I am a quadrillionaire chapter 2198-Just when the inexperienced Elf women thought they had met a good person and were about to thank Black Fox, Black Fox bared his fangs, knocked them out, and brought them all back to Sole.

After returning to Sole, Black Fox did not tell anyone but locked them all up quietly.

He was waiting for news from Wier.

The Elf women were already rare in Leila the real world, let alone here in The Spirit Cage.

Those who could enter The Spirit Cage were definitely not ordinary Elves.

So Black Fox was going to wait a little longer and then decide how to deal with the Elf women after the limelight passed.

It was not difficult to decide whether to sell them or enjoy them himself.

However, he ended up getting terrifying news.

Soleil Alten, the direct descendant of the Alten family in Wier, came across nine Elf women while he was out hunting and was immediately captivated. He was ready to catch them all and take them back for himself to enjoy.

However, due to the tenacious resistance of the Elf women, he only caught four. The other five escaped.

Black Fox knew he had caught the five escaped Elf women, and the reason he was terrified was as he expected.

These Elf women had extraordinary backgrounds.

Not only was it extraordinary, but it was also quite terrifying.

One of them was the only daughter of the current Elven Queen, An Elven Princess who would take her position soon.

The Elves were not strong, but only compared to other more powerful races.

However, an individual like Black Fox still could not afford to mess with a behemoth like the Elves.

Moreover, the Elves and Leila's top forces had very good friendships.

It would be horrible if the Elven Princess encountered an accident in The Spirit Cage and could not return.

Immediately, a large number of strong Elves came to The Spirit Cage to look for them.

Meanwhile, instead of hiding them, that idiot spendthrift Soleil showed off the four Elf women he captured in Wier's circle.

One could only imagine what happened to him.

The powerful Elves went to find Soleil, and even when the Alten family apologized humbly, they ignored them and killed that kid Soleil in front of his elders.

The Alten family was not weak in Wier.

However, they could only be regarded as a third-rate family in Leila.

They were still miles apart from the Elves.

Moreover, the Alten family also knew it was their fault as they almost captured the Elven Princess, so how would they have a good ending?

If it was just a few ordinary Elves, they could still argue with reason and take the initiative to compensate.

Of course, if it was just a few ordinary Elves, the Elven Queen would not be making such a big fuss over this.

They contributed a lot of women to Leila's major forces every year, so naturally, they would not be so bothered by a few ordinary Elf women.

They found four of the servants who followed the Elven Princess to The Spirit Cage, but the Elven Princess was still missing.

The powerful Elves continued their search.

Sole was far away from Wier, and there were two second-tier cities in between, so it would take the Elves some time to find this place.

However, Black Fox was scared!

He had the Elven Princess!

Even Soleil, the direct descendant of the Alten family in Wier, was killed. So, how would he escape if found?

That was why Black Fox thought of this idea.

That was to sell the Elven Princess and her four servants.

Then, he would change his identity. From then on, Black Fox would cease to exist in The Spirit Cage.

Anyway, no one at the underground trade fair knew his true identity.

Black Fox had always stayed mysterious.

Every time there was an underground fair, there would be dozens of people dressed like him.

Then, even if the Elves came to him, the buyers would be the ones to blame and he would be in the clear.

Hence, he hosted this temporary underground trade fair.

Since Wier was far away and Soleil's news was only being circulated in a small area, these forces in Sole had not received the news yet.

No one in the hall had any idea that what they were bidding for was going to be trouble that would prove fatal.

Once they bid for the women and the news gets out, they would likely be dead.

Even if they saw the danger in advance and left The Spirit Cage, the Elves could still find them in Leila based on the clues they left in Sole.
