

I'm A Quadrillionaire chapter 1575

Chapter 1575

Marlee did not know what to do as she faced everyone's questions.

She could not make everyone angry.

However, she did not even know what was going on, so how should she explain it?

While Marlee was thinking of a solution, a few people suddenly came out from the black battleship in the distance and approached the merchant ship quickly.

"Miss! Miss! More people are coming from the opposite battleship!" A staff member shouted.

His voice immediately broke the silence of the scene.

Everyone's attention was also diverted, and they looked over.

They saw four space pirates rushing toward the merchant ship like four flashes.

When Marlee saw the four people quickly approaching the merchant ship, she knew they were not simple.

They should be four peak Infinity Rankers and their strength was the same as hers.

Once the defense of the merchant ship was broken, they would have no chance of winning at all.

If there were four peak Infinity Rankers, Marlee could only block one.

Beside herself, it was possible only Fraser, the late Infinity Ranker, was the only one in this ship who could survive a single blow.

The others were like ants in the face of the three Peak Infinity Rankers.

'Please block their attacks!'

Everyone on the merchant ship prayed silently.

As everyone watched in panic, the four space pirates at peak Infinity Rank crashed into the merchant ship at extreme speed.

Bang bang bang bang!

Four loud bangs echoed in everyone's ears.

However, the scene they imagined did not appear.

The merchant ship was still intact.

Marlee and others did not even feel the slightest shake and jolt.

The four space pirates at peak Infinity Rank had great confidence that they could break through the final defense of the merchant ship with one blow.

Then, they would take everything on board for themselves.

However, when they touched the ship, they immediately realized they were not attacking a merchant ship. This was obviously an unshakable military fortress.

When their attacks fell on the merchant ship, they were like ordinary people punching a mountain.

Not only did they not shake the mountain at all, but instead, their bodies also flew backward under the huge inertia, demonstrating to everyone how they would return to their ship.

The stronger their attack on the ship, the greater the force of the rebound.

In addition, David used a little trick secretly that caused all four of them to suffer serious injuries.

While they were flying back, everyone vomited blood.

That scene stunned everyone present.

Not only were Marlee and others stunned, even the three leading space pirates on the black battleship were shocked.

The four peak Infinity Rankers not only failed to break through the merchant ship's defense but were seriously injured instead. What was the reason for this?

I'm A Quadrillionaire chapter 1576

Chapter 1576

'What is this merchant ship in front of me?'

"H-How is this possible? Am I seeing things? The all-out blows of the four peak Infinity Rankers didn't even shake that damned ship at all, and they were also injured? Is that a

merchant ship or a mobile military fortress?" One of the three leading space pirates asked in disbelief.

"Come, let's go over together. I want to see how high this merchant ship's defense power is," Boss said with a gloomy face.

Inside the merchant ship, Marlee and others had recovered from the shock.

"M-Miss Jung! It must be so hard for you to hide this from us! You obviously have such a strong defense, but you haven't told us this whole time, making us suffer from great fear. I thought we were all going to die facing the full strength of the four peak Infinity Rankers!" A male mid-Infinity Ranker forced a smile.

"Right? Miss Jung, my little heart can't stand this kind of stimulation. No matter how much money you give me in the future, I won't come back," another added.

None of them wanted to be bound and liked their freedom.

They only decided to come on the Jung family's merchant ship to the Central Sacred Continent for the sake of money.

After all, cultivation required a lot of resources.

If they did not want to join other forces and be bound, they could only find a way to get resources themselves.

Great benefits were often accompanied by great dangers.

Everyone understood this.

However, when they had finally made up their mind and were prepared to fight to the death, all of a sudden, they had a glimmer of hope.

It was hard to switch their mentality.

If they encountered a desperate situation later, they might not be as decisive as the first time.

"Everyone, it's not that I didn't tell you. Even if I told you, would you have believed me? If I told you that this merchant ship has been specially modified by the Jung family to withstand the attack of the peak Infinity Ranker, would you have believed me?"

Marlee did not wait for everyone to answer before she continued, "Even the Jung family members wouldn't have believed me, let alone you guys. Since you won't believe me, why bother telling? Don't you understand? And this is not the time to talk about this. If

I'm not mistaken, the next stage will be the key point. The leader of this group of space pirates will make a move soon, and he should be a partial Eternal."

'The leader of this gang of space pirates is about to take action?'"

The hearts of those present tightened at the same time.

Although partial Eternal was not yet an Eternal, compared to peak Infinity Rankers, he was definitely much stronger.

According to the realm divisions, partial Eternals were no longer in Universe Realm.

They were in a transitional realm above Universe Realm but below Eternal Realm.

Even if there were ten peak Infinity Rankers, it was still impossible for them to be the opponent of one partial Eternal.

The two sides were no longer on the same level.

Sure enough, not long after Marlee finished speaking, a boorish middle-aged man stepped down from the black battleship.

He must be the leader of this group of space pirates.

After the boorish man descended, two more men came down immediately behind him.

The three men then stood together to face the merchant ship with murderous intent in their eyes.

When Marlee saw the three of them, her heart was full of bitterness.

The opponent's strength was much greater than she had imagined.

Originally, she thought that this group of space pirates only had one partial Eternal.

Unexpectedly, they had three.

How would they win?

One Eternal could annihilate all of them, let alone three.

Their only hope now was that the merchant ship's defense could continue its previous glory and block the attacks of the three partial Eternals.

As long as they could not get into the ship, Marlee and the others would be safe.

“You are very good, very good indeed! You should feel proud that you could get us three to come out to attack you. Unfortunately, I want to tell you that this is the end,” the boorish man in the lead said, staring at the merchant ship where Marlee was.

“You should only say those things after you successfully attack us. You’re just a group of scum with mothers who neglected you,” Marlee retorted directly.

Since the other party was their irreconcilable mortal enemy, she would not be polite in the slightest.

“Do you think I can’t do anything to you if you keep hiding in your shell? Although I don’t know you did, I want to tell you that the power of a partial Eternal is beyond your imagination.”

“You talk too much nonsense, you scum!”

“Heh...” The boorish man sneered.

“Attack!”
