I am a quadrillionaire chapter 2275-David was disrupted by Queen Isa's sudden arrow!

Fortunately, he was constantly paying attention to her and grabbed the arrow in time.

However, the huge force also pushed David backward and hit the high mountain peak, knocking it down.

David, who was embedded in the mountain, was in a rage.

This was the first time he suffered such a big loss since arriving at The Spirit Cage.

He had backed down repeatedly since the beginning and yet the other side kept pressing.

'Does she think I'm weak?

'Do you think you're the only one with a trump card?'

So, he decided to use all of his strength.

He vowed to give this unreasonable woman in front of him a lesson.

So what if she was a woman?

If she pushed him enough, he would also hit a woman.

With the sudden burst of strength, he directly frightened Queen Isa to freeze.

In a flash, David seized the opportunity, came to Queen Isa in an instant, and quickly stretched out his right hand to grab her neck.

However, at this time, David saw Queen Isa's face clearly.

'That delicate face and those pointed ears...

'Isn't that Evie?'

After a closer look, he felt something was off.

'She's a little different from Evie and she's obviously older than Evie.

'She looks more mature too.

'Yet, the two looked 70 to 80% similar.'

David was not a fool and he knew that the woman in front of him must have an unusual relationship with Evie.

When he thought of who Elven Princess Evie was and the fact that he bought Evie from the Sole underground fair, he knew that this woman was also an Elf and she was so similar to Evie.

Therefore, she had certainly come to find Evie.

So, David also stopped the hand that was about to grab the opponent's neck.

Although Evie was not Queen Isa's biological daughter, she was identified as the Elven Princess when she was just born and she had been raised by Queen Isa so far. Moreover, the two had eaten and lived together for so many years.

Not only that, but for Evie to accept the inheritance smoothly in the future, Elven Queen Isa needed to inject her genes into Evie every day when she was a baby. So that Evie could slowly integrate and adapt and the two will not repel each other when passing on the inheritance in the future. This was so that they could become a perfect fit.

The alternation of each generation of Elven Queens in the history of the Elves was done in this way.

Therefore, although the two were not biological mother and daughter, they were about 70% similar in appearance.

This was the result of gene fusion.

From a scientific point of view, Queen Isa and Evie had similar genes and should be sisters.

That was why Queen Isa was so angry when she knew that Evie might be captured by bad guys and assaulted, making her unable to accept the inheritance.

Evie was the successor she had cultivated after much effort.

Moreover, it was not easy to cultivate another.

Queen Isa was shocked by David's sudden outburst, and before she could recover, David approached and grabbed her.

She could not do anything against David's sudden attack.

It was too late to do anything now.

So, she could only watch David's hand approaching her neck and there was only one thought in her mind.

'Has David not used his full strength yet?

'Is this his full strength?

'This kid is not just a little genius, but a massive genius.' i Just as Queen Isa resigned to her fate, David stopped.
