

Mistaken Marriage, Unexpected Love

Chapter 130

Chapter 130 Being Threatened

Fidelia flashed a smile at Willie and asked, "You've been with Isaac for a long

time, right? That means you know what he likes to eat.

Can you tell me?" Willie felt a bit wary towards her

She called Isaac by his first name, as opposed to Mr.

Johnston

"Mr. Johnston is married to Miss Haynes, you know. Why are you asking me about his preferences?" he asked, his eyes slightly narrowing in

suspicion

Willie was a smart man. As soon as Fidelia asked him that question, he immediately knew what she was up to

So, when he spoke, he deliberately emphasized the words

"Mr. Johnston."

He tried reminding her that she was merely Isaac's employee and nothing more

Right now, her behavior was unsuitable to her status

Noticing this, Fidelia looked away and lowered her voice.

"I just..."

"You're here to work, so work hard," Willie cut her off with a stern voice. "You should behave yourself and don't do something stupid. Stop

coveting a married man!"

After saying that, he turned around and left

Once Fidelia was alone, the expression on her face changed. Her once innocent look transformed into a vicious facade as her eyes stared daggers at the back of Willie
What a meddlesome person!
He was just Isaac's assistant. How dare he tell her what to do?!

She clenched her fists in rage
Her desire to be Mrs. Johnston was fueled even further
She wanted so badly for Willie to address her respectfully and call her Madam

After walking out of the company, Willie drove straight to the Haynes Group

Meanwhile, Camila was seated inside the office while looking at piles of documents stacked on her desk. The very sight of it was enough to trigger her anxiety. She couldn't understand a lot of the terms on the files and had no idea how to start her work
There were many terms in these documents that she had never heard of before

She was completely lost and clueless. As she tried to figure out what she was supposed to do, someone knocked on her door. "Come in," she said

The secretary opened the door and said, "Madam, this gentleman wants to see you."

When Camila saw that it was Willie, she immediately stood up and said, "Let him in. You can leave us now. Thank you."

As Willie walked in, he glanced at the piles of documents on her desk. "You're just learning how to run a company. I'm sure there are a lot of things that you don't know."

"Yes," she said with a helpless sigh

"I can only help you for the time being. Later on, I'll send two reliable men to teach you how to manage the company," Willie said

"Thank you! That would be great," Camila replied. A weight had been lifted off her shoulder

"You should be thanking Mr. Johnston. He's the one who asked me to help you

After your father died, he asked me to investigate the Haynes Group. It turned out that your father had the foresight to fire those unreliable

workers. Even so, you've just taken office. The first thing you have to learn is how to keep your workers in check."

Willie walked to her desk

and picked up the documents

Camila lowered her head

As Isaac's right-hand man, Willie wouldn't have been able to come here

without Isaac's permission

Knowing this, she vowed to herself that she would return this favor to Isaac in the future

"Your company's business is pretty straightforward. I'll teach you how to untangle these affairs." He pulled a chair for himself and sat down

As he spoke, Camila tried her best to keep up with his pace and digest all the knowledge he was sharing

After a while, the skies outside had grown dark

"Thank you for your help," Camila said with a grateful smile. "I'll treat you to dinner."

Hearing this, Willie's face lit up. "Okay!"

So, the two of them walked out of the company together.

"Here, take my car," Willie said as he pressed the unlock button of his keys

All of a sudden, a car stopped on the side of the road.

"Hello, Madam," Stevie said as he got out of the car

As soon as Camila saw him, her heart began to race. She quickly turned to Willie and said, "I'll treat you to dinner next time. Stevie might

have something important to tell me."

Willie nodded, got into the car, and drove away

"Miss Haynes, have you not made any progress in what Mr. Johnston had asked you to do? I heard that you went to the company to see

Isaac today." It seemed that after Willie had left, Stevie completely changed the way he addressed Camila

"I didn't look for Isaac. I went there because of Willie," she answered

"It doesn't matter why you went there. My point is that you haven't completed what Mr. Johnston had asked you to do!" Stevie scolded. A

small frown was forming on his face. "If you can't do it properly, then Mr. Johnston will do it himself. All you have to do is help me lure Isaac somewhere. After that, you can go home."

"And where do you want me to lure him to?" she asked

"Inside Ronton Hotel, at the presidential suite on the top floor," Stevie answered

When she heard this, she almost gasped in disbelief. Did Robin want Isaac to have sex with Fidelia?

Noticing her hesitation, Stevie asked, "What? You don't want to?"

Of course she didn't. She didn't want to send the man she liked to another woman's bed

"Have you already forgotten what you've promised to Mr. Johnston?" Stevie reminded her. Then, he seemed to have remembered

something else and added, "Mr. Johnston has finalized your divorce. You can't blame him because you're the one betraying his trust first.

Now, I hope you've become more sensible and don't break your promise again."

Hearing this, a shock expression crept up Camila's face Since Robin was a powerful man, he could get anything done as long as he wanted it

When Isaac refused to marry her back then, it was Robin who made them marry each other officially

Now that Isaac was unwilling to grant her a divorce, Robin could do the same and get them divorced without getting their consent

It was really true what they said: money and power were the solution to all of life's problems

"I see." Camila knew that she had broken her promise first

"This time around, Robin is hoping that you'd be more obedient—"

Camila's phone rang before Stevie could finish his words As soon as she answered the phone, she heard someone crying on the other end of the line. "Mila! Something bad happened! Someone

took away Joe!" "What?!" In an instant, Camila's face turned pale. "Who took him?!"

All of a sudden, Camila realized something. She slowly turned to Stevie and

asked, "Are you the one who did this?"

"Mr. Johnston wants you to be obedient, so we'll be helping you take care of your child for a few days," Stevie answered emotionlessly

Camila turned her attention back to her phone. "Mom, don't worry. I'll handle this," she said in an assuring tone
As soon as Camila hung up the phone, she gnashed her teeth and growled at Stevie. "I said I would do it. Give me back my child!"

"If you do what we ask you to do, then your child will be back safe with you

But if you don't comply, then don't blame us if something bad happens to him!" Stevie threatened. @

"Where's Robin? Let me talk to him myself! Why did he take away my child? He's still so young! I swear, if anything happens to him, I'll make sure you pay for it, even if it costs my life!"

Stevie stared her down. The look on his eyes was cold-blooded. "If you don't want anything to happen to your child, then just do what you're told!"

Camila wanted to say something else but held her tongue on second thought

She realized that even if she went to quarrel with Robin, he wouldn't return her child to her

The reason why he took her child away was because he wanted her to complete the task

Thus, even if she didn't want to, she had no choice but to do it!

"After I lead Isaac there, will you give me my child back?" Camila asked

"You must make them have sex," Stevie answered frankly.
@

Camila scoffed and shot him a look of disbelief. "Do you want me to strip the two of them naked and tie them together? Even if they're bound together, do you really think that they'll have sex? Isn't this too much to ask?"

"You're a doctor. You should know a medicine that can make a man erect. If you let Isaac take it, the rest will happen naturally, right? For the sake of your child, I think you'll do an excellent job."

Camila couldn't believe how heartless he sounded
"I'll go back and wait for your good news," Stevie said.

After that, he got into his car and drove away

Standing alone on the side of the road, Camila stared blankly in the distance as her mind wandered far away

A strong gust of wind blew and ruffled her hair

She stood there for so long that her legs started to grow numb. After a while, she hailed a taxi and returned to the villa

When she got there, Isaac had not yet returned. So, she went to the company to look for him

It turned out that Isaac was having a video meeting with the person in charge of the branch company abroad.

When he heard from Wynter

that Camila was here, he quickly ended the meeting and said to Wynter, "Let her in."
