

Read I Am A Quadrillionaire Chapter 2453

I am a quadrillionaire chapter 2453-When he was in Star Kingdom, David told Alba to help him collect treasures that could replenish blood essence. However, the result was not ideal.

This made him feel that perhaps this thing did not exist in Star Kingdom, so he needed to go to level 9 civilization Leila to get it.

So, no matter what, David still had to go to Leila.

It was not for anything else. He just wanted to get treasures that could replenish the blood essence.

After he upgraded his strength and Cloning, David did not get up. Instead, he went into The Spirit Cage.

It had been more than a month since he went back.

That was where he obtained his lavish points, so even if he focused on the real world, he still had to visit occasionally.

When he opened his eyes again, David was back at his house in Amber City of The Spirit Cage.

It was still the same as when he left. He told outsiders that he was in seclusion, so no one would dare to disturb him.

Before he went to the door, he checked the small array he had set before he left. No one had touched it, which meant that no one came in.

Even though David knew no one would come to disturb him, he was still careful to take precautions.

After he walked out of his room, he contacted Beanie and Thor so that they would report their work to him. While they were at it, he would ask if they ran into any problems they could not solve.

The two got the news that David arrived, so they quickly put aside what they were doing and rushed back.

Once they entered the living room, they saw David sitting there leisurely.

“Master David!” Beanie and Thor quickly went over and greeted him.

“You’re here! Sit down!” David instructed.

The two were straightforward and sat at a random spot.

After knowing him for a long time, they knew Master David. If they were too courteous, he would be unhappy.

“How’s the work I handed to you while I was in seclusion?” David asked.

“Master David!” Beanie and Thor answered at the same time.

“Calm down, tell me one by one. Beanie, you go first.”

“Yes, Master David. After you went into seclusion, I traded with Captain Arian Longer of the Amber City law enforcement team as per your order. I bought 3000 villas at the best locations from him, and also a lot of valuable treasures. I bought everything at market price, just like you told me.

“However, for some reason, the price of the treasures had skyrocketed. Not just in Amber City, but in the rest of the main cities. The price of the treasures now is a little too high compared to the treasures we bought back then. Some of them are even more than ten times higher. If we buy them while they’re at their highest price, we’ll suffer a loss.”

“It’s fine! I don’t mind that. Just follow the market,” David said indifferently.

He did not want the treasures. He just wanted the lavish points that came with the treasures after he spent the money.

As long as he got the lavish points, the treasures were useless to him.

If Pebbles were here, he could let her eat them. Now that she was gone, they could just leave the treasures here. What if Pebbles came back in the future?

“What should we do with the treasures we bought?” Beanie asked.

“Let’s find a warehouse and put them there.”

“If we just put them there, we will suffer a loss after the market stabilizes. Plus, we’ll lose a lot of money.”

Beanie thought David needed the treasures so urgently because he had an emergency.

In the end, he told her to just store them

If she bought them at their highest price, wouldn't they make a loss if the price dropped to the original price?

Beanie did not understand why David was doing this.

When Pebbles was here, he bought the treasures for her.

Now that she was gone, why would he still need them?

Even if they were for Pebbles, it was unnecessary to buy them at the highest price, right?

"Beanie, don't think about the losses and gains. To me, only money spent is worthy of being called money. The ones with me are just a number. As long as I can buy things, it will be worthwhile no matter how much I spend," David said earnestly.

"Master David, I understand. I will listen to your instructions in the future and never question you again."

Frankly, Beanie did not understand what Master David said.
