I am a quadrillionaire chapter 2320-Those who survived would live in pain forever.

“Blue, I can understand you wanting to avenge Azul because he was indeed killed by me. If you had only attacked me, I might let you go, but since you dare to threaten me and all the people around me, I can’t let you and your family live. I will find time to visit them. Now, go and meet Azul in hell!”

“Don’t! No! David, please don’t kill me. The grandmasters of my family are also Ancestral Deities. You can’t kill me! You can’t kill me!”

After David finished speaking, the Divine Power in his body exploded despite Blue begging him for mercy.

With a terrified expression, Blue turned into ashes and disappeared.

Now that David had gained real strength, he had reached the terrifying partial Overlord Realm. So, killing a mere PreDeity was like crushing an ant.

The crowd stared blankly at David.

Blue, so arrogant just now saying that he wanted to crush the entire Star Kingdom, has died just like this?

Master David crushed him like an ant.

So now, he was truly dead.

Not even a trace was left.

Blue was someone who did not even care about the six Sacred Saints of Star Kingdom.

How strong was Master David that he was able to crush him to death like an ant?

No one knew.

They only felt that the figure of that young man in the distance was rising infinitely.

After Sid's publicity, David had become a national idol.

However, there was still a gap between him and Sid.

After all, no one had seen it with their own eyes.

Moreover, Sid had accumulated his reputation over a long period and no one could surpass him easily.

Therefore, David could only reap the admiration of young people.

In the minds of the older ones, Sid was the former Star Kingdom's number one and still occupied the most important position.

However, they had personally witnessed David's strength now.

His unrivaled aura of looking down on the world was even more deeply rooted in the hearts of the people.

Now, Sid, the number one in Star Kingdom and respected by countless, seemed vulnerable in front of David.

It could be inferred from this that Master David was many times stronger than the six Sacred Saints of Star Kingdom.

In the past, everyone just regarded David as an idol.

Yet, after Blue's incident, David had become their belief on the inside.

He was the guarantee that Star Kingdom would not be violated anymore in the universe.

Everyone believed that as long as David was around, no one could bully Star Kingdom. It did not matter if they were a level 8 or level 9 civilization.

Sid's accumulated prestige over countless years was overtaken by David and was now very far behind.

Of course, this was actually what Sid expected.

Sid was broad-minded and did not care about these false accolades. It was more important to him that Star Kingdom developed safely and attained stability.

On the ground, Nova could no longer think.

She saw everything that happened.

It turned out that what David said was true. He was not trying to comfort her but genuinely had that strength.

What Blue? What Deity? They were nothing but ants in front of him.

Since he could easily take care of Blue, it would mean that the Feather family was probably nothing to him.

Even when Blue died, he did not use his family's powerful background to threaten David.

Maybe it was because he realized that with David's strength, he would not be afraid of the Feather family at all.
