

Read I am a quadrillionaire chapter 2883

I am a quadrillionaire chapter 2883-With David's cautious character, he would not take risks himself.

If something went wrong, it would be too late for regrets.

Wouldn't it be better to use a clone?

He could summon another if it got injured or died.

Moreover, it could also self-detonate to injure the enemy at critical moments.

So, right after the battle, he quietly summoned a clone.

The one holding the Evil-Splitting Sword was just a clone.

Meanwhile, his main form was watching this with the other Almighties.

When Blaze and others heard David ask them to watch the show, they did not ask any questions and stared at the battlefield curiously.

They wondered, 'Did this kid really just become an Almighty?'

'Moreover, that sword is not simple. It can actually restrain Sky Demons.' David's clone was facing the siege of countless Sky Demons and two Super Sky Demons. Then, he found the right moment and threw the Evil-Splitting Sword in his hand at one of the Sky Demons.

When the Sky Demon saw the Evil-Splitting Sword coming his way, he shook with fright.

They had already seen the power of the Evil-Splitting Sword, as evidenced by the dozens of Sky Demon corpses on the ground and the injuries of the two Super Sky Demons.

Once they got into contact with the sword, they would either die or be injured.

He wanted to escape, but the Evil-Splitting Sword was too fast, and it instantly pierced its body and came out of his back.

After it penetrated the Sky Demon's heart, a mysterious force surged inside him, preventing him from recovering while destroying his body. The Sky Demon who was stabbed by the Evil-Splitting Sword felt weak before his body collapsed involuntarily.

When one of the Sky Demons was seriously injured, the other Sky Demons were delighted because David's most threatening Evil-Splitting Sword was gone.

They would not be afraid of this human being now that he had lost his Evil Splitting Sword.

One by one, the Sky Demons tightened their encirclement and wanted to tear David into pieces.

The two Super Sky Demons had long wanted revenge, but due to the power of the Evil-Splitting Sword, they dared not get close.

Now that David did not have the Evil-Splitting Sword in his hands, they began to get closer to him.

Little did they know that there was a bigger trap waiting for them.

"Everyone, let's step back a little. I'll show you a firework show, and then I'll give you a big gift. I believe you will like it." David smiled slightly.

"Let's listen to David and retreat!" Blaze ordered.

All the powerful Almighties quickly retreated to a safe distance.

Boom!

Then, they heard a deafening noise. So, all of them covered their ears and stared blankly at the scene in front of them.

They saw an extremely terrifying explosion in the center of the battlefield.

All the Sky Demons were blown to pieces in this big explosion.

Even the two Super Sky Demons were no exception.

A powerful shockwave swept over them. Even though they were far away, the Almighties were knocked back although they resisted it with all their strength.

If they were not in the extraterritorial battlefield but in the outside world, this explosion alone could destroy a level 9 civilization, and even the surrounding civilizations would be affected.

An Almighty's self-detonation was no joke.

Besides, David was not just any ordinary Almighty.

What was that?

Blaze and the others were stunned.

Since the Metaverse was sealed, the Sky Demons had launched countless attacks. If they wanted to kill these extraterrestrial Sky Demons, they had to exchange their lives with theirs.
