### Chapter 1886

"My strength is indeed not as good as Uncle Bai, but it is enough to deal with you." Dustin said.

"Deal with me? Do you have the ability?" Ji Yuanzun sneered.

According to his information, Dustin had just entered the Grand Master position not long ago. Even with some special methods, the peak of his strength was only in the middle stage of the Grand Master.

And he is already close to Dzogchen.

The gap between the two sides is nearly two levels.

And these two levels are like a gap.

No matter how talented Dustin is, he can't surpass it.

"If you have the ability, you will know if you try it?"

Dustin raised his sword finger, and the Sky Sword behind him was unsheathed and fell firmly into his hand.

"Okay! Since you are so confident, I will give you a chance to challenge me today!"

Ji Yuanzun stretched out his hand and a fiery red spear appeared out of thin air.

This spear is surprisingly a relic of Li Yuanwu, the Mountaintian Red Flame Spear that ranks third on the list of divine weapons!

"None of you are allowed to interfere. Today, I will use my absolute strength to completely defeat this Kirin that everyone is touting!"

Ji Yuanzun swung his spear, and his whole body's momentum surged.

A red light soared from his body into the sky, causing continuous thunder above the clouds, and a violent wind raging in the sky.

All the flowers, plants and trees within a radius of several hundred meters were bowing their heads.

This momentum, invisibly, caused strange phenomena in the world.

"Huh?"

Feeling the terrifying aura on Ji Yuanzun's body, Dustin couldn't help but frown slightly and his expression became serious.

In the realm of martial arts, he has always been smooth sailing and invincible, and has rarely encountered truly powerful enemies.

For the first time, he felt unprecedented pressure on Ji Yuanzun.

Today's battle is destined not to be easy.

"Dustin! Come on, let me see your strength!"

Ji Yuanzun stretched out one hand and hooked it provocatively, as if he was coming with a horse.

"Huh!"

Dustin didn't talk nonsense. He stepped forward suddenly, his whole body turned into a light and shadow, and he rushed forward.

The Sky Sword in his hand erupted into bursts of black light, sending chills all over.

"Smoke in the Desert!"

Faced with Dustin's attack, Ji Yuanzun did not dodge. He moved his spear forward, and countless sharp spear lights burst out in an instant.

These spears were like cannonballs, carrying terrifying power and attacking Dustin overwhelmingly.

Wherever the gun light passed, the grass and trees exploded, the ground flew up, and it was destroyed all the way, it was unstoppable.

Dustin's eyes narrowed, and the Sky Sword suddenly swung, creating a dense layer of sword light in front of him.

The sword light intertwined into a web and collided with Ji Yuanzun's spear light.

"Bang, bang, bang..."

Along with a loud noise, the sword light and the spear light exploded one after another, and the light and shadow spread all over the sky, which was dazzling and extremely deadly.

The violent energy wave began to spread rapidly like a tidal wave, destroying everything around it.

On the ground, potholes exploded one after another, leaving a mess all over the ground.

The next second, Dustin's figure ejected from the center of the explosion

. After landing, he took several steps back. Every step he took would leave a deep footprint on the ground.

On the other hand, Ji Yuanzun in front looked as if nothing had happened, not moving at all.

In the first head-to-head confrontation between the two sides, Dustin was clearly at a disadvantage.
