

I'm A Quadrillionaire chapter 1331

Chapter 1331

“David, don’t worry. You will know what kind of force the Iridescent Sect is soon. I recruit all of them because I’m after their potential, and it’s all for the sake of the sect’s future development,” Celeste said calmly.

At the same time, she added in her heart, ‘It’s also because to tie a maniac like you and the Iridescent sect.’

Among the women, Celeste was only interested in Selena.

The rest of them only had the chance to join the Iridescent Sect because of David.

If not, Celeste would not be interested in Celia and her talent. There were too many people with the same level of talent as her.

Not everyone could join the Iridescent Sect.

A lot of women longed to join the Iridescent Sect every year.

However, there were only a few who were truly qualified.

“I hope so,” David answered.

He believed that there was no free lunch.

Celeste surely had another motive for doing this, but he just did not know what it was.

As he looked at Celia and the women’s excited faces, David did not want to continue being stubborn.

It would be fine as long as they were happy.

What he needed to do was to stay with them silently to be their safe harbor.

Selena was glad that Celeste could recruit Celia and the others.

Next, the sisters could stay together and not be apart from each other.

They had been living together for the past few years, so they were very close to each other

now.

“Thank you, Celeste!”

Celia stood up and bowed at Celeste to show her gratitude.

Then, Selena, Pearl, Sandy, Julia, and Amelia all stood up and bowed to Celeste.

“Thank

you, Celeste!”

“You don’t have to thank me. I also have my reasons. You can’t relax after you join the sect. You have to work hard. Eternal Realm is a huge obstacle, and so many people are stuck there. A lot of them even had higher potential than you all.”

“We know. No matter what, we still have to thank you for giving us this chance.”

“Alright, you should continue chatting. I’ll get going now. You should make the necessary preparations before leaving the Milky Way with me. You will only get into Eternal Realm if you leave this place to go to a higher civilization. Then, you will have an unlimited lifespan.”

After Celeste said that, she turned to leave, leaving the excited women.

David also displayed a smile.

No matter what Celeste’s purpose was, he would be owing her a huge favor if she could really help Celia and the women become Eternal.

“This is great, Dave! We all have a chance to be Eternal. That way, we can always stay together.”

After Celeste left, Sandy immediately came over and shrieked.

The other women also expressed their excitement through their expressions.

“You didn’t believe what I said, but you believe what Celeste said, right? However, she also said that you have to work hard once you join the sect,” David said with a grin.

“Of course! Don’t worry, David. We will all work hard if we have the chance. I’m just worried that God won’t even give us the chance. However, you have to come to visit us often.”

“Yes!”

The others nodded as well.

“Of course!”

David chatted with them for a while before they all left to go back to their rooms.

A lot of things happened this day.

Everyone was tense the entire time, so they must be exhausted.

When David was not around, Celia and the women would sleep in the same room.

Now that David was back, they would go back to their own rooms.

As David lay in his bed, he recalled what happened just now.

He had become Eternal and used his Golden Body to intimidate the Nine-Headed Serpent Clan from Beast Galaxy.

Plus, he even chopped off one of another Eternal's Golden Body's heads through the void using the Evil-Splitting Sword and Evil-Splitting Sword Technique.

Then, he tore open the space and rushed back to Earth to handle a few ants.

Afterward, Celeste and Amadi, two Universe Enforcers from a high-level civilization, arrived.

I'm A Quadrillionaire chapter 1332

Chapter 1332

One was from the Iridescent Sect while another was from the Star Mansion.

They should be very powerful forces, so needless to say, they must be very strong.

Those two were stronger than David.

Amadi was not that scary. Even if he was strong, there was a limit.

On the other hand, that woman Celeste was terrifying.

She might have already reached the last rank in Eternal Realm: Sovereign Rank.

That kind of woman was a rose with thorns.

She had such a strong charm, and she was so horrifyingly powerful.

David could not stop himself from recalling the scene of him and Celeste.

He still did not understand what had happened, but he figured it should be related to his mind power.

It would only be this realistic if it was due to his mind power.

He knew Celeste must know something but just did not tell him.

Anyway, David never thought about that with her.

Right now, he was not strong enough.

He could find out in the future when he was stronger.

David thought once he became Eternal and became the Master of the Milky Way, he could live a peaceful life in seclusion with Celia and the women.

However, something like this happened.

According to the development of things, the women could leave the Milky Way with Celeste soon to head to a higher civilization.

Even though David was the strongest person in the Milky Way, the Milky Way was a low-level civilization.

When he got to a high-level civilization, a beginner Ruler Rank in Eternal Realm would be nothing.

If he wanted to gain a foothold in a high-level civilization and had enough strength to protect himself and the women, he needed to depend on the system to continue spending money for lavish points. That way, he could increase his strength.

'Right! The system!'

David suddenly remembered a question.

When he got the system, he had a quadrillion Somerland Dollars. He could get a lavish point if he spent 100 million dollars.

After Pavan and his people came from the level 3 civilization, the system was upgraded and refreshed. The money went back to a quadrillion and it changed from Somerland Dollars to Galaxy Dollars.

Now, he had interacted with someone from a high-level civilization and would go to a high-level civilization.

According to what happened in the past, the system might get upgraded and refreshed again.

The money would go back to a quadrillion and the currency would also change.

The currency in a low-level civilization was not recognized by the high-level civilization.

Just like how Somerland Dollars were not recognized by the Royal Region.

David quickly opened the system panel.

Indeed, it was just as he expected.

The system's screen was black and there were a few words.

[The system is upgrading. Please wait.]

After the system finished upgrading, David knew where he would be going without Celeste telling him.

When David was wondering what a high-level civilization would look like...

Knock knock knock!

He heard a soft knock on the door.

David got up to open the door.

Then, he saw Celia's delicate small blushing face. She stood outside the door with her head lowered.

David was shocked by Celia's appearance initially. Then, he reacted and pulled Celia into the door before slamming the door shut.

I'm A Quadrillionaire chapter 1333

Chapter 1333

At this moment, Celeste was also using her full force to control her desires which were on the verge of losing control.

She was strong and had mind power, so she naturally had good perception.

How could David hide what he was doing from her?

She could barely control herself initially, but after David did that, she could not control herself anymore.

'That bastard David! Will he die if he doesn't have women?' Celeste cursed internally.

How would she know that it had been a year since the official lovers, David and Celia, saw each other?

They finally saw each other, so how would they miss this chance?

However, Celeste was suffering.

She had a special physique. Once she had a relationship with a man, the hidden desire in her heart would burst out completely.

Even though she did not have a physical sexual relationship with David, never touched each other, and only copulated via their mind power that was out of their control, this was enough to open the Pandora's Box in Celeste's body to release her most primal desire.

As Celeste sat in bed, her energy fluctuated.

Since she was a Sovereign Ranker at Eternal Realm, she could not lose control.

If not, even if David and Amadi worked together, they would not be able to stop her.

If that happened, the Earth would be destroyed.

Even the Milky Way would be affected.

David had no idea what he was doing now was dangerous.

Amadi was in his room, and with the help of his four maids, he used a secret technique to report what happened today to the Star Mansion.

Including how he could not see through David with the Star Observation Skill, and how Celeste was interested in taking Selena as her disciple but he did not understand what was so special about Selena.

Those two were unique.

Amadi could not see through one of them, but on the other hand, he could see through the other one but only the surface information.

Soon, Amadi received a reply from the Star Mansion.

They said he should risk everything to recruit David.

As for Celeste and Selena, he should just leave them be.

This was not because the Star Mansion did not care about Selena. If Selena could make Celeste have the urge to take a disciple, then she was not simple. However, since Celeste was around, the Star Mansion knew they would not have a chance.

Luckily, the Iridescent Sect did not accept men.

If not, the Star Mansion would not even have a chance with David.

With the Star Mansion's instruction, Amadi knew what he should *do* next.

It seemed that the mansion valued someone immune to the Star Observation Skill a lot.

They even asked Amadi to recruit David no matter what.

Amadi started wondering what he could do to make David agree to *join* the Star Mansion.

Judging from David's performance, he cared about this planet and the women a lot.

If Amadi wanted David to leave, he had to make sure Earth was safe and then start with the

women around him.

Once the women left, David would surely leave with them.

'I guess I should go pay Ms. Celeste a visit to get her to recruit the women into the Iridescent Sect.

'If this were the case, David would also follow.'

I'm A Quadrillionaire chapter 1334

Chapter 1334

Even though the women were not too talented, they were not weak.

If Amadi used the Star Mansion's name to bring this up to Celeste, it would be fine based on the Star Mansion and the Iridescent Sect's relationship.

'Alright, I'll do this.'

'I'll go take to Ms. Celeste tomorrow'

Then, he could use the name of the Universe Enforcer to give out an order to the galaxies surrounding the Milky Way not to step foot in the Milky Way. Then, that should be done.

Inside David's room.

After the excitement, Celia curled up against David's chest like a cat.

She was talking to David softly, remembering what happened during this year and also how much she missed David.

Of course, she also complained about Selena, Pearl, Sandy, and the others.

Celia wanted David to accept them.

She also said she would not mind and only wanted everyone to live together happily.

If another man heard his official girlfriend say this, he would be delighted.

However, David still could not get over himself. 1

He was a top student who was highly educated. So, he could not accept this ancient system.

Hence, he could only choose to avoid this topic.

Celeste wanted to tell David if he wanted everyone to die.

If she could not hold herself back, the desire from her alluring body would explode. When that happened, her energy would also explode uncontrollably.

Every living creature on Earth would then be affected.

However, in the end, Celeste held herself back.

After all, she was a Sovereign Ranker at Eternal Realm.

Someone at this level would intimidate everyone even at a high-level civilization.

If her alluring body was not that powerful, she would not be in such dire straits.

She figured she would lose sleep tonight.

Only Amadi and his four maids had a restful sleep.

Selena, Pearl, and the women got together. They knew Celia would go to see David tonight, and just as they expected, she did.

They also wanted to be intimate with David, but David never wanted to take that step and progress their relationship further even if his official girlfriend Celia had agreed.

He was still running away.

David was indeed too timid when it came to relationships.

He wanted to be loyal but he did not want to hurt others.

His attitude was the thing that created this complicated scene.

He only accepted Celia, but at the same time, he also moved countless women.

The women had even talked about it. Even if David would never accept them, they would still stay with David till the very end.

It was because after knowing David, they could never *be* interested in other men anymore.
