

## Chapter 1099 The Final Battle

On the lotus leaf platform, Doug, Mateo, and Rodney cautiously assumed their stances, casting wary glances at each other.

These three individuals were formidable Primogem Warriors, hovering around the six-tier and seven-star echelons, injecting an element of unpredictability into the impending fight.

Doug possessed the same rare fire-based special power as his brother, thereby facing a considerable disadvantage amidst the heavily water-infused surroundings of Lotus Lake.

Despite this setback, Doug exuded confidence in his exceptional command of fire-based special power. Doug adeptly wielded fire, sculpting and hurling fireballs with impeccable precision.

Mateo had the special power of metal manipulation. This special power allowed him to transmute his body into metal, greatly enhancing both his defensive and offensive prowess on the battlefield.

Empowered by his metal transformation ability, Mateo became formidable, instilling him with the confidence of emerging victorious.

Rodney, on the other hand, possessed an awakened special power that surpassed the capabilities of both

### Mateo and Doug.

Right from the onset of the fight, Rodney's physique erupted with dazzling bursts of lightning, unveiling the exceedingly rare thunder element!

Instantaneously, Rodney was engulfed by crackling lightning, adopting the formidable aura akin to that of a thunder God.

With the battle commencing, Rodney unleashed a tempest of electrical might, surging directly towards Doug and Mateo.

Lightning crackled around Rodney, harmonizing with the distant thunderous rumble, exuding a terrifying force capable of pulverizing his adversaries into oblivion!

Confronted with the overpowering surge of electric energy, Mateo and Doug felt stunned. Frantically, each unleashed their special power in a desperate bid to withstand Rodney's thunderous onslaught.

Gradually, the lightning dissipated over the course of thirty seconds.

Recognizing the imminent threat posed by Rodney, Mateo and Doug forged an alliance, strategizing to eliminate Rodney from the competition first.

Utilizing his metal manipulation special power, Mateo absorbed the full force of Rodney's electrical assault as Doug tactfully employed fireballs to sap Rodney's stamina from afar.

Confronted by the coordinated assault of his two opponents, Rodney swiftly felt his energy draining, his movements becoming labored as fatigue set in.

In that crucial moment, Doug launched a concentrated fire ball, hitting Rodney squarely.

Upon impact, the energy ball detonated with devastating force, propelling Rodney forcefully out of the arena!

Crashing onto the ground below the lotus leaf platform, Rodney came to terms with his defeat in the duel. Frustrated and brooding, he couldn't contain his dissatisfaction, uttering, "Is this your strategy? Disgraceful!"

However, Rodney's outburst of anger was met with silence.

Disregarded, Rodney's expression twitched, leading him to seek out Liam and whisper, "We may need to initiate the major confrontation earlier than planned. Prepare yourself!"

Liam furrowed his brow slightly, casting a glance at Rodney.

Evidently, Rodney had abandoned his commitment to the established rules governing the three groups, opting instead to seize the Universe Crystal Dew by force!

Following Rodney's elimination, the skirmish on the lotus leaf platform persisted.

With Rodney's absence, Mateo, leveraging his metal manipulation ability, adeptly countered Doug's fire elemental energy attacks, swiftly gaining the advantage.

Encountering Mateo's unrelenting onslaught, Doug found himself gradually pushed backward.

Nevertheless, Doug maintained his composure. His gaze sharpened, signaling his strategic intent as he subtly initiated his maneuver.

Considering his role as one of the leaders, it was only natural for Doug to have a backup plan.
