

## Read I Am A Quadrillionaire Chapter 2209

I am a quadrillionaire chapter 2209-“Master David, from now on, we will be by your side and there is one more request. Please, Master David, promise me,” Evie said suddenly.

“What is it?”

“In the future, only the four of them can serve and entertain you, but I can't! I will do everything within my power for you, but you can't touch me.”

As she said that, Evie looked at David seriously.

She did not know what David was thinking.

It stood to reason that if someone bought her with so much money, he could have all of her.

Evie was powerless to resist.

Those Elf women who were sent out by the Elves all had such a fate.

However, as an Elven Princess, she could not lose her virginity.

Otherwise, she would not be able to become the next Elven Queen, and at the same time, she would disappoint her mother.

So, Evie hoped that David would not touch her.

As for the four servants who had been with her for many years, she would let them follow David in the future!

David was exceptional in all aspects.

Moreover, David was willing to let them go just now, which showed that he also had good character and they would not suffer if they followed David.

At first, David did not react.

It took him a while to figure out what Evie meant.

It was very simple, he could touch the other four Elf women, but he could not touch Evie.

David was speechless because he never thought about doing that.

If that was what he wanted, why would he say that he would let Evie and the others go?

He had not dealt with his problem with Selena, Pearl, and the others yet, so why would he bring the four Elves back with him? Wouldn't it be more chaotic?

However, David did not agree with Evie immediately, but asked curiously, "Why?"

"Because... Because..."

Evie hesitated for a long time. Finally, she gritted her teeth and said, "Because I am the Elven Princess so I can't lose my chastity and I must maintain a perfect body in order to become the next Elven Queen. And if you, Master David, use force against me, my mother won't spare you either."

Beanie on the side was stunned.

'The Elf woman in front of me is actually the Elven Princess?

'And she'll be the Elven Queen who will be in charge of the elves in the future?

'Master David is so lucky!

'This is the first time he came to Sole to participate in the underground fair and he bought the Elven Princess was caught by the bad guys.

'If he could get on good terms with Evie, he would soar to success when she becomes the Elven Queen in the future.'

The Elves were not only known in Leila for their women, they had got a lot of good stuff too.

For example, according to legend, the Water of Life flows from the Fountain of Youth in the Elves' ancestral land.

It could expel all evil, and no matter how seriously injured one was, they could still be brought back to life even if they were on their last breath.

It was comparable to magic.

'Wait!

'Just now, Master David said.

'He didn't plan to join in the bidding and only decided to buy the Elven Princess at the last second.

'He must have noticed something different about Evie during the process.

'No wonder he wants to let Evie and the others go the moment he bought them. Then, in the end, he purposely mentioned that Evie and the women would be recaptured if they leave alone.

'So that Evie will stay on her own.

'Master David is so good at playing hard to get.

'After Evie goes back, she will be very grateful to Master David. Then, she will repay David after she becomes the queen. After that, David's investment will bring him huge returns.'

After she understood all of this, Beanie looked at David with admiration in her eyes.
