At the flower shop outside the airport of Salem, Liam bought a bunch of flowers and took out a ring box from his pocket. A simple and exquisite ring lay in wait inside the box.

The ring belonged to his mother. He rarely took it out because it usually depressed him.

Sergio kept to himself what happened to Liam's parents. Liam really wanted to know what happened to his parents, but he knew that his grandfather must have a reason to not tell him.

Sergio kept to himself what happened to Liam's parents. Liam really wanted to know what happened to his parents, but he knew that his grandfather must have a reason to not tell him.

So, with time, Liam learned to control his emotions and just kept them all bottled up. Today, Liam finally took out the ring to propose to Julie.

A lot of bad things had happened to them recently, and Liam hoped that this wedding would give Julie some joy. After that, they would move together to Invone and start a new life.

It was about an hour's drive from the airport to the Central Hospital, but Liam made it in half the time.

As soon as he got off the car in front of the hospital, his heart started racing. Something was wrong.

Where were the security guards?

Before he left for Invone, Liam strengthened the security of the hospital,

specially selecting the guards that would make sure Julie was safe.

So, where were they? He couldn't find a single person.

Liam didn't think the men of the Dark Night Organization would be so careless. Their absence only meant one thing.

Liam lunged forward and rushed upstairs, straight to Julie's ward.

It was empty... Just like it was downstairs.

Liam felt light-headed. There was blood on the floor and on the bedsheet. In a daze, he ran to the emergency room.

Ulises was being pushed out of the emergency room when Liam got there.

The old man's face was pale, and his body was stiff. There was no sign of life in him.

Liam was on the verge of a breakdown. He grabbed the nurse that was pushing Ulises' corpse. "What... What happened? What the hell is going on?"

Before the nurse could answer, several

wheeled stretchers were pushed out of the open door of the emergency room.

The dead bodies of the members of the Dark Night Organization lay on the stretchers.

Liam felt like he was going to have a panic attack as all the bodies were wheeled into the morgue. He ran into the emergency room to look for Julie.

She couldn't be dead... She couldn't be...

Liam scanned the whole emergency room and only found one lucid person... Riel.

"What happened?" Liam asked breathlessly.

Riel was mortified. He could die of shame. He explained with guilt, "It was Black Fiend. We were no match for him. We fought with all our might, but Julie and her assistant were still kidnapped."

Liam couldn't even bring himself to say a word.

In a daze, he walked out of the emergency room and walked back to Julie's ward.

Standing in the empty ward, he could still feel Julie's breath.

He could imagine the scene of how she was dragged away. He saw every step of it in his mind.

Liam felt powerless and helpless. The anger he felt was overwhelming.

When he thought of the future he had pictured on the plane earlier, his heart broke. Black Fiend had stolen his dream.

"Black Fiend! Black Fiend!"

Liam kept repeating this name. He recalled Cannon's lust for Julie and knew what this was about.

Black Spider!

Liam looked towards the south with cold dark eyes. The stronghold of the Black Spider, the delta region, was there.

This time, he must wipe out Black Spider once and for good.

Destroying the Norris family was the start of a war!

He wouldn't do things halfway. No mercy! Now that the members of the Duncan family had decided to butt in, he would destroy them.
