I am a quadrillionaire chapter 2064-Partial Pre-Deity would be fine.

David was very confident to win in a four-against-one fight.

However, if the opponent was a Pre-Deity, then David would probably not be a match even if he had three clones.

Before David could speak, Lorraine took a few breaths and continued, 'The establishment of the Iridescent Sect is also to make it easier for them to find women of various physiques. After they cultivate the women to Saint Realm, the person in deep sleep can absorb the women. My alluring body is the last one. Thus, after the person absorbs me, he can wake up. Before me, Celeste was their target, but her alluring body was damaged during a mission, so she became useless. That's why they chose me in the end.'

After speaking, Lorraine stared at David closely.

She wanted to see if there was anything unusual in his eyes.

If he was the one who damaged Celeste's alluring body, he would surely show a reaction.

Indeed, when David heard that Celeste should have been the one being absorbed and she was only replaced because of her damaged alluring body, his eyes and emotions fluctuated greatly.

It suddenly dawned on him.

Everything was clear now.

Why was Celeste sent to the ice cavern just because of PreSaint Nek?

With the strength of the four True Saint reputable elders of the Iridescent Sect, there was no need for them to be afraid of the Simmons family.

The Simmons family was not powerful at all, so how could they be qualified to challenge the Iridescent Sect?

It turned out that the most main cause was that Celeste's alluring body was damaged, so she lost her value.

They had cultivated her for so many years, but at the last moment, everything was wasted.

Anyone would be extremely angry.

Now, it was not that difficult to understand why Celeste was banished into the ice cavern.

Therefore, David accidentally damaging Celeste's alluring body saved her too.

Otherwise, it would be Celeste who would be absorbed.

If Celeste had not entered the ice cavern, David would not be forced to improve himself so desperately. He would surely just make steady progress incrementally.

At that time, he might only be able to watch Celeste being sucked dry and not have the power to save her.

Everything started when Celeste was sent to the ice cavern.

David wondered if those four old women would vomit blood angrily if they knew the truth.

The series of events that followed would not have happened if they did not initially do that.

David might have listened to Amadi's advice, joined Star Mansion, became a member of Star Mansion, and developed in secret.

He would have never taken such a big risk since he would lose everything if he was not careful.

Lorraine stared at David for a moment.

From David's demeanor and eyes, Lorraine could basically confirm that the relationship between the two was not normal. She knew that David was the one who damaged Celeste's alluring body.

'They met on Earth, right?'

'So why did they get together on the way to Star Kingdom?'

'Celeste has lived for nearly two thousand years and has kept her alluring body intact.'

'How long has she known David before she went against her teacher to give David the most precious thing a woman possesses?'

This baffled Lorraine.

'Even if this was love at first sight, things can't develop so quickly.

'What's more, at that time, Celeste was a high-ranking Universe Enforcer and also a late Sovereign Ranker.

Meanwhile, David had just entered Eternal Realm.

'The identity and strength of the two were far apart.

'However, it turns out that Celeste made the right choice.'

Lorraine thought of another possibility.

Celeste should have discovered the secret in the forbidden area long ago, and she did not want to just become someone's nourishment, so she gambled in this way.

However, she made the right choice.

Although she was banished to the ice cavern by her seething teacher, she was rescued by the man she chose.

Although there were some surprises along the way, the end result was good.
