An Understated Dominance by Marina Chapter 1989

“That’s right! Kill it quickly!”

After some shouting, all the forces formed a brief alliance, and all the innate masters mobilized to kill the mutated tiger together.

Although the mutated tiger is powerful, it can’t stand up to a large number of people, and those who attack are all innate warriors.

After being besieged, wounds appeared on his body.

It’s just that compared to that huge body, some wounds that are neither deep nor shallow will pose no threat in a short period of time.

While everyone was fighting with tigers and wolves.

Above the sky, a huge strange bird was swooping down silently.

This giant strange bird is completely black, with feathers like knives and claws like steel. Under the moonlight, it emits bursts of cold light.

“Huh?”

Dustin seemed to notice something, and suddenly raised his head, only to see a giant strange bird just passing overhead, like a small passenger plane, rushing into the crowd at lightning speed.

This giant strange bird, Dustin had seen before, was the apex predator that captured the yellow python last night.

The speed of the giant strange bird swooping down has exceeded the speed of sound.

In the blink of an eye, they have reached the center of the battlefield.

Its sharp and barbed claws easily pierced the chests of the two warriors and grabbed them.

Then he flapped his wings, like a dragonfly touching water, and soared into the sky again.

The whole process happened so fast that people around him couldn't react at all.

They felt as if the black shadow in front of their eyes flashed, and their companion had disappeared.

What followed was a hurricane that fluttered its wings, causing people to stagger and lose their balance.

"Another monster is here!" Margaret's pupils shrank.

With her eyesight, she could naturally see that the strength of that giant strange bird was equivalent to that of a human martial arts master.

"Margaret, we can't delay any longer. Find an opportunity to go into the palace and have a look. Otherwise, if this continues, there will be more and more monsters." Dustin, who had been watching the changes, finally spoke.

No one knows what dangerous creatures are hiding in this oasis.

He can still handle these things in front of him.

But if something more powerful appears again, it's hard to say.

After all, the creatures here cannot be inferred using common sense at all.

Margaret glanced at the giant strange bird hovering in the sky, and finally nodded.

It is now night, and the movement here is bound to alarm a large number of monsters.

If you wait any longer, it will only become more and more troublesome.

"Enter the palace!"

Margaret gave the order and immediately led his escort team to rush towards the palace gate.

“Kevin Snow! Follow quickly!”

Lily Zhang’s eyelids twitched, and she quickly followed Kevin Snow.

“Finally you can’t hold it any longer? Then let you explore the way first.”

Billy Ruso twitched the corner of his mouth and followed slowly.

“Damn! Want to steal the chicken? Stop them immediately!”

The addition of Margaret’s team immediately aroused the vigilance of the surrounding forces.

Some of them even gave up fighting the monsters and attacked Margaret’s team instead.
