

Chapter 1134 Great Improvement

The Universe Crystal Dew made Liam's body feel incredibly comfortable.

Liam felt so good that he involuntarily let out a moan.

Furthermore, he had not even realized that his strength had silently advanced from a three-star level-six to an impressive rank of five-star level-six!

At this moment, he was thoroughly enjoying the pleasure of his enhanced spiritual power. It was as if he had attained a deeper, more comprehensive understanding of his special power.

The effect of a single Universe Crystal Dew on Liam was beyond measure!

It took nearly half an hour for Liam to fully absorb the energy of the Universe Crystal Dew.

After this session, Liam felt as refreshed as if he had experienced the finest massage, his body overflowing with energy.

Even the subtle white radiance at his heart's core was slightly replenished by the immense energy of the Universe Crystal Dew.

Suddenly, Liam opened his eyes, astonished by the transformation in his skills.

Excited to test his special power, he didn't hesitate for a moment.

A soft yellow glow surrounded him, signifying his control over his special power of the earth element.

As he assessed this special power, he discovered that the energy he could now harness felt thicker, almost solid as it floated in front of him.

His control over the gravitational fields had become so refined that he could focus his control on specific parts of a creature.

Moreover, Liam felt a new affection for the earth beneath him.

Thrilled by his surge in power, Liam was now significantly closer to reaching the eighth-tier strength he had long sought.

But just as he was about to explore another special power, a sudden chill ran up his spine.

It caused his hair to stand on end in an instant!

Liam sensed an incoming danger.

Almost simultaneously, Liam used his special power of the earth element, a shield forming behind him. It formed a nearly cruciform barrier that effortlessly blocked the attack from an unseen enemy.

Liam came out of the encounter unharmed, his strength evidently boosted by the recent improvement.

Turning around, Liam faced his assailant, a shadow beast that had silently slipped into the valley.

Taken aback that its attack had not injured Liam, the shadow beast looked at Liam with wide eyes.

Realizing it was outmatched by Liam, the shadow beast did not flee but rather disappeared into the dark, trusting in its innate abilities.

The shadow beast believed Liam couldn't do anything to it.

But at that moment, there was suddenly a brilliant beam of light coming from Liam's body.

This was Liam using his special power of the light element!

When he unleashed this special power, the shadow beast, previously unseen in the dark, was exposed.

A slight smirk crossed Liam's face. This was an ideal opportunity to test his strength.

The arrival of this shadow beast was perfectly timed, and Liam was ready to fight.
