I am a quadrillionaire chapter 2493-“Wow, Arian, you’re getting brave! It won’t be good for anyone if this blows up, huh? Come, tell me, how is it not good for me? Aside from the Birch and Vidales family, who in Amber City will dare to go against my family? Don’t tell me those two families are behind Jumbo Court,” Perry said in disdain.

Before he took action, he had looked up Jumbo Court’s background.

It was just an outsider.

So who were they to wear him out?

“Perry, as the saying goes, ‘if you play with fire, you will eventually get burned.’ You’re used to behaving so arrogantly and one day you will surely suffer defeat. Just wait and see if you don’t believe me.”

“Arian, it’s none of your business whether I suffer defeat or not. If you’re smart, you will know not to stick your nose in my business. If not, when it’s my family’s turn to govern Amber City next term, your days as the captain of the law enforcement team will come to an end,” Perry threatened.

“My position as the captain is not decided by just your family alone. I am going to stick my nose into this no matter what.” Arian was not scared at all.

“Arian, it seems like you’re determined to be my enemy, huh?”

“I’m just maintaining the order of Amber City. This is my duty as the captain of the Amber City law enforcement team.”

“Hahaha!”

Arian laughed.

He stopped and looked at Arian with cold eyes. “Good. Very good. Great! Arian, you got balls. I will definitely raid Jumbo Court today. I’d like to see who dares to stop me.”

He had not liked Arian for a while.

He was stopped by the law enforcement team back when he first came to Amber City and was committing outrages.

At that time, Perry demanded an explanation from Arian. He wanted Arian to let him deal with the team that arrested him, but Arian rejected him sternly.

Perry kept this in his mind the entire time. He figured that he would get back to Arian one day with both principal and interest.

Today was his chance.

Back then, Perry would not have gone against Arian in front of so many people.

Even though he was a hedonist, he was not stupid.

After all, Arian was the captain of the Amber City law enforcement team and his status was evident.

It would not benefit him to offend Arian completely.

However, Perry would not back down this time.

Not long ago, he received an order from the family to leave The Spirit Cage so he went back to Leila.

He was forced to attend an arranged marriage.

He was not bothered that it was an arranged marriage, but he could not even bear to look at the bride.

She was a 250 to 300 kg fat woman.

Her face was very fat and she would eat the entire day.

When Perry met her for the first time, he almost threw up.

Of course, he refused strongly and contended on strong grounds.

However, the seniors of his family had made up their minds so how could a direct descendant like him, who was not valued, say no?

The two forces wanted this marriage.

They did not care whether the two people involved in the marriage agreed or not.

To put it bluntly, this was about the cooperation between the two forces, so they had to agree even if they did not want to.

This was the sorrow of being born into a big family.

If Perry was talented enough and was worth cultivating, he would not end up like this.

Even if he had to attend an arranged marriage, they could find him a partner who was decent in all aspects.

Unfortunately, Perry was just a hedonist.

The only thing he could use was his identity.

To a hedonist who had a lot of experience in dating and would always be surrounded by beautiful women, Perry would never accept sleeping with a woman like that, let alone being married or having children.

In the end, his family grounded him and he could not come out before he got over this.

He was in a dark room that was only a few square meters and he would have to eat, drink, sleep, and take care of his business there.

After enduring a week, Perry could not take it anymore. So eventually, he chose to compromise and say yes to the marriage.

He understood that as long as he did not agree, he would have to stay there his entire life.

Perhaps the seniors of the family also had a guilty conscience over what they did to Perry, so they gave him a lot of special privileges.

After getting his privileges, Perry could not wait to enjoy himself.

Yet, his 250 to 300 kg fiancée found him and could not bear to be separated from him.
