

# Chapter 5585

Seeing Charlie pointing in the direction with his hand,

Maria didn't even look at it, she directly pulled the joystick,

Making the helicopter fly precisely in the direction of Charlie's finger.

At this time, Jeremiah, who was hiding in the gap between the boulders,

Didn't know that she had been locked by the other party.

She just wanted to try her best not to move her body or make any noise,

And she would naturally leave after the people on the helicopter made a round of inspection.

Moreover, she also has absolute certainty that she will not be discovered by the other party.

Because the helicopter circled the valley several times,

But the people on it never came down to search, and the huge boulder blocking her head was very thick,

Even if the other party used equipment such as thermal imaging,

It was impossible to see cross this boulder to discover her whereabouts.

However, what made Jeremiah feel even more uneasy was that the helicopter roared toward her!

As the flying helicopter got closer and closer to her, her heart became extremely nervous.

At this time, the helicopter has come to the top of the boulder at the foot of the mountain.

Charlie suddenly said, "This is it! I can already feel her, she is seriously injured now!"

After that, he opened the door and planned to jump directly from the helicopter.

Maria subconsciously grabbed the corner of his clothes, and blurted out,

"My lord, since Jeremiah is seriously injured, why not wait for me to come with you!"

"I wanted to meet her for a while with you."

Seeing this, Charlie gave up the plan of jumping directly, and said,

"There are all trees below, and the helicopter can't land,"

"Why don't you go back to the area where the explosion bulldozed, and then we walk over together."

Maria nodded and then controlled the helicopter to turn around on the spot.

Jeremiah under the boulder couldn't help heaving a long sigh of relief,

When she saw the helicopter turn around and leave after reaching the top of her head.

But what she didn't know was that Maria had already landed the helicopter on the edge of the explosion range.

After the helicopter stopped, she said to Charlie, "Young master, I have received a report."

"She is one of the four great Earls, but she is devoted to Taoism and has not done many things that are harmful to nature."

"Today, Jermo blew himself up, and I felt that there must be something strange in it."

"If the young master can use this as a breakthrough point, maybe she can be taken for your own use."

Charlie nodded lightly, and said, "If there is something wrong with Jermo's self-explosion,"

"I am afraid that apart from the Lord, no one knows better than Jeremiah."

Then, the two jumped off the helicopter and walked toward the boulder where Jeremiah was hiding.

Jeremiah had just relaxed at this moment, and she wanted to take a short rest and quickly find a way to escape from this place,

But she didn't expect that soon, she heard the sound of rustling footsteps.

Her heart skipped a beat, and she couldn't help exclaiming secretly,

"Could it be that the people on the helicopter came over on foot just now?!"

Thinking of this, her heart that had just been let go immediately hung up again.

She is very clear that she is seriously injured right now,

No matter who the other party is, she has no ability to resist.

Right now, she can only pray silently in her heart,

Pray that the approaching footsteps will not come to her,

And pray that the owner of the footsteps will not find her.

However, her prayers didn't seem to have any effect.

The two people's footsteps were getting closer and closer,

And finally, they stood still less than ten meters away from the boulder.

At this time, Jeremiah was so nervous that she couldn't add anything.

She knew that as long as she was discovered by the other party, she would basically die,

And the other party would definitely do everything in order to pry out information about the Warriors Den.

And the Lord from her mouth with 1000 ways to torture her.

And the Warriors Den has repeatedly tried to kill An's family.

Once she falls into their hands, even if she cooperates obediently, it may not end well.

Therefore, the last sliver of luck in her heart right now is to hope that the other party will not find her.

Just when she was still harboring the last glimmer of fantasy, Charlie said loudly,

"Jeremiah, just now you peeked at me fighting with Jermo in the dark,

And now you are still hiding in the dark, isn't it unreasonable?"

Charlie's words sounded like a thunderbolt in Jeremiah's brain!

At this moment, multiple thoughts popped up in her mind,

"This person actually found me?!"

"This person... this person turned out to be Charlie who just fought with Jermo?!"

"But... How is this possible? I clearly saw that he was seriously injured in the explosion,"

"And even disappeared at an extremely fast speed, how could he survive?!"

"And, listening to his voice, it seems that he was not injured at all!"

Countless questions made Jeremiah's heart flutter, and at the same time, he became even more panicked.

Although she has mastered spiritual energy and is a master of masters,

She also feels helpless and afraid when the premonition of death fills her whole body.

At this moment, Charlie outside the boulder saw that she didn't respond, so he smiled slightly and said,

"Jeremiah, you have lost all your cultivation and are seriously injured."

"If no one helps you, you may not even be able to get out of this valley."

"It is impossible for your wise and mighty lord to rush over to save you in such a short time,"

“Instead of waiting to die here in despair, why don’t we sit down and have a good chat, what do you think?”

Charlie mentioned Lord, Jeremiah trembled uncontrollably.

Recalling the tragic situation of Jermo’s death, she felt both shocked and hatred in her heart,

And when she thought of the powerful self-destruction formation in her Niwan Palace,

She felt even more like a light on her back.

For her, she would rather kill herself in this quiet valley than go back to the Lord and continue to be her human bomb.

Moreover, she didn’t know how many trigger modes there were for the formation that the lord left in the Niwan Palace of the four earls.

Now it seems that using the so-called method of opening the Niwan Palace taught by the Lord is a proactive way to trigger it.
