

Chapter 5644

Charlie frowned and said, "Then what do you think?"

"What kind of people is this airplane carrying and where is it going?"

Maria said, "This, I do not dare to make any guesses."

After saying that, she spoke "No matter what kind of people this plane is carrying,"

"As long as their final destination is not Australia,"

"Then they will definitely apply for the next section of the route in advance before arriving in Australia,"

"The fastest way to fly to Australia from Buenos Aires is about twelve hours,"

"So where the most important place for this plane to go will be seen in about eight hours."

Charlie gently nodded and said, "It seems that we can only find out by waiting until tomorrow morning."

Maria smiled faintly, and said in relief, "Master don't have to worry too much,"

"With my understanding of Victoria, she will definitely not come back to Aurous Hill,"

"This plane might be carrying other people to other places to carry out other tasks."

Charlie gave a hmmm and spoke "It's useless to think too much now,"

"We'll see where this plane is going in eight hours,"

"If it's coming to Aurous Hill, I'll still have at least more than ten hours to prepare."

Maria nodded her head and said "At that time,"

"After there is the other party's next move, please inform me the first time."

"Okay!" Charlie simply agreed and said,

"Ms. Lin, it's getting late, I won't bother you too much here."

Maria immediately said, "Then, I will send you out."

Saying that she remembered something and said to Charlie,

"Oh yes, Master, wait for a moment."

Just after she finished speaking, she stood up and quickly ran up the stairs.

Soon, she came down with a piece of red cloth wrapped thing,

Handed that thing to Charlie, and said seriously,

"Master, this is the Thunder Strike Wood of the Mother of Pu Cha,"

"I have kept it with me for so many years, but I can only use it as a souvenir,"

“Earlier, Master said that there is a magic weapon that can lead down the heavenly thunder,”

“I think it should have been destroyed when Jermo blew himself up,”

“This piece of Thunder Strike Wood you can refine and use it for the magic weapon!”

Charlie looked at the thing in Maria’s hand and was surprised in his heart.

He had originally been thinking in his heart if he could ask Maria for this thunder-strike Wood of the Mother of Pu Cha.

After all, this was the tea tree that had once crossed the Heavenly Tribulation,

Not only was its own Dao profound but this thunder-strike Wood had also been struck by the Heavenly Thunder.

That had fallen from the Heavenly Tribulation,

So if it was used to refine the thunder-strike Command,

The power would definitely be much greater than his own thunder-strike Command from before!

It just so happens that now his magic weapon is gone, only left with the ring that Maria gave him,

Maria’s lightning strike wood came at the right time,

And it can solve his immediate needs.

So, he did not talk to Maria politely, very thankful said,

“Thank you, Miss Lin, this lightning strike wood can be real snow in the charcoal,”

“I’m currently in lack of materials to be able to refine magic weapon!”

Maria covered her mouth and laughed softly,

“Master, this lightning strike wood has indeed become charcoal, just sir don’t burn it.”

Charlie smiled and said, “That’s natural!”

“Tonight, I will go back and refine it properly, and make a new Thunder Striking Order!”

Maria nodded and handed the thunder-strike Wood into Charlie’s hands, saying seriously.<sup>4</sup>

“To be able to transform into a magic weapon in your hands,”

“This section of thunder-strike Wood is considered to have found its home.”

Charlie took the thunder-strike Wood in his hand,

And simply transferred a few points of aura into it,  
And he could immediately feel the surging qi that could not be described in words,  
As if he was in a primitive forest in spring, with infinite vitality right in front of him.  
He couldn't help but marvel "Sure enough, it is the mother of Pu Cha's thunder-strike wood ....."

"Just this section of thunder-strike wood, let a person feel unfathomable!"

Maria smiled faintly and said "It would be best if it is useful to Master,"

"It is not in vain that I have been running around with it for more than three hundred years."

Charlie gratefully said "Don't worry, Miss Lin,"

"I will not let down this Lightning Strike Wood,"

"I will definitely do my best to make it into an extraordinary magic weapon!"

Maria nodded and smiled, "That would be great!"
