as a junior.”

“Zenon, you’re pretty good.”

“You speak too highly of me, Sid.”

The two disappeared from their spot and went into an even deeper void.

The rest of them quickly followed behind.

Zenon wanted to challenge Sid, the number one of Star Kingdom, so this would be a shocking battle.

If they missed out on this chance to watch, they would never get another chance in the future.

However, only the four of them would dare to watch this up close.

Other people, even if they were True Saints, would not dare to get up close.

David had no idea that the reason Sid did not go to him was that the Sacred Saint of the Palmore family was in the way. If he knew of this, he would have thanked Zenon properly. If not, what he told the Fellowes family about asking his master to take care of the Saints Association would be exposed.

Not only did Zenon block Sid for him, but the Palmore family's pressure also made the Fellowes family accept David's proposal without any hesitation.

The Palmore family were a core reason why David could improve so quickly.

West End of the Central Sacred Continent.

Not long after David was asked to wait, Cedar returned urgently.

One could tell from his face that he was very anxious.

Just now when he was contacting the other two True Saints of the family, he found a shocking piece of news.

Sid was not the head of the Saints Association anymore.

Read I Am A Quadrillionaire Chapter 1934

I am a quadrillionaire chapter 1934-The new head of the Saints Association terrified the Fellowes family.

It was Zenon, the Sacred Saint grandmaster of the Palmore family.

Cedar's mind went blank the moment he heard this news.

'Zenon is the new head of TSA?

'Does it mean his proposal will get passed directly?

'Does it also mean Star Kingdom allows the Battle of the Saints now?'

This was such a destructive blow to the Fellowes family.

They thought even if the Palmore family took action against them, the Saints Association would mediate the affair.

After all, the Fellowes family had three True Saints and countless Pre-Saints.

Judging from the Saints Association's past behavior, they would not turn a blind eye to this.

Winning over David was also another preparation made by the Fellowes family because they knew that since the Palmore family wanted to take action, they would surely come prepared.

However, they were too prepared, and the Fellowes family was caught offguard.

Zenon directly kicked Sid out of power and became the leader himself.

Would Star Kingdom belong to the Palmore family from now on?

Zenon was now the head of the Saints Association so his family would live in peace.

Meanwhile, the Fellowes family was thrust into panic.

Their only hope now was David.

If something went wrong with David, then the Fellowes family's destruction was imminent.

After Cedar entered the room and sat down, he forced himself to calm down.

He knew he could not panic now.

He could not let David know that the Palmore family's grandmaster had become the head of the Saints Association.

Otherwise, David would likely not do anything.

Nobody wanted to offend the head of the Saints Association.

David and his master were no exception.

They had to get David to side with the Fellowes family so that there would be a glimmer of hope for the Fellowes family.

The Fellowes family no longer cared about the shares anymore.

Their only thought was to save their lives.

"David, how many shares do you think you need to have in order to get your master to make a move?" After calming down, Cedar asked.

David's perception was strong, so he naturally sensed something wrong with Cedar.

As soon as the other party spoke, he became more certain of this.

Cedar must be acting like this because of some news he just got.

It was possible that the Palmore family was coming in hot, and the Fellowes family was overwhelmed.

However, David did not care.

He even felt that by doing this, the Palmore family was giving himself assistance to reach Sacred Saint as soon as possible.

After this, he had to thank the Palmore family.

If it were not for them, he would not be able to improve so fast.

“Cedar, how much can you give?” David asked back.

“It doesn’t matter how much we can give, what matters is how much your master needs. If our cooperation is

successful but your master is not happy and still doesn’t want to come out, won’t it be a waste of effort?” Cedar said.

How would he care about these things now?

If it was not for fear of David getting suspicious, he would even let David take 80% or 90% stake of the company.

“Then I would like to ask how much is Treasure Trove worth. Only when I know the approximate figure can I know how much I can buy with the funds given by my master. If I spend all the funds the sect accumulated for so many years, my master will surely come out. If not, we live as paupers.”
