

An Understated Dominance by Marina Vittori Chapter 2014

Chapter 2002

“Huh?”

Looking at the broken bronze door, everyone present was frightened.

Everyone was stunned, with expressions of disbelief on their faces.

They never dreamed that the bronze door, which was indestructible just now and could not be damaged by bombs, would actually be blown apart by Dustin’s punch.

There were no unnecessary movements, no earth-shattering power, just such an ordinary punch, and the bronze door exploded on the spot.

Simply unbelievable.

“This...how is this possible?!”

Leo Alexander’s eyes widened, with indescribable shock on his face.

You know, dozens of people took turns smashing it with weapons and bombing it with explosives, but the bronze door still remained intact.

And Dustin broke through this impenetrable defense with just one punch.

It’s so appalling!

“Oh my God! What kind of monster is this guy?!”

The short-haired woman covered her mouth in surprise, her eyes almost falling out.

She was just mocking Dustin for not knowing his own abilities, but she didn’t expect to be slapped in the face in an instant.

Is this the power of a martial arts master?

It was simply beyond her imagination.

“Damn it! It exploded with just one punch? Isn’t that too ridiculous?”

Kevin Snow was stunned and exclaimed.

Previously, Dustin killed the black dragon with one sword. Although it was very scary, in his opinion, the other party borrowed the sharpness of the sword.

With the increase in magical weapons and the strength of the martial arts master, he was able to chop off the black dragon’s head with one sword.

However, just now, Dustin did not use a sword, but used his fist to blast open the indestructible bronze door.

This terrifying explosive power is really frightening.

“Senior Brother Dustin is mighty!”

After a brief moment of astonishment, Lily Zhang jumped up, looking like he was jumping for joy.

Invisibly, she had assumed the role of Dustin’s relatives and friends.

“First he killed the black dragon with one sword, and then broke open the bronze door with one punch. Mr. Dustin is really powerful!”

At this moment, everyone was impressed by Dustin’s strength again.

If killing the black dragon was due to the sword, then now it is truly powerful.

“Captain Leo, it seems that your method is not as effective as my punch.”

Dustin turned around and smiled faintly.

All traps and traps are useless in the face of absolute power.

“Ah...”

Leo Alexander’s face froze and his expression was very embarrassing.

He originally thought that Dustin would use some trick to open the mechanism, but he didn't expect that the other party would just blast it away with his fist.

One force can bring down ten.

"Captain Leo, didn't you just say that Senior Brother Dustin opened the bronze door and you crashed to death here? What should you say now?" Lily Zhang said jokingly.

"..."

Leo Alexander's eyes twitched, his face turned the color of pig liver, and he didn't dare to speak.

Thinking of the arrogance he had said before, he wished he could find a hole in the ground and crawl into it.

It was so embarrassing.

"Okay, don't say a few words. The door has been opened. Let's go in and take a look first."

Margaret smoothed things over, then led a group of people and walked in first.

The others didn't say much, and after looking at Leo Alexander meaningfully, they also walked through the door.

Behind the bronze door is a secret room.

The secret room is very large, the layout is very simple, and it is completely empty inside.

Apart from some murals, only an altar in the center remains.

The altar is circular, about ten meters in diameter, with a bronze coffin placed on the left and right sides.

In front of the bronze coffin, there is a special pool.

The pool is not big, only three meters in diameter. It is filled with milky white liquid. Take a gentle breath and it has a faint fragrance.

“What is this place? It looks weird.”

“It seems to be a hidden tomb, but it is too simple. There are no treasures.” “

Is it possible that all the treasures are hidden in the coffin?”

Everyone looked around. After scanning around, his eyes quickly settled on the two bronze coffins on the altar.

The entire tomb was empty, with only two coffins and a pool filled with milky white liquid.

Other than that, there’s nothing else that stands out.

And normally speaking, precious funerary objects will be placed in the coffin.

So they are looking forward to it. What treasure is hidden in the bronze coffin?

“You’d better be careful and don’t trigger any mechanism.” Margaret warned in a timely manner.

Although they had a smooth journey after entering, it did not mean that they were absolutely safe.

Especially this tomb chamber, the layout is too simple, so simple that it makes people suspicious.

“Try it first.”

The crowd did not step forward directly, but tried around by throwing stones.

After confirming that there was no trap, he breathed a sigh of relief.

“You guys, open the coffin and take a look, be careful.”

Margaret gestured to several guards to come forward and open the coffin.

The only places in the entire tomb that can hide treasures are these two bronze coffins.

If the dragon source energy is really here, then it is probably hidden in the coffin.

“Yes!”

the guards responded, cautiously approaching the bronze coffin, and then slowly pushed open the coffin lid.

When the coffin lid was opened, all kinds of jewels and gems were quickly reflected inside after being illuminated by the firelight.

Colorful and dazzling.

“Damn it! Such a big luminous pearl!”

“This top-quality Hetian jade is bigger than my face. How much will it cost?”

“It’s developed! It’s full of priceless treasures!”

The guards who opened the coffin looked at the rare treasures in the coffin, and they were all surprised and excited.

He even ignored the two mummies lying inside.

These two mummies are one male and one female.

The woman is wearing a phoenix crown and a harem, and is graceful and noble. The man is wearing a golden suit and an imperial crown.

Judging from their attire, these two people should be the king and queen of Zhongli Kingdom a thousand years ago.

“Huh?”

Margaret stepped forward and took a look, and couldn’t help but raise his eyebrows.

There were indeed many rare treasures hidden in the two coffins, but she was not happy at all.

Because the dragon source energy she was looking for was not in the bronze coffin.

how so?

Could it be that she guessed wrong?
