

# An Understated Dominance By Marina Vittori

## Chapter 1932

"Ten deaths and no life? Is it really that dangerous?" Kevin Snow's eyelids twitched.

Alexis Walters is a genius disciple of the Five Elements Sect, and his strength is not much worse than him.

To be able to make the other party say such words, it seems that the monsters in the oasis are really extraordinary.

"It's not that I want to scare you, but it's really scary inside. Several of my brothers and sisters were all eaten by monsters. If I hadn't run fast and had good luck, I would have died long ago." Alexis Walters had a look of pain on his face.

He watched his brothers and sisters being killed, but was unable to do anything. This feeling was really uncomfortable.

"It seems that this mission is very dangerous!" Kevin Snow showed a thoughtful expression.

Although the Five Elements Sect is not a sect in the Southwest, its power is no weaker than that of the Golden Knife Sect.

The elite disciples sent out on this expedition were almost wiped out, which proved that the oasis was extremely dangerous.

With his current strength, it will probably be difficult to deal with it, and he will have to ask the masters of the sect to take action.

"As the saying goes, risks and opportunities coexist. If you want to get the treasure, you have to risk your life. How can there be any good things like pie in the sky? If any of you are afraid, you can withdraw on your own. I will never stop you." Billy Ruso said coldly.

As a martial arts master, his strong strength is the best confidence.

No matter what kind of monster it is, it is not worth mentioning in his eyes.

"Senior Ruso, since we dare to come to the Desert of Death, we must be aware of it accordingly. We are not afraid of death, but we do not want to die in vain. If it is as Alexis Walters said, the oasis is very dangerous, I think we should ask more. Some helpers, just in case." Kevin Snow suggested.

"I don't care what you do. Once we enter the oasis, we'll all have to split up." Billy Ruso said expressionlessly.

In his eyes, most of the people present were a burden.

But now, these burdens still have value.

"Alexis Walters, I have another question."

At this time, Margaret suddenly asked: "Did you find anything special in that oasis? For example, the spiritual energy is particularly strong? The vegetation is particularly lush?" The reason why she asked this was because the energy of the dragon source could be inhaled. The essence of the sun and moon gathers the aura of heaven and earth.

Wherever the Dragon Source energy is located, the spiritual energy will be particularly strong, and all kinds of flowers, plants and trees, including insects, fish, birds and beasts, will also undergo varying degrees of mutation.

"You reminded me of this question."

Alexis Walters nodded and replied: "The spiritual energy in that oasis is indeed very rich and strange. Cultivating in it can be said to be a rapid progress. If it were not too dangerous, I would. I can't bear to leave."

With his talent, as long as he stays there for a year and a half, he will definitely be able to break through to the realm of Grandmaster.

It's a pity that he doesn't have the courage and strength.

"According to that, what I want should be inside." Margaret murmured to herself.

She was just suspicious before, but now, she is basically certain that there must be a dragon source energy hidden in this oasis.

"I've said everything that needs to be said. Regardless of whether you listen or not, I still want to advise you, don't go in."

Alexis Walters said solemnly: "Life is better than anything else. There is no need to spend money in vain for some external things. I ruined my life."

"Thank you for reminding me, we have our own sense of proportion."

Margaret smiled slightly: "In addition, I have notified your master, they will take you back tomorrow, you can rest here to recover."

"Thank you all." Alexis Walters clasped his fists.

"Hey, boy, our team just needs a leader. You have gone in before, why don't you take us in again? As long as the treasure is found, you will have a share!" Billy Ruso said coldly.

"Senior Ruso, I managed to escape with great difficulty. I really don't want to put myself in danger. Please forgive me, senior." Alexis Walters looked bitter.
